

(OMB) for review and comment. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before March 29, 1996.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 0982.05 and OMB No. 2060-0016.

SUPPLEMENTARY INFORMATION:

Title: Standards of Performance for Metallic Mineral Processing Plants (Subpart LL) OMB Control No. 2060-0016; EPA ICR No. 982.05). This is a request for revision of a currently approved collection.

Abstract: The Administrator has judged that PM emissions from metallic mineral processing plants cause or contribute to air pollution that may reasonably be anticipated to endanger public health or welfare. Owners/operators of metallic mineral processing plants must notify EPA of construction, modification, startups, shut downs, date and results of initial performance test. Owners/operators with facilities using any wet scrubbing device shall install, calibrate, and maintain continuous monitoring devices to measure pressure drop and flow rate. Weekly records of the pressure drop and flow rate are to be maintained, and semi-annual reports are to be submitted when the pressure drop and flow rate differ 30% from the most recent performance test.

In order to ensure compliance with the standards promulgated to protect public health, adequate reporting and recordkeeping is necessary. In the absence of such information enforcement personnel would be unable to determine whether the standards are being met on a continuous basis, as required by the Clean Air Act.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on September 29, 1995 and no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 2068 hours per year. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain,

or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: 20.5.
Estimated Number of Respondents: 20.5.

Frequency of Response: 2.
Estimated Number of Responses: 41.
Estimated Total Annual Hour Burden: 2185 hours.

Estimated Total Annualized Cost Burden: \$66,549.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 0982.05 and OMB Control No. 2060-0016 in any correspondence.

Agency Information Collection Activities Under OMB Review; New Collection; Design for the Environment Screen Printer Survey

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Office of Prevention, Pesticides and

Toxic Substances (OPPTS) is seeking approval for a new Information Collection Request (ICR) from the Office of Management and Budget (OMB). As such, OPPTS has forwarded the following ICR to OMB: Design for the Environment (DfE); Screen Printing Survey (OMB Control No. 2070-(to be assigned); EPA ICR No. 1769.02). The ICR describes the nature of the information collection and its expected cost and burden; and, where appropriate, it includes the actual data collection instrument. On September 29, 1995, OPPTS published a notice in the Federal Register (60 FR 50568), requesting comment on this proposed collection and the draft ICR. OPPTS did not receive any comments.

DATES: Comments must be submitted on or before March 28, 1996.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA, 202-260-2740, and refer to EPA ICR No. 1769.02.

SUPPLEMENTARY INFORMATION:

Title: Design for the Environment (DfE) Screen Printing Survey (OMB Control No. 2070-(to be assigned); EPA ICR No. 1769). This is a new collection.

Abstract: EPA's DfE program is a voluntary, non-regulatory approach to encourage industry to adopt technologies and use materials that result in lower levels of pollution, lessened reliance on toxic materials, higher energy efficiency and lower environmental health risks. Through DfE, EPA creates partnerships with industry, professional organizations, state and local governments, other federal agencies and the public to develop and disseminate technical information.

This collection will focus on facilities that print graphic arts materials, such as fine art prints, billboard advertisements, posters, and electronic equipment. EPA, the Screen Printing and Graphic Imaging Association international (SGIA, the principal association of the screen printing industry), and the University of Tennessee Center for Clean Products and Clean Technologies have developed technical information for screen printing facilities on the use of screen reclamation processes and other workplace practices that may lower health risks to workers and prevent pollution. The purpose of the collection is to evaluate the impact of such DfE technical information on screen printing industry practices, use of materials, and waste generation. The collection will involve two telephone surveys of owners or operators of screen printing establishments: an initial survey of a sample of 350 screen printing establishments, and a follow-up

survey to be administered about two years later. This notice addresses burden estimates only for the initial survey. Responses to the collection of information are voluntary. EPA and the EPA contractor administering the survey will observe strict confidentiality precautions, based on the Privacy Act of 1974, which are outlined in detail in the ICR.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1.25 hours per response. This estimate includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to respond to a collection of information; search existing data sources; complete and review the collection of information; and transmit or otherwise disclose the information. No person is required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are displayed in 40 CFR Part 9.

Respondents/Affected Entities: Companies engaged in screen printing or other graphics-imaging activities.

Estimated No. Of Respondents: 350.

