

published in the Federal Register on September 27, 1995 (60 FR 49924). In accordance with these procedures, oral or written statements may be presented by members of the public, electronic recordings will be permitted only during those portions of the meeting that are open to the public, and questions may be asked only by members of the Committee, its consultants, and staff. Persons desiring to make oral statements should notify the Chief, Nuclear Waste Branch, Mr. Richard K. Major, as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements. Use of still, motion picture, and television cameras during this meeting may be limited to selected portions of the meeting as determined by the ACNW Chairman. Information regarding the time to be set aside for this purpose may be obtained by contacting the Chief, Nuclear Waste Branch prior to the meeting. In view of the possibility that the schedule for ACNW meetings may be adjusted by the Chairman as necessary to facilitate the conduct of the meeting, persons planning to attend should check with Mr. Major if such rescheduling would result in major inconvenience.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by contacting Mr. Richard K. Major, Chief, Nuclear Waste Branch (telephone 301/415-7366), between 8:00 a.m. and 5:00 p.m. edt.

ACNW meeting notices, meeting transcripts, and letter reports are now available on FedWorld from the "NRC MAIN MENU." Direct Dial Access number to FedWorld is (800) 303-9672; the local direct dial number is 703-321-3339.

Dated: February 15, 1996.

Andrew L. Bates,

Advisory Committee Management Officer.

BILLING CODE 7590-01-P

Advisory Committee on Reactor Safeguards, Subcommittee Meeting on Planning and Procedures; Notice of Meeting

The ACRS Subcommittee on Planning and Procedures will hold a meeting on March 6, 1996, Room T-2B1, 11545 Rockville Pike, Rockville, Maryland.

The entire meeting will be open to public attendance, with the exception of a portion that may be closed pursuant

to 5 U.S.C. 552b(c) (2) and (6) to discuss organizational and personnel matters that relate solely to internal personnel rules and practices of ACRS, and matters the release of which would constitute a clearly unwarranted invasion of personal privacy.

The agenda for the subject meeting shall be as follows: *Wednesday, March 6, 1996—1:30 p.m. until 4:00 p.m.*

The Subcommittee will discuss proposed ACRS activities and related matters. It will also discuss the qualifications of candidates nominated for appointment to the ACRS. The purpose of this meeting is to gather information, analyze relevant issues and facts, and to formulate proposed positions and actions, as appropriate, for deliberation by the full Committee.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Electronic recordings will be permitted only during those portions of the meeting that are open to the public, and questions may be asked only by members of the Subcommittee, its consultants, and staff. Persons desiring to make oral statements should notify the cognizant ACRS staff person named below five days prior to the meeting, if possible, so that appropriate arrangements can be made.

Further information regarding topics to be discussed, the scheduling of sessions open to the public, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted therefor can be obtained by contacting the cognizant ACRS staff person, Dr. John T. Larkins (telephone: 301/415-7360) between 7:30 a.m. and 4:15 p.m. (EST). Persons planning to attend this meeting are urged to contact the above named individual one or two working days prior to the meeting to be advised of any changes in schedule, etc., that may have occurred.

Dated: February 15, 1996.

Sam Duraiswamy,

Chief, Nuclear Reactors Branch.

BILLING CODE 7590-01-P

Advisory Committee on Reactor Safeguards, Subcommittee Meeting on Instrumentation and Control Systems and Computers; Notice of Meeting

The ACRS Subcommittee on Instrumentation and Control Systems and Computers will hold a meeting on

March 6, 1996, Room T-2B3, 11545 Rockville Pike, Rockville, Maryland.

The meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows:

Wednesday, March 6, 1996—8:30 a.m. Until the Conclusion of Business

The Subcommittee will review proposed Regulatory Guides, Standard Review Plan Sections, and Branch Technical Positions related to the digital instrumentation and control systems. The purpose of this meeting is to gather information, analyze relevant issues and facts, and to formulate proposed positions and actions, as appropriate, for deliberation by the full Committee.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Electronic recordings will be permitted only during those portions of the meeting that are open to the public, and questions may be asked only by members of the Subcommittee, its consultants, and staff. Persons desiring to make oral statements should notify the cognizant ACRS staff engineer named below five days prior to the meeting, if possible, so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC staff, its consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been canceled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by contacting the cognizant ACRS staff engineer, Mr. Michael Markley (telephone 301/415-6885) between 7:30 a.m. and 4:15 p.m. (EST). Persons planning to attend this meeting are urged to contact the above named individual one or two working days prior to the meeting to be advised of any potential changes to the agenda, etc., that may have occurred.

Dated: February 15, 1996.

Sam Duraiswamy,

Chief, Nuclear Reactors Branch.

