SUPPLEMENTARY INFORMATION:

History

On February 12, 1997, the FAA proposed to amend Part 71 of the Federal Aviation Regulations (14 CFR part 71) by revising the Class E airspace area at San Francisco, CA (62 FR 6507). This action will revoke the surface area for Alameda NAS (Nimitz Field), CA since the purpose and requirements for controlled airspace no longer exist.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposals to the FAA. No comments to the proposals were received. Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9D dated September 4, 1996, and effective September 16, 1996, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in this Order.

The Rule

This amendment to part 71 of the Federal Aviation Regulations (14 CFR part 71) revises the Class E airspace area at San Francisco, CA by revoking the surface area for Alameda NAS (Nimitz Field), CA. The base closure of Alameda Naval Air Station (NAS) has made this action necessary. The intended effect of this action is to revoke controlled airspace since the purpose and requirements for the surface area no longer exist at Alameda NAS (Nimitz Field), CA.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally

current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 10034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
