### Research and Special Programs Administration

[Docket No. RSPA-97-2236; Notice 1]

#### Liquefied Natural Gas Facilities Petition for Waiver; Pine Needle LNG Company

Pine Needle LNG Company (Pine Needle) has petitioned the Research and Special Programs Administration (RSPA) for a waiver from compliance with 49 CFR 193.2155(c), Liquefied Natural Gas (LNG) storage tank impounding system. Section 193.2155(c) requires a Class 1 impounding system whenever an LNG storage tank is located within 20,000 feet from the nearest runway serving large aircraft. The petition applies to the Pine Needle's proposed LNG storage facility in the northwest Guilford County, North Carolina.

The petitioner's rationale for the waiver from compliance rests on the following reasons:

1. A horizontal distance between the nearest Pine Needle LNG tank and the nearest point of the Landmark Airpark runway is approximately 19,500 feet. This is 500 feet less than the 20,000 foot offset required for compliance with § 193.2155(c).

2. A vertical clearance of an aircraft over the top of the Pine Needle earthen containment dikes would be 1023 feet, after factoring in a minimum airport approach/departure ratio of 20:1 to/from Landmark Airpark and the elevation differences between the Landmark Airpark runway and the Pine Needle location. This exceeds the minimum requirements under the Federal Aviation Administration (FAA) regulations.

3. Correspondence between FAA and the Landmark Airpark developer describes operation of the Landmark Airpark as being limited to private aircraft under visual flight rules (VFR) conditions.

4. The turf runway surface and 2600-foot runway length would likely preclude large aircraft, as defined by 14 CFR Part 1.1, from using the Landmark Airpark.

5. Pine Needle owns, leases or controls all properties within the exclusion zones required under 49 CFR 193.2057 and 193.2059. There is presently no development within the prescribed exclusion zones. Pine Needle will allow no development within the required exclusion zones which would be inconsistent with the requirements of §§ 193.2057 and 193.2059.

6. The Class 2 impounding system proposed for the Pine Needle LNG storage tanks would remain intact in the event of a large aircraft impact, and with a design volume of 150% of tank capacity would meet the volumetric requirements of § 193.2181(a).

7. The earthen dikes, in combination with hilly terrain and the undeveloped safety exclusion zones around the facility would adequately provide for hazard containment.

Because of the unusual circumstances described above at Pine Needle's proposed LNG facility, located 19,500 feet from the nearest point of the Landmark Airpark runway, suitable for landing smaller aircrafts and any larger aircrafts that could reasonably use this facility, relatively low risk to the public safety due to combination of Class 2 earthen dikes in a hilly terrain with 150% volumetric capacity, and undeveloped safety exclusion zones around facility owned and controlled by the Pine Needle, RSPA believes that granting a waiver from the requirements of 49 CFR 193.2155(c) would not be inconsistent with pipeline safety, nor would it lessen public safety in this case. The operator must comply with all other requirements of Part 193. Therefore, RSPA proposes to grant the waiver.

Interested parties are invited to comment on the proposed waiver by submitting in duplicate such data, views, or arguments as they may desire. Comments should identify the docket number and the RSPA rulemaking number. Comments should be addressed to the Docket Facility, U.S. Department Of Transportation, plaza 401, 400 Seventh Street SW., Washington, DC 20590-0001.

All comments received before May 7, 1997 will be considered before final action is taken. Late filed comments will be considered so far as practicable. No public hearing is contemplated, but one may be held at a time and place set in a notice in the **Federal Register** if required by an interested person desiring to comment at a public hearing and raising a genuine issue. All comments and other docketed material will be available for inspection and copying in room 401 Plaza between the

hours of 10:00 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

**Authority:** 49 App. U.S.C. 2002(h) and 2015; and 49 CFR 1.53.
