Federal Register

Vol. 62, No. 72

Tuesday, April 15, 1997

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

9 CFR Part 94

[Docket No. 97-034-1]

Change in Disease Status of The Netherlands Because of BSE

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Interim rule and request for comments.

SUMMARY: We are amending our regulations by adding The Netherlands to the list of countries where bovine spongiform encephalopathy (BSE) exists because the disease has been detected in a cow in that country. The effect of this action is to prohibit or restrict the importation of certain fresh, chilled, and frozen meat, and certain other animal products and animal byproducts from ruminants which have been in The Netherlands. This action is necessary to reduce the risk that BSE could be introduced into the United States.

DATES: Interim rule effective April 10, 1997. Consideration will be given only to comments received on or before June 16, 1997.

ADDRESSES: Please send an original and three copies of your comments to Docket No. 97-034-1, Regulatory Analysis and Development, PPD, APHIS, Suite 3C03, 4700 River Road Unit 118, Riverdale, MD 20737-1238. Please state that your comments refer to Docket No. 97-034-1. Comments received may be inspected at USDA, Room 1141, South Building, 14th Street and Independence Avenue SW., Washington, DC, between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays. Persons wishing to inspect comments are requested to call ahead on (202) 690-2817 to facilitate entry into the comment reading room.

FOR FURTHER INFORMATION CONTACT: Dr. John Cougill, Staff Veterinarian, Animal Products Program, National Center for Import and Export, VS, APHIS, 4700 River Road Unit 40, Riverdale, MD 20737-1231, (301) 734-3399; or e-mail: jcougill@aphis.usda.gov.

SUPPLEMENTARY INFORMATION:

Background

The regulations in 9 CFR parts 94 and 95 (referred to below as the regulations) govern the importation of meat, animal products, animal byproducts, hay, and straw into the United States in order to prevent the introduction of various animal diseases, including bovine spongiform encephalopathy (BSE).

BSE is a neurological disease of bovine animals and other ruminants and is not known to exist in the United States.

It appears that BSE is primarily spread through the use of ruminant feed containing protein and other products from ruminants infected with BSE. Therefore, BSE could become established in the United States if materials carrying the BSE agent, such as certain meat, animal products, and animal byproducts from ruminants in countries in which BSE exists, are imported into the United States and are fed to ruminants in the United States.

Sections 94.18 and 95.4 of the regulations prohibit and restrict the importation of certain meat, animal products, and animal byproducts from ruminants which have been in countries in which BSE exists. These countries are listed in § 94.18 of the regulations.

The Netherlands' Ministry of Agriculture has reported a case of BSE in The Netherlands. BSE was confirmed by histopathological examination according to standardized procedures for the diagnosis of BSE. The Netherlands' Ministry of Agriculture confirmed that BSE was in a cow born in The Netherlands. The exposure of this animal to the BSE agent could only have occurred in The Netherlands. In order to reduce the risk of introducing BSE into the United States, we are, therefore, adding The Netherlands to the list of countries where BSE is known to exist. Thus, we are prohibiting or restricting the importation into the United States of certain fresh, chilled, and frozen meat, and certain animal products and animal byproducts from

ruminants which have been in The Netherlands.

Immediate Action

The Administrator of the Animal and Plant Health Inspection Service has determined that there is good cause for publishing this interim rule without prior opportunity for public comment. Immediate action is necessary to prevent the introduction of BSE into the United States.

Because prior notice and other public procedures with respect to this action are impracticable and contrary to the public interest under these conditions, we find good cause under 5 U.S.C. 553 to make this rule effective upon signature. We will consider comments that are received within 60 days of publication of this rule in the **Federal Register**. After the comment period closes, we will publish another document in the **Federal Register**. It will include a discussion of any comments we receive and any amendments we are making to the rule as a result of the comments.

Executive Order 12866 and Regulatory Flexibility Act

This rule has been reviewed under Executive Order 12866. For this action, the Office of Management and Budget has waived its review process required by Executive Order 12866.

This action adds The Netherlands to the list of countries where BSE exists. We are taking this action based on reports we have received from The Netherlands' Ministry of Agriculture, which confirmed that a case of BSE has occurred in The Netherlands.

This emergency situation makes compliance with section 603 and timely compliance with section 604 of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) impracticable. If we determine that this rule will have a significant economic impact on a substantial number of small entities, then we will discuss the issues raised by section 604 of the Regulatory Flexibility Act in our Final Regulatory Flexibility Analysis.

Executive Order 12988

This rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule: (1) Preempts all State and local laws and regulations that are inconsistent with this rule; (2) has no retroactive effect; and (3) does not require administrative proceedings

before parties may file suit in court challenging this rule.

Paperwork Reduction Act

This rule contains no information collection or recordkeeping requirements under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

List of Subjects in 9 CFR Part 94

14 CFR Part 71

[Airspace Docket No. 97-ANE-02]

Amendment to Class E Airspace; New Haven, CT

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Direct final rule; confirmation of effective date.

SUMMARY: This action confirms the effective date of a direct final rule which modified the Class E airspace at New Haven, CT (KHVN) by removing the Class E airspace extending upward from

the surface, effective during the times when the Airport Traffic Control Tower (ATCT) is not operating. The final rule resulted from the lack of continuous weather reporting at Tweed-New Haven Municipal Airport.

EFFECTIVE DATE: The direct final rule was effective on 0901 UTC, March 27, 1997.

FOR FURTHER INFORMATION CONTACT: Raymond Duda, Operations Branch, ANE-530.3, Federal Aviation Administration, 12 New England Executive Park, Burlington, MA 01803-5299; telephone: (617) 238-7533; fax (617) 238-7596.

SUPPLEMENTARY INFORMATION: The FAA published this direct final rule with a request for comments in the **Federal Register** on February 7, 1997 (62 FR 5755). The FAA uses the direct final rulemaking procedure for a non-controversial rule where the FAA believes that there will be no adverse public comment. This direct final rule advised the public that no adverse comments were anticipated, and that unless a written adverse comment, or a written notice of intent to submit such an adverse comment, were received within the comment period, the regulation would become effective on March 27, 1997. No adverse comments were received, and thus this document confirms that the final rule became effective on that date.

Issued in Burlington, MA, on April 8, 1997.
John J. Boyce,

Assistant Manager, Air Traffic Division, New England Region.
