### NORTHEAST DAIRY COMPACT COMMISSION

#### Notice of Price Regulation Procedure: Request for Additional Comments

**AGENCY:** Northeast Dairy Compact Commission.

**SUMMARY:** The Commission has previously sought comment, and held a hearing, on a variety of issues relating to the possible establishment of a compact over-order price regulation. See 61 FR 65604 dated December 13, 1996. In this notice, the Commission is providing an additional opportunity for public comment on issues identified in the earlier notice and in the December hearings, and on related subjects.

1. The Commission seeks comment on historical trends or patterns as well as statistical methods or data that relate to the issues identified in the earlier notice.

2. The Commission also seeks comment on the prevailing farm, wholesale and retail costs and/or prices, for bulk and/or packaged milk, both inside and outside the New England region; the impact, if any, on the various production and processing costs discussed in the earlier notice attributable to the distance that bulk and packaged product must travel to and from a processing facility; and the elasticity of demand for Class I fluid milk products.

3. The Commission seeks comment on the impact, if any on the retail price of milk in the New England region caused by movement of the epicenter of the milk supply away from the region's processing facilities, and the identification of statistical data and methodologies for measuring that impact.

4. The Commission seeks comment on the impact, if any, of a flat, regulated, minimum Class I price (a price that combines the federal Market Order and Compact over-order prices) on wholesale costs, prevailing market

premium surcharges, state over-order pricing programs, Class I prices in the areas of New England not regulated under Federal Market Order 1 and any other potential impacts on the wholesale market for milk. The Commission also seeks comment on the level of premium surcharges that have been present in the New England market over time, the movement of bulk milk from New England to other regions of the country and the means for tracking the movement of packaged milk into New England from other regions.

5. The Commission seeks comment of the impact, if any, of such a flat Class I price on retail costs and prices, the fluid milk costs and price disbursements of the Women, Infants and Children Special Supplemental Nutrition Program of the United States Child Nutrition Act of 1966, and/or the fluid milk procurement process of school lunch programs. The Commission also seeks comment on the means to assess these impacts.

6. The Commission seeks comment on the most appropriate means to account for its responsibility to reimburse the Commodity Credit Corporation (CCC) for CCC purchases attributable to an increase in milk production in the New England region above the national average rate of increase.

7. The Commission also seeks comment on the appropriate, necessary and feasible, action to take, as required by the Compact, to ensure that Compact over-order price regulation does not result in additional supplies of milk.

8. The Commission is considering a possible Compact over-order price regulation that will be based, at least in part, on an adjustment for inflation to the Class I, fluid milk price, over time. The Commission seeks comment on the advisability of such an approach, as well as possible methodologies for determining the impact that such an adjustment would have on the Class I, fluid milk price, over time.

9. The Commission also seeks comment on any other issue of concern relating to establishment of a Compact over-order price regulation.

**DATES:** Comments and any exhibits, accompanied by affidavit, must be received by March 31, 1997.

Additional, reply comments, accompanied by affidavit, must be received by April 9, 1997.

**ADDRESSES:** Comments and exhibits should be submitted to: Northeast Dairy Compact Commission, 43 State Street, PO Box 1058, Montpelier, VT 05601-1058, (802) 229-1941 (phone), (802) 229-2028 (fax).

## **NUCLEAR REGULATORY COMMISSION**

### **Agency Information Collection Activities: Proposed Collection; Comment Request**

**AGENCY:** U. S. Nuclear Regulatory Commission (NRC)

**ACTION:** Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

**SUMMARY:** The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. The title of the information collection: 10 CFR Part 40, "Domestic Licensing of Source Material," NRC Form 244, "Registration Certificate—Use of Depleted Uranium under General License," and NRC Form 484, "Detection Monitoring Data Report."

2. Current OMB approval number: 3150-0020 for 10 CFR Part 40 and NRC Form 484 and 3150-0031 for NRC Form 244.

3. How often the collection is required: Reports required under 10 CFR

Part 40 are collected and evaluated on a continuing basis as events occur.

There is a one-time submittal of information to receive a license.

Renewal applications need to be submitted every 5 to 10 years.

Information in previous applications may be referenced without being resubmitted. In addition, recordkeeping must be performed on an on-going basis. NRC Form 244 is submitted when

depleted uranium is received or transferred under general license. NRC Form 484 is submitted biannually to report groundwater data necessary to implement EPA groundwater standards.

4. Who is required or asked to report: 10 CFR Part 40: Applicants for and holders of NRC licenses authorizing the receipt, possession, use, or transfer of radioactive source and byproduct material. NRC Form 244: Persons receiving, possessing, using, or transferring depleted uranium under the general license established in 10 CFR 40.25(a). NRC Form 484: Uranium recovery facility licensees reporting groundwater monitoring data pursuant to 10 CFR 40.65.

5. The number of annual respondents: 10 CFR Part 40: 156 for NRC licensees and 172 for Agreement State licensees.

NRC Form 244: 20 for NRC licensees and 40 for Agreement State licensees. NRC Form 484: Included in 10 CFR Part 40, above.

6. The number of hours needed annually to complete the requirement or request: 10 CFR Part 40: 26,049 hours for reporting requirements and 9,019 hours for recordkeeping requirements, or a total of 35,068 hours for NRC licensees; 28,083 hours for reporting requirements and 9,398 hours for recordkeeping requirements, or a total of 37,481 hours for Agreement State licensees. NRC Form 244: 20 hours for NRC licensees and 40 hours for Agreement State licensees for reporting requirements. NRC Form 484: Included in 10 CFR Part 40, above.

7. Abstract: 10 CFR Part 40 establishes requirements for licenses for the receipt, possession, use, and transfer of radioactive source and byproduct material. NRC Form 244 is used to report receipt and transfer of depleted uranium under general license, as required by 10 CFR Part 40. NRC Form 484 is used to report certain groundwater monitoring data required by 10 CFR Part 40 for uranium recovery licensees. The application, reporting, and recordkeeping requirements are necessary to permit the NRC to make a determination on whether the possession, use, and transfer of source and byproduct material is in conformance with the Commission's regulations for protection of public health and safety.

Submit, by May 13, 1997, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?
