FTZ 98 was approved on April 27, 1984 (Board Order 247, 49 FR 19367, 5/7/84) and expanded on May 8, 1986 (Board Order 330, 51 FR 17782, 5/15/86). [Docket 36-97]

**Foreign-Trade Zone 90—Onondaga County, NY; Application for Expansion and Request for Export Manufacturing Authority M.S. Pietrafesa, L.P. (Tailored Apparel for Export)**

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the County of Onondaga, New York, grantee of FTZ 90, requesting authority to expand its zone at the Woodard Industrial Park, and requesting authority, on behalf of M.S. Pietrafesa, L.P., to manufacture tailored apparel for export under zone procedures within FTZ 90, Onondaga County, New York (Syracuse Customs port of entry). The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR Part 400). It was formally filed on April 23, 1997.

FTZ 90 was approved on November 4, 1983 (Board Order 232, 48 FR 52107; 11/16/83). The zone currently consists of 21 acres within the 2,000-acre Woodard Industrial Area on Steelway Boulevard in the town of Clay, New

York, some 5 miles from the Syracuse-Hancock International Airport.

The applicant is now requesting authority to expand and reorganize the zone by deleting 15 acres of the northeastern portion of the current zone site and adding two new parcels (16 acres) located along Morgan Road, contiguous to the southwestern boundary of the current site, Liverpool, New York. The new site is owned and will be operated by M.S. Pietrafesa, L.P.

The application also requests authority on behalf of M.S. Pietrafesa, L.P. (MSPLP) to manufacture men's and women's apparel under zone procedures for export only within FTZ 90. The MSPLP plant (143,000 sq. ft. on 10 acres) is used to manufacture designer tailored men's and women's suits, blazers, and trousers (Ralph Lauren, Coach brands) for the U.S. market and export. The proposal calls for the cutting and sewing of foreign-origin wool, wool/silk, silk/linen, and linen fabrics into the tailored apparel products noted above, which would be reexported to overseas markets. None of the foreign-origin fabric processed under FTZ procedures would be entered for U.S. consumption.

FTZ procedures would exempt MSPLP from quota requirements and Customs duty payments on the foreign fabric used in the production of tailored apparel for export. The application indicates that FTZ procedures will help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is July 14, 1997. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to July 29, 1997).

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:

Office of the Port Director, U.S. Customs Service, Hancock International Airport, 4034 S. Service Road, Syracuse, NY 13212

#### Certain Stainless Steel Butt-Weld Pipe Fittings From Taiwan; Preliminary Results of Antidumping Duty Administrative Review

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of preliminary results of administrative review.

**SUMMARY:** In response to a request by respondent Ta Chen Stainless Pipe Co., Ltd. (Ta Chen), the Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on certain stainless steel butt-weld pipe fittings (pipe fittings) from Taiwan. This review covers one manufacturer/exporter of the subject merchandise to the United States during the period December 23, 1992 through May 31, 1994.

We preliminarily determine that Ta Chen made sales of pipe fittings below the foreign market value (FMV) for this period of review (POR). If these preliminary results are adopted in our final results of administrative review, we will instruct the U.S. Customs Service to assess antidumping duties equal to the difference between United States price (USP) and the FMV.

We invite interested parties to comment on these preliminary results. Parties who submit comments are requested to submit with the argument (1) a statement of the issues and (2) a brief summary of the argument.

**EFFECTIVE DATE:** May 15, 1997.
