

Form Number(s): SPD-1(L), 1(L)SP, 2(L), 3.

Agency Approval Number: None.

Type of Request: New collection.

Burden: 26,875 hours.

Number of Respondents: 35,000.

Avg. Hours Per Response: 45 minutes—interview; 11 minutes—reinterview.

Needs and Uses: With the August 22, 1996 signing of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (Pub. L. 104-193), the Bureau of the Census is required to conduct the Survey of Program Dynamics (SPD) using as the sample households from the 1992 and 1993 Survey of Income and Program Participation (SIPP). The SPD will be a large, longitudinal, nationally-representative study that measures features of the welfare programs, including both programs that are being reformed and those that remain unchanged. The SPD will also measure other important social, economic, demographic and family changes that reflect the effectiveness of the welfare reforms.

A sample of respondents originally in the 1992 and 1993 SIPP panels will be interviewed once a year from 1997-2001, and perhaps longer depending on funding. Separate OMB clearance requests will be submitted for a 1997 pretest and the 1998-2001 surveys. Prior to conducting the pretest of the initial SPD questionnaire, the Bureau of the Census will conduct a bridge survey (the subject of this request) during April-June 1997 using the March 1997 Current Population Survey (CPS) questionnaire, which contains annual retrospective questions on work experience, earnings, program participation, and health insurance coverage. A portion of the bridge survey panel, approximately 10 percent, will be reinterviewed for quality control purposes.

This bridge survey and data already gathered in the 1992 and 1993 SIPP panels will provide baseline data for approximately 35,000 households for the period prior to the implementation of the welfare reform activities. With the pretest in the fall of 1997, the full survey implementation in the spring of 1998, and annually thereafter through 2001, the data gathered for the 10-year period (1992-2001) will aid in assessing short to medium-term consequences or outcomes of the welfare legislation. We plan to utilize a financial incentive program in the bridge survey as an attempt to attain a higher response rate. Some households that complete an interview will receive a small monetary gift for their cooperation in the survey.

We will observe how this financial incentive affects response rates.

Submission For OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: Bureau of the Census.

Title: 1997 Economic Census of the Outlying Areas Including Puerto Rico, Guam, Northern Mariana Islands and the U.S. Virgin Islands.

Form Number(s): OA-9819, 9820, 9873, 9883.

Agency Approval Number: None.

Type of Request: New Collection.

Burden: 49,500 hours.

Number of Respondents: 54,000.

Average Hours Per Response: .917 hours.

Needs and Uses: The 1997 Economic Census of the Outlying Areas will be conducted as part of the 1997 Economic Censuses required by Title 13, U.S.C. and is the primary source of dependable facts about each of the outlying areas economy, and features the only recognized source of data at a geographic level equivalent to U.S.

counties. Outlying areas economic census statistics serve to benchmark estimates of net income and gross product, and provide essential information for government (Federal and local), business, and the general public. The 1997 Economic Census of the Outlying Areas will cover the following sectors: retail and wholesale trades, certain services industries, construction, and manufactures. The information collected in the 1997 Economic Census of the Outlying Areas will produce basic statistics by kind of business for a number of establishments, sales, payroll, and employment. It also will yield a variety of industry-specific statistics, including value of shipments, sales by commodity and merchandise lines, and number of hotel rooms. The 1997 Economic Census of the Outlying Areas will be conducted using mailout/mailback procedures. As in the 1992 census, only one form covering all economic activity within the scope of the census is used for each area. Since administrative records for the outlying areas sometimes have classification deficiencies, the use of one form eliminates time spent by the respondent requesting a sector-appropriate form.

Affected Public: Businesses or other for-profit, individuals or households.

Frequency: One time.

Respondent's Obligation: Mandatory.

Sections 131 and 224.