BILLING CODE 7590-01-P

[Project No. 672]**Issuance of the Draft of the Final Preapplication Safety Evaluation Report for the Modular High-Temperature Gas-Cooled Reactor**

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Notice of Issuance of a Safety Evaluation Report for an Advanced Reactor Design.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing the draft of the final preapplication safety evaluation report (PSER) for the modular high-temperature gas-cooled reactor (MHTGR) proposed by the U.S. Department of Energy (DOE). The NRC has been conducting a preapplication review of the MHTGR design since 1986 at the request of DOE and in a manner consistent with the Commission's Advanced Reactor Policy Statement (51 FR 24643, July 8, 1986). The preapplication review process is described in NUREG-1226, "Development and Utilization of the NRC Policy Statement on the Regulation of Advanced Nuclear Power Plants," June 1988, and is conducted before an application is submitted for design approval: preliminary design approval, final design approval, or design certification under 10 CFR Part 52. The PSER is comprised of two volumes: Volume 1, which contains the staff's preapplication review of the MHTGR design and the staff's conclusions on the design from this review, and Volume 2, which contains the appendices to the draft PSER. Volume 2 of the draft PSER is being issued without copies of the documents listed in Appendices C through J to reduce its size. These documents are in the PDR or in NRC Central Files, and are not essential for the staff's discussion of MHTGR licensability and policy issues in the draft PSER. They will be issued with the publication of the final PSER for completeness and will be made available to the public for the draft PSER upon request.

A copy of the draft PSER has been placed in NRC's Public Document Room, the Gelman Building, 2120 L Street, N.W., Washington, D.C. 20555, for review by interested persons.

FOR FURTHER INFORMATION CONTACT: Jack N. Donohew, NRC, Office of Nuclear Reactor Regulation, Washington, DC 20555-0001, telephone (301) 415-1307.

Dated at Rockville, Maryland, this 14 day of February, 1996.

For the Nuclear Regulatory Commission.
Theodore R Quay,

*Director, Standardization Project Directorate,
Division of Reactor Program Management,
Office of Nuclear Reactor Regulation.*

BILLING CODE 7590-01-P

Operator Licensing Examination Standards Draft Revision; Notice of Availability and Request for Comment

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of Availability and Request for Comment.

SUMMARY: NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," (formerly "Operator Licensing Examiner Standards") provides guidance for the development, administration, and grading of written examinations and operating tests used to determine the qualifications of individuals who apply for operator and senior operator licenses at nuclear power plants pursuant to Part 55 of Title 10 of the *Code of Federal Regulations* (10 CFR 55). The NUREG provides similar guidance for verifying the continued qualifications of licensed operators when the staff determines that NRC requalification examinations are necessary.

The Examination Standards have been revised to incorporate the examination development process described in Generic Letter 95-06, "Changes in the Operator Licensing Program," including lessons learned during the pilot examination program that began in October 1995. The guidance that was previously contained in NUREG/BR-0122, "Examiners' Handbook for Developing Operator Licensing Written Examinations," has been appended to the Examination Standards, and a number of minor improvements and clarifications that were recommended by industry groups, licensed operators, and NRC examiners and managers have also been adopted. The entire NUREG has been reformatted to more clearly identify the various organizational responsibilities and will be reissued in its entirety.

The staff believes that it would be beneficial to solicit public comments on this revision from all interested parties. The staff is also interested in obtaining an estimate of the burden that assuming responsibility for drafting the initial license examinations will place on facility licensees. Commenters should recognize that presently most NRC examinations are drafted by NRC contractors and that the contractor costs

are passed on to the facility at which the examination is administered. The revised Examination Standards will eliminate contractor support, while the NRC direct resources involved in operator licensing are projected to remain constant. After considering the public comments, the NRC staff plans to brief the Commission and seek its approval to implement the revised process. Pending Commission approval and any additional changes that might be necessary, the staff expects to issue the revised Examination Standards and implement the revised examination process at or near the beginning of fiscal year 1997.

DATE: The comment period ends March 25, 1996. Comments received after this date will be considered if it is practical to do so, but the staff is able to assure consideration only for comments received on or before this date.

ADDRESSES: Mail written comments to Chief, Rules Review and Directives Branch, Division of Freedom of Information and Publications Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

Deliver comments to 11555 Rockville Pike, Rockville, Maryland, between 7:45 am and 4:15 pm Federal workdays. Copies of comments received and draft revisions of NUREG-1021 are available for review and/or copying for a fee in the NRC's Public Document Room, 2120 L Street (Lower Level), Washington, DC. NUREG-1021 is also electronically available for downloading from the Internet at "<http://www.nrc.gov/news.htm#exam>".

FOR FURTHER INFORMATION CONTACT: Fred Guenther, Mail Stop O10-D22, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555; telephone (301) 504-1056; and email at "SXG@NRC.GOV".

Dated at Rockville, Maryland, this 15th day of February 1996.

For the Nuclear Regulatory Commission.

Stuart A. Richards,

*Chief, Operator Licensing Branch, Division of Reactor Controls, and Human Factors,
Office of Nuclear Reactor Regulation.*
