FEDERAL EMERGENCY MANAGEMENT AGENCY

[FEMA-1147-DR]

Hawaii; Major Disaster and Related Determinations

AGENCY: Federal Emergency
Management Agency (FEMA).

ACTION: Notice.

SUMMARY: This is a notice of the Presidential declaration of a major disaster for the State of Hawaii (FEMA-1147-DR), dated November 26, 1996, and related determinations.

EFFECTIVE DATE: November 26, 1996.

FOR FURTHER INFORMATION CONTACT: Magda Ruiz, Response and Recovery Directorate, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-3260.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated November 26, 1996, the President declared a major disaster under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 *et seq.*), as follows:

I have determined that the damage in certain areas of the State of Hawaii, resulting from prolonged and heavy rains, high surf, flooding, landslides, mudslides, and severe storms beginning on November 5, 1996, and continuing, is of sufficient severity and magnitude to warrant a major disaster declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act ("the Stafford Act"). I, therefore, declare that such a major disaster exists in the State of Hawaii.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes, such amounts as you find necessary for Federal disaster assistance and administrative expenses.

You are authorized to provide Public Assistance and Hazard Mitigation in the designated areas. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance or Hazard Mitigation will be limited to 75 percent of the total eligible costs.

The time period prescribed for the implementation of section 310(a), Priority to Certain Applications for Public Facility and Public Housing Assistance, 42 U.S.C. 5153, shall be for a period not to exceed six months after the date of this declaration.

Notice is hereby given that pursuant to the authority vested in the Director of the Federal Emergency Management Agency under Executive Order 12148, I hereby appoint David Grier of the Federal Emergency Management Agency to act as the Federal Coordinating Officer for this declared disaster.

I do hereby determine the following area of the State of Hawaii to have been affected adversely by this declared major disaster:

The Island of Oahu for Public Assistance and Hazard Mitigation.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Health Care Policy and Research

Nominations of Topics for Evidence-based Practice Centers (EPCs)

The Agency for Health Care Policy and Research (AHCPR) invites nominations of topics for evidence reports on the prevention, diagnosis, treatment, and management of common diseases and clinical conditions and, where appropriate, the use of alternative/complementary therapies, and for technology assessments of specific medical procedures or health care technologies.

As part of the effort to reorganize and restructure its programs, AHCPR is no longer facilitating the development of clinical practice guidelines and is expanding its program of health care

technology assessments. AHCPR will serve as a science partner with private-sector and other public organizations in their efforts to improve the quality, effectiveness, and appropriateness of health care delivery in the United States. The Agency's goal is to narrow the gap between what is known and what is done in health care. AHCPR will support Evidence-based Practice Centers (EPCs) to undertake scientific analyses and evidence syntheses of high-priority topics. The EPCs will produce science syntheses—evidence reports and technology assessments—that provide the scientific foundation for public and private organizations to use in developing and implementing their own practice guidelines, performance measures, and other tools to improve the quality of health care and in making decisions related to the effectiveness or appropriateness of specific health care technologies.

The process that AHCPR will employ to select priority topics for analyses by the EPCs is described below.

Background

Under Title IX of the Public Health Service Act, AHCPR is charged with enhancing the quality, appropriateness, and effectiveness of health care services and access to such services. AHCPR accomplishes these goals through scientific research and through promotion of improvements in clinical practice (including the prevention of diseases and other health conditions) and improvements in the organization, financing, and delivery of health care services (42 U.S.C. 299-299c-6 and 1320b-12). In carrying out these purposes, AHCPR, among other activities, has in the past arranged for the development of clinical practice guidelines and has conducted assessments of health care technologies.

Through the creation of EPCs, AHCPR will be better able to serve as a science partner with private-sector and other public organizations in addressing a greater number of health care topics and a broader range of clinical conditions and health problems. The EPCs will provide a strong scientific foundation for private and public organizations to use in their own efforts to improve clinical practice. The EPCs will conduct literature reviews and assess and synthesize scientific evidence to produce evidence reports and technology assessments. The reports and assessments will provide systems of care, provider societies, health plans, public and private purchasers, States, and others a scientific foundation for development and implementation of their own practice guidelines, clinical
