Endangered Species; Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Receipt of an application for modification 3 to incidental take permit 844 (P503I).

SUMMARY: Notice is hereby given that the Idaho Department of Fish and Game in Boise, ID (IDFG) has applied in due form for modification 3 to permit 844 authorizing an incidental take of a threatened species associated with sport-fishing activities.

DATES: Written comments or requests for a public hearing on the modification application must be received on or before April 28, 1997.

ADDRESSES: The application and related documents are available for review in the following offices, by appointment:

Office of Protected Resources, F/PR3, NMFS, 1315 East-West Highway, Silver Spring, MD 20910-3226 (301-713-1401); and

Environmental and Technical Services Division, 525 NE Oregon Street, Suite 500, Portland, OR 97232-4169 (503-230-5400).

Written comments or requests for a public hearing should be submitted to the Chief, Environmental and Technical Services Division, Portland.

SUPPLEMENTARY INFORMATION: IDFG requests modification 3 to permit 844 under the authority of section 10 of the Endangered Species Act of 1973 (ESA) (16 U.S.C. 1531-1543) and the NMFS regulations governing ESA-listed fish and wildlife permits (50 CFR parts 217-227).

For modification 3 to permit 844, IDFG (P503I) requests authorization for an increase in the incidental take of adult, threatened, Snake River spring/summer chinook salmon (*Oncorhynchus tshawytscha*) associated with the opening of two sport fisheries on the Little Salmon River and the Clearwater River in Idaho. The fisheries are proposed to target adult, non-listed, hatchery-produced spring chinook salmon in these watersheds. The primary source of take would be the incidental catch and release of ESA-listed spring/summer chinook salmon that may be present in the fishery areas during the fisheries. IDFG will maintain efforts to minimize the impacts to ESA-listed fish, including public information, biological monitoring, and enforcement. An increase in the incidental mortality of adult, ESA-listed, Snake River spring/summer chinook salmon is also requested. Modification 3 is requested to be valid in 1997 only. Permit 844 expires on April 30, 1998.

Those individuals requesting a hearing on the permit modification request should set out the specific reasons why a hearing would be appropriate (see ADDRESSES). The holding of such a hearing is at the discretion of the Assistant
