reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or in the original LTFV investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and, (4) if neither the exporter nor the manufacturer is a firm covered in this or any previous review conducted by the Department, the cash deposit rate will be 3.85%, the all others rate established in the LTFV investigation. Samsung Electronics Co., Ltd. (Samsung), formerly a respondent in this administrative review, was excluded from the antidumping duty order on DRAMs from Korea on February 8, 1996. See Final Court Decision and Partial Amended Final Determination: Dynamic Random Access Memory Semiconductors of One Megabit and Above From the Republic of Korea, 61 FR 4765 (February 8, 1996).

These deposit requirements shall remain in effect until publication of the final results of the next administrative review.

This notice serves as the final reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 353.34(d). Timely written notification or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of the APO is a sanctionable violation.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353 22.

Dated: January 8, 1997.

Certain Grain-Oriented Electrical Steel from Italy: Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of final results of antidumping duty administrative review.

SUMMARY: On July 11, 1996, the Department of Commerce (the Department) published the preliminary results of the administrative review of the antidumping duty order on certain grain-oriented electrical steel from Italy (61 FR 36551). The review covers one manufacturer/exporter of the subject merchandise to the United States and the period February 9, 1994, through July 31, 1995. We gave interested parties an opportunity to comment on our preliminary results. No comments were received, and we have not changed the results from those presented in the preliminary results of review.

EFFECTIVE DATE: January 17, 1997.

FOR FURTHER INFORMATION CONTACT:

Nancy Decker or Robin Gray, AD/CVD Enforcement, Group III, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, D.C. 20230, telephone: (202) 482–3793.

SUPPLEMENTARY INFORMATION:

Background

On July 11, 1996, the Department published in the Federal Register (61 FR 36551) the preliminary results of the administrative review of the antidumping duty order on certain grain-oriented electrical steel from Italy (59 FR 41431, August 12, 1994). The Department has now completed this administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act).

Applicable Statute

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act) by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the Department's regulations are to the current regulations, as amended by the interim regulations published in the Federal Register on May 11, 1995 (60 FR 25130).

Scope of the Review

The product covered by this review is grain-oriented silicon electrical steel, which is a flat-rolled alloy steel product containing by weight at least 0.6 percent of silicon, not more than 0.08 percent of carbon, not more than 1.0 percent of aluminum, and no other element in an amount that would give the steel the characteristics of another alloy steel, of a thickness of no more than 0.560 millimeters, in coils of any width, or in straight lengths which are of a width measuring at least 10 times the thickness, as currently classifiable in the Harmonized Tariff Schedule of the United States (HTS) under item numbers 7225.10.0030, 7225.30.7000, 7225.40.7000, 7225.50.8000, 7225.90.0000, 7226.10.1030, 7226.10.5015, 7226.10.5056, 7226.91.7000, 7226.91.8000, 7226.92.5000, 7226.92.7050, 7226.92.8050, 7226.99.0000, 7228.30.8050, 7228.60.6000, and 7229.90.1000. Although the HTS subheadings are provided for convenience and customs purposes, our written descriptions of the scope of these proceedings are dispositive.

This review covers one manufacturer/exporter of grain-oriented electrical steel, Acciai Speciali Terni S.p.A. ("AST"), and the period February 9, 1994, through July 31, 1995.

Final Results of Review

As a result of this review, we have determined that the following margin exists for the period February 9, 1994, through July 31, 1995:

Manufacturer/exporter	Margin (per- cent)
Acciai Speciali Terni S.p.A	60.79

The Department shall determine, and the U.S. Customs Service shall assess, antidumping duties on all appropriate entries. The Department shall issue appraisement instructions directly to the Customs Service.

Furthermore, the following deposit requirements shall be effective, upon publication of this notice of final results of administrative review, for all shipments of the subject merchandise from Italy that are entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(1) of the Tariff Act: (1) The cash deposit rate for AST will be the rate established above; (2) for previously investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for

the most recent period; (3) if the exporter is not a firm covered in this review, or the original investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters of this merchandise will continue to be 60.79 percent, the all others rate established in the final results of the less than fair value investigation (59 FR 41431, August 12, 1994).

The deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice serves as a final reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 353.34(d). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulation and the terms of an APO is a sanctionable violation.

This administrative review and notice are in accordance with section 751(a)(1) of the Act and 19 CFR 353.22.

Fisheries of the Exclusive Economic Zone Off Alaska; Amendments 44/44; Definition of Overfishing

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce. **ACTION:** Approval of fishery management plan amendments.

SUMMARY: NMFS announces the approval of Amendments 44/44 to the Fishery Management Plan for Groundfish of the Gulf of Alaska and the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (FMPs). These amendments revise definitions of acceptable biological catch (ABC) and overfishing levels (OFLs) for groundfish species or species groups. This action is necessary to ensure that conservation and management measures continue to be based upon the best scientific information available and is intended to advance the North Pacific Fishery Management Council's (Council's) ability to achieve, on a continuing basis, the optimum yield from fisheries under its authority.

EFFECTIVE DATE: January 9, 1997.

ADDRESSES: Copies of Amendments 44/44 and the environmental assessment and related economic analysis prepared for the proposed action are available from the North Pacific Fishery Management Council, 605 West 4th Avenue, Suite 306, Anchorage, AK 99501–2252; telephone 907–271–2809.

FOR FURTHER INFORMATION CONTACT: James Hale, 907–586–7228.

SUPPLEMENTARY INFORMATION: In response to the national standards established in the Magnuson Fishery Conservation and Management Act and advisory guidelines codified at 50 CFR part 600, subpart D, the Council developed an objective and measurable definition of overfishing and, in 1991, implemented that definition under Amendments 16 and 21 to the FMPs (56 FR 2700, January 24, 1991). In the years since implementation of that definition, fishery scientists have had the opportunity to evaluate the efficacy of current definitions of ABC and overfishing. In light of that experience and with increased understanding of the reference fishing mortality rates used to define ABCs and overfishing, fishery scientists have raised several concerns about the present definitions and the extent to which they reflect and account for levels of uncertainty about fish populations. Consequently, NMFS Overfishing Definitions Review Panel and the Council's Scientific and Statistical Committee recommended redefining ABC and overfishing to facilitate more conservative, risk-averse management measures when stock size and mortality rates are not fully known.

Amendments 44/44 revise the definitions of OFL and ABC consistent with these recommendations.

A Notice of Availability of Amendments 44/44, which describes the proposed amendments and solicited comments from the public until December 10, 1996, was published in the Federal Register (October 17, 1996; 61 FR 54145). One comment was received in support of the amendments. After review under the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), NMFS determined that Amendments 44/44 are consistent with the Magnuson-Stevens Act and other applicable laws and approved Amendments 44/44 on January 9, 1997. Additional information on this action is contained in the October 17, 1996, Notice of Availability (61 FR 54145).

No regulatory changes are necessary to implement these FMP amendments.
