FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collections Submitted to OMB for Review and Approval

April 21, 1997.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden, invites the general public and other Federal agencies to take this opportunity to comment on the following proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Pub. L. 104–13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) Whether the proposed collection of

information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

interexchange carriers file tariffs for interstate, domestic, interexchange telecommunications services. In order to facilitate enforcement of such carriers' statutory obligation to geographically average and integrate their rates, and to make it easier for customers to compare carriers' service offerings, the attached Order requires affected carriers to maintain, and to make available to the public in at least one location, information concerning their rates, terms and conditions for all of their interstate domestic, interexchange services.

The information collected under the tariff cancellation requirement must be disclosed to the Commission, and will be used to implement the Commission's detariffing policy. The information collected under the recordkeeping and certification requirements will be used by the Commission to ensure that affected interexchange carriers fulfill their obligations under the Communications Act, as amended. The information in the disclosure requirement must be provided to third parties, and will be used to ensure that such parties have adequate information to bring to the Commission's attention any violations of geographic rate averaging and rate integration requirements of Section 254(g) of the Communications Act.

Needs and Uses: The collections of information contained in Parts 25 and 101 are used by the Commission staff in carrying out its duties as set forth in Sections 308 and 309 of the Communications Act of 1934, as amended, 47 U.S.C. Sections 308 and 309, to determine the technical qualifications of an applicant to operate

OMB Approval Number: 3060-XXXX.

Title: Aeronautical Services Transition Plan.

Form No.: N/A.

Type of Review: New Collection.

Respondents: Business or other for-profit.

Number of Respondents: 6.

Estimated Time Per Response: 2 hours.

Total Annual Burden: 12 hours.

Total Costs to all Respondents: \$5,400. This is based on the assumption that applicants will hire outside counsel at an approximate cost of \$150 per hour, for six hours. It is estimated that the cost per submission will be \$900.

Needs and Uses: On April 9, 1996 the Commission adopted Order on Reconsideration and Further Notice of Proposed Rulemaking, 61 FR 30579. When AMSS becomes available on the domestic satellite, current AMSS users will be transitioning from Inmarsat to the domestic provider. To ensure the continuity of service during the transition from Inmarsat to the U.S. domestic AMSS licensee, the Commission adopted a requirement that operators providing interim domestic Aeronautical mobile satellite services (AMSS) via Inmarsat file a transition plan as operations are moved to the U.S. domestic licensee. The information collection will be used by the Commission and the domestic licensee to ensure technical feasibility of the transition and continuity of service as the U.S. Domestic licensee begins to provide domestic AMSS.

OMB Approval Number: 3060-XXXX.

Title: Price Cap Performance Review for Local Exchange Carriers, CC Docket No. 94-1.

Form No.: N/A.

Type of Review: New Collection.

Respondents: Business or other for-profit.

Number of Respondents: 13 with approximately 2 responses annually.

Estimated Time Per Response: 5 hours.

Total Annual Burden: 130 hours.

Total Costs to all Respondents: \$0.

Needs and Uses: In the Third Report and Order issued in CC Docket 94-1, the Commission modified its filing requirement for incumbent price cap Local Exchange Carriers (LECs) who propose to offer new switched access services. We no longer require an

incumbent LEC to introduce a new service by filing a waiver under Part 69 of the Commission's rules. Instead, incumbent LECs will be able to file a petition for the lower service band indices in the proceeding. By doing so, an incumbent price cap LEC no longer has to file a waiver to set its rates below the lower service band indices, but instead may simply adjust its rates downward.
