

5. ANR Pipeline Company

[Docket No. CP96-208-000]

Take notice that on February 21, 1996, ANR Pipeline Company (ANR), 500 Renaissance Center, Detroit, Michigan 48243, filed in Docket No. CP96-208-000 an application pursuant to Section 7(c) of the Natural Gas Act for authorization to use additional work space associated with a pipeline replacement project in St. Landry Parish, Louisiana, all as more fully set forth in the application on file with the Commission and open to public inspection.

ANR proposes to replace a 1.2 mile segment of its Southeast Mainline because of increased population density and in order to satisfy U.S. Department of Transportation safety regulations. ANR states that in order to accomplish this replacement construction it will have to utilize work areas which may not have been included in the scope of the authorizations for these facilities when they were originally certificated and constructed. Therefore, ANR requests the temporary use of work space adjacent to the right-of-way of the pipeline being replaced. It is stated that the construction will be done under the authority of Section 2.55 of the Commission's Regulations, which authorizes replacement within the existing right-of-way.

Comment date: March 18, 1996, in accordance with Standard Paragraph F at the end of this notice.

Standard Paragraphs

F. Any person desiring to be heard or make any protest with reference to said filing should on or before the comment date file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice

and Procedure, a hearing will be held without further notice before the Commission or its designee on this filing if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for the applicant to appear or be represented at the hearing.

G. Any person or the Commission's staff may, within 45 days after the issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

Lois D. Cashell,

Secretary.

Agency Information Collection Activities Under OMB Review; New Source Performance Standards, Calciners and Dryers in the Mineral Processing Industry; OMB# 2060-0251, EPA# 0746.03

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3507(A)(1)(D)), this notice announces that the Information Collection Request (ICR) for Standards of Performance for New Stationary Sources—Calciners and Dryers in the Mineral Industry (Subpart UUU) described below has been forwarded to the Office of Management

and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual date collection instrument.

DATES: Comments must be submitted on or before April 4, 1996.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 746.03 and OMB No. 2060-0251.

SUPPLEMENTARY INFORMATION: *Title:* Standards of Performance for Calciners and Dryers in Mineral Industries (Subpart UUU) OMB Control No. 2060-0251; EPA ICR No. 0746.03. This is a request for revision of a currently approved collection.

Abstract: The Administrator has judged that PM emissions from calciners and dryers in the mineral industry cause or contribute to air pollution that may reasonably be anticipated to endanger public health or welfare. Owners/operators of calciners and dryers must notify EPA of construction, modification, startups, shut downs, date and results of initial performance test. Owners/operators with facilities using any wet scrubbing device shall install, calibrate, and maintain continuous monitoring devices to measure pressure drop and flow rate. Weekly records of the pressure drop and flow rate are to be maintained, and semi-annual reports are to be submitted when the pressure drop is less than 90% of the average value, and/or the flow rate is less than 80% or greater than 120%, from the most recent performance test recorded according to § 60.736(c).

In order to ensure compliance with the standards promulgated to protect public health, adequate reporting and recordkeeping is necessary. In the absence of such information enforcement personnel would be unable to determine whether the standards are being met on a continuous basis, as required by the Clean Air Act.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on September 29, 1995 and no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 51 hours per

response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: 155.
Estimated Number of Responses: 310.
Frequency of Response: 2.

Estimated Total Annual Hour Burden: 15,668 hours.

Estimated Total Annualized Cost Burden: \$477,090.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 0746.03 and OMB Control No. 2060-0251 in any correspondence.

TSCA; Agency Information Collection Activities Under OMB Review

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the Office of Prevention, Pesticides and Toxic Substances (OPPTS) is seeking the renewal of an existing Information

Collection Request (ICR) from the Office of Management and Budget (OMB). OPPTS has forwarded the following ICR to OMB: TSCA Section 12(b) Notification of Chemical Exports (OMB Control No. 2070-0030, EPA ICR No. 795), which is abstracted below. The ICR describes the nature of the information collection and its expected cost and burden; where appropriate, it includes the actual data collection instrument. EPA requested comments on this ICR and its proposed renewal in a Federal Register notice on September 29, 1995 (60 FR 50568). The sole comment received was considered prior to finalizing this ICR.

DATES: Comments must be submitted on or before April 4, 1996.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA (202) 260-2740, and refer to EPA ICR No. 0795.09.

SUPPLEMENTARY INFORMATION: *Title:* Notification of Chemical Exports (OMB Control No. 2070-0030, EPA ICR No. 0795). This is a request for extension of a currently approved information collection which expires on April 30, 1996.

Abstract: Section 12(b)(2) of the Toxic Substances Control Act (TSCA) requires that any person who exports or intends to export to a foreign country a chemical substance or mixture that is regulated under TSCA sections 4, 5, 6 and/or 7 submit to EPA notification of such export or intent to export. Upon receipt of notification, EPA will advise the government of the importing country of the U.S. regulatory action with respect to that substance. EPA uses the information obtained from the submitter via this collection to advise the government of the importing country. Responses to the collection of information are mandatory (see 40 CFR part 707). Respondents may claim all or part of a notice confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2. However, notwithstanding any claims of confidentiality, the government of the importing country will be notified of the export of the substances in question.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 0.55 hours per response. This estimate includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing

and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. No person is required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are displayed in 40 CFR Part 9.

Respondents/Affected Entities: Those which export or engage in wholesale sales of chemicals.

Estimated No. Of Respondents: 200.

Estimated Total Annual Burden on Respondents: 3,800 hours.

Frequency of Collection: On occasion.

Send comments regarding the burden estimate, or any other aspect of the information collection, including suggestions for reducing the burden, to the following address. Please refer to EPA ICR No. 0795.09 and OMB Control No. 2070-0030 in any correspondence.
