SUPPLEMENTARY INFORMATION:**I. Abstract**

The Census Bureau is the preeminent collector and provider of timely, relevant, and quality data about the people and economy of the United States. Economic data are the Census Bureau's primary program commitment during nondecennial census years. The economic census, conducted under

authority of Title 13 U.S.C., is the primary source of facts about the structure and functioning of the Nation's economy and features unique industry and geographic detail. Economic census statistics serve as part of the framework for the national accounts and provide essential information for government, business and the general public. The 1997 Economic Census will cover virtually every sector of the U.S. economy including approximately 594,000 professional, management, and support services establishments; 469,000 health and social assistance establishments; 22,000 educational services establishments; 79,000 arts, entertainment, and recreation establishments; and 373,000 other services establishments.

II. Method of Collection

Establishments in these sectors of the economic census will be selected for mailout from a frame given by the Census Bureau's Standard Statistical Establishment List. To be eligible for selection, an establishment will be required to satisfy the following conditions: (i) It must be classified in the professional, management, and support services; health and social assistance; educational services; arts, entertainment, and recreation; or other services sectors; (ii) it must be an active operating establishment of a multi-establishment firm, or it must be a single-establishment firm with payroll; and (iii) it must be located in one of the 50 states or the District of Columbia. Mail selection procedures will distinguish the following groups of establishments:

A. Establishments of Multi-Establishment Firms

Selection procedures will assign all active operating establishments of multi-establishment firms to the mail component of the potential respondent universe. We estimate that the census mail canvass for 1997 will include approximately 136,000 professional, management, and support services multi-establishment firms; 114,000 health and social assistance multi-establishment firms; 3,000 educational services multi-establishment firms; 9,000 arts, entertainment, and recreation multi-establishment firms; and 75,000 other services multi-establishment firms.

B. Single-Establishment Firms With Payroll

As an initial step in the selection process, we will conduct a study of the potential respondent universe for