Estimated Total Annual Burden on Respondents: 438 hours.

Frequency of Collection: On occasion.

Send comments regarding the burden estimate, or any other aspect of the information collection, including suggestions for reducing the burden, to the following addresses. Please refer to EPA ICR No. 1769 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, Information Policy Branch (2136), 401 M Street, SW., Washington, DC 20460.

and

Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

Dated: February 22, 1996.

Clean Air Act Advisory Committee; Notice of Meeting

SUMMARY: The Environmental Protection Agency (EPA) established the Clean Air Act Advisory Committee (CAAAC) on November 19, 1990 to provide independent advice and counsel to EPA on policy issues associated with the implementation of the Clean Air Act of 1990. The Advisory Committee shall be consulted on economic, environmental, technical, scientific, and enforcement policy issues.

OPEN MEETING NOTICE: Pursuant to 5 U.S.C. App. 2 Section 10(a)(2), notice is hereby given that the Clean Air Act Advisory Committee will hold its next open meeting on Friday, March 22, 1996 from 8:30 a.m.-4:30 p.m. at the Radisson Plaza Hotel at Mark Center, 5000 Seminary Road, Alexandria, Virginia. Seating will be available on a first come, first served basis. The Ozone, PM and Regional Haze Subcommittee will conduct a meeting on Thursday, March 21, 1996 from 8:00 a.m.-5:00 p.m. The Permits/NSR/Toxics Integration Subcommittee, the Economic Incentives and Regulatory Innovations Subcommittee and the Linking Transportation and Air Quality Concerns Subcommittee will conduct meetings on Thursday evening, March 21, 1996 from 7:00 p.m.-9:30 p.m. Subcommittee meeting time may change at the discretion of the co-chairs.

INSPECTION OF COMMITTEE DOCUMENTS:

The committee agenda and any documents prepared for the meeting will be publicly available at the meeting. Thereafter, these documents, together with the CAAAC meeting minutes will be available by contacting Committee DFO Karen Smith at (202) 260-6379.

FOR FURTHER INFORMATION CONTACT: For information concerning this meeting of the CAAAC please contact Karen Smith, Office of Air and Radiation, US EPA (202) 260-6379, FAX (202) 260-5155, or by mail at US EPA, Office of Air and Radiation (Mail Code 6101), Washington, D.C. 20460. For more information concerning the Ozone, PM and Regional Haze portion of this meeting contact Denise Gerth of the Office of Air Quality Planning and Standards at (919) 541-5550. If you would like to receive an agenda for this meeting, please leave your fax number on Ms. Smith's voice mail and it will be forwarded to you.

Dated: February 23, 1996.

Mary D. Nichols,

Assistant Administrator for Air and Radiation.

Propoxur; Decision Not to Initiate a Special Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This Notice announces EPA's decision not to initiate a Special Review for the insecticide propoxur (Baygon, Sendran; 2-isopropoxy-phenyl-N-methylcarbamate). Propoxur was being considered for Special Review because of potential carcinogenic risks to applicators and home residents from the registered uses. After evaluating new exposure and carcinogenicity data, and in light of voluntary cancellation and label amendment actions which eliminated those uses posing the greatest concern, EPA believes that the estimated risks do not warrant initiation of a Special Review.

FOR FURTHER INFORMATION CONTACT: By mail: Monica F. Spann, Special Review Branch, Special Review and Reregistration Division (7508W), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location, telephone number, and e-mail address: Special Review Branch, 3rd Floor, Crystal Station #1, 2800 Crystal Drive, Arlington, VA, Telephone: 703-308-8032, e-mail: spann.monica@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: In the Federal Register of January 13, 1995 (60 FR 3210), EPA announced its proposed decision (and solicitation for public comment) not to initiate a Special Review of propoxur based on carcinogenic risks posed to applicators and home residents. The Agency has received one comment from the sole registrant, Bayer Corporation, and decided to maintain the decision not to initiate a Special Review. This notice provides the Agency's final decision, its response to comment, and the rationale for its final decision. For more detailed information, see 60 FR 3210.

I. Introduction

Propoxur (2-isopropoxy-phenyl-N-methylcarbamate) is a carbamate insecticide for the control of insects and other arthropods inside and outside of buildings and on pets. The holders of
