Resource Advisory Council; Idaho; Meeting

AGENCY: Bureau of Land Management, Upper Columbia Salmon Clearwater Districts, Idaho.

ACTION: Notice of Resource Advisory Council Meeting.

SUMMARY: In accordance with the Federal Land Policy and Management Act and the Federal Advisory Committee Act of 1972 (FACA), 5 U.S.C. Appendix, the Bureau of Land Management (BLM) announces the meeting of the Upper Columbia Salmon Clearwater Districts Resource Advisory Council (RAC) on Thursday, March 21 and Friday, March 22, 1996 in Coeur d'Alene, Idaho. The meeting will be held at the BLM office at 1808 North Third Street in Coeur d'Alene.

The purpose of the meeting is for the RAC members to continue discussions concerning proposed rangeland standards and guidelines. Other administrative issues may be discussed as time permits. The RAC will meet from 8:00 a.m. to 4:30 p.m. each day. The public may address the Council during the public comment period on March 21, 1996 starting at 1:30 p.m.

SUPPLEMENTARY INFORMATION: All Resource Advisory Council meetings are open to the public. Interested persons may make oral statements to the Council, or written statements may be submitted for the Council's consideration. Depending on the number of persons wishing to make oral statements, a per-person time limit may be established by the District Manager.

The Council's responsibilities include providing long-range planning and establishing resource management priorities; and assisting the BLM to identify state standards for rangeland health and guidelines for grazing.

FOR FURTHER INFORMATION CONTACT: Ted Graf (208) 769-5004.

Dated: February 26, 1996.

Fritz U. Rennebaum,

District Manager.

Sec. 18, S¹/₂ lot 2, S¹/₂ lot 3, N¹/₂ lot 4, lot 5, lot 6.

Containing 144.20± acres (Trona-Argus SLF).

The above public lands aggregate 2,344.37 acres, more or less. The descriptions and acreage for the 29 Palms SLF and the Trona-Argus SLF will be revised by survey and approval of supplemental plats for the affected lands.

Approximately 71 percent, or 1,676.94 acres, have been classified and leased for nine existing landfills since 1963-1965. Of the nine existing sanitary landfills proposed for conveyance, the lands described for six locations (Newberry, Yermo, Victorville, Barstow, 29 Palms and Trona-Argus) include expansion areas aggregating 587.43 acres to meet future demands and new California State requirements for buffer zones. In addition, a new 40.00 acre transfer station, to be selected from the two alternatives described above, is proposed for the Newberry area. All sites are located in and serve communities of San Bernardino County. This action will consolidate the existing classifications, and classify all of the existing and additional lands as suitable for use under the RPP Act and to open the lands for conveyance for landfill purposes.

This action also constitutes a Notice of Intent by the Bureau to initiate an amendment to the California Desert Conservation Area (CDCA) Plan to change the existing Multiple-Use Class (MUC) "Limited" designations at three locations (Newberry Transfer Alternative No. 1, Newberry SLF, Yermo SLF) to "Unclassified". Public lands in the CDCA must be classified as either MUC M (moderate use) or be unclassified in order to be patented.

An environmental assessment will be prepared to analyze the proposed plan

amendment, and analyze the impacts of the suitability of public lands for classification and conveyance for landfill purposes under the RPP Act. A "Landfill Transfer Audit" (LTA) document will be prepared for each site/location. Following completion of the environmental assessment and upon signature of a Decision Record, and if the plan amendment as described above is approved, the classification of the public lands as suitable for conveyance will be effective, and the process to convey the public lands may be completed. Conveyance of the lands would be subject to the following terms, conditions and reservations:

1. Provisions of the RPP Act and applicable regulations of the Secretary of the Interior.
2. A right-of-way for ditches or canals constructed by the authority of the United States.
3. All valid and existing rights documented on the official public land records at the time of patent issuance.
4. All minerals shall be reserved to the United States, together with the right to prospect for, mine, and remove the minerals.

Upon publication of this Notice in the Federal Register, the public lands described above are segregated from all forms of appropriation under the public land laws, including the mining laws, except for conveyance under the RPP Act and leasing under the Mineral Leasing Act. A notice terminating the segregation on lands not classified suitable for conveyance will be published.

For information concerning these actions, contact Mike DeKeyrel (619-255-8730) or Edy Seehafer (619-255-8713), Barstow Resource Area, 150 Coolwater Lane, Barstow, CA 92311. For a period of 45 days after the publication of this notice in the Federal Register, interested parties may submit comments to the Area Manager, Barstow Resource Area at the above address.

PLAN AMENDMENT COMMENTS: Interested parties may submit comments concerning the proposed amendments to the CDCA Plan for public lands at the proposed Newberry Transfer Station, and the existing Newberry and Yermo landfills.

CLASSIFICATION COMMENTS: Interested parties may submit comments involving the suitability of the lands for sanitary landfill and/or transfer station purposes. Comments on the classification of lands are restricted to whether the lands are physically suited for the use, whether the use will maximize the use or future uses, whether the use is consistent with local planning and zoning, or whether

the use is consistent with State or Federal programs.

APPLICATION/ENVIRONMENTAL ASSESSMENT/CONVEYANCE COMMENTS: Interested parties may submit comments regarding the specific proposed use in the applications and plans of development, anticipated impacts of the proposal, and the Bureau's administrative procedure used in reaching a decision on conveyance of the public lands.

Dated: February 27, 1996.
