

ensure that depictions of areas on those maps are consistent with the depictions of areas on the maps entitled 'Amendments to Coastal Barrier Resources System', dated November 1, 1995, and June 1, 1996, and on file with the Secretary." The following boundary modifications have been made, consistent with the boundary modifications depicted on the maps from Congress.

Conch Island Unit P05—The northern boundary of this unit was modified to remove certain property from the System.

Matanzas River Unit P05A—Twelve lots specified on the amending maps have been removed from the System. The overall boundary of the unit remains the same.

Vero Beach Unit P10—The northern boundary of the unit was modified to remove certain property from the System.

Hutchinson Island Unit P11—The northern boundary of an excluded area within the unit was modified to remove certain property from the System.

Frank B. McGilvrey Unit P11A—The northern boundary of the unit was modified to remove certain property from the System.

Sanibel Island Unit P18—The southern and western boundaries of this unit were modified to remove certain property from the System.

Cedar Keys Unit P25—A certain peninsula was removed from the System, expanding an excluded area.

Moreno Point Unit P32—Certain property along the shoreline was removed from the System, expanding an excluded area. Certain other property inland was added to the System. Certain State Park land was designated as a new "otherwise protected area" labeled P32P.

Copies of the revised System maps have been filed with the House of Representatives Committee on Resources and the Committee on Banking and Financial Services, and the Senate Committee on Environment and Public Works. Copies of these maps have been distributed to the Chief Executive Officer (or representative) of each appropriate Federal, State, or local agency having jurisdiction over the areas in which the modified units are located. Copies of the maps are also available for inspection at Service headquarters, regional, and field offices (see addresses in appendix).

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

Notice of Intent To Prepare an Environmental Impact Statement for the Proposed Master Development Plan for Section 14 on the Agua Caliente Indian Reservation, Located Within the Boundaries of the City of Palm Springs, Riverside County, CA

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of intent and public scoping meetings.

SUMMARY: This notice advises the public that the Bureau of Indian Affairs (BIA) and the City of Palm Springs, in cooperation with the Agua Caliente Band of Cahuilla Indians, intend to prepare a joint Environmental Impact Statement and Environmental Impact Report (EIS/EIR) for the approval of the Section 14 Master Development Plan on the Agua Caliente Indian Reservation located within the boundaries of the City of Palm Springs, Riverside County, California. A description of the proposed project, location, and environmental considerations to be addressed in the EIS/EIR are provided below. In addition to this notice, two public meetings will be held on the

proposal and the preparation of the EIS/EIR. This notice is published in accordance with the National Environmental Policy Act (NEPA) regulations found in 40 CFR 1508.22. The purpose of this Notice is to obtain suggestions and information from other agencies and the public on the scope of issues to be addressed in the EIS/EIR. Comments and participation in this scoping process are encouraged.

DATES: Comments should be received within 30 days of the date of this Notice. Public scoping meetings will be held June 11, 1997, from 1:30 p.m. to 5:00 p.m. and June 12, 1997, from 6:30 p.m. to 10:30 p.m.

ADDRESSES: Comments should be addressed to Ronald Jaeger, Area Director, Sacramento Area Office, 2800 Cottage Way, Room W2550, Sacramento, California 95825. Public scoping meetings will be held on June 11, 1997, at the Planning Commission Meeting in the City Council Chambers, City Hall, 3200 East Tahquitz Canyon Way, Palm Springs, California, which begins at 1:30 p.m. (public hearings begin at 2:00 p.m.) and ends at 5:00 p.m., telephone number (760) 323-8245; and on June 12, 1997, at the Palm Springs Public Library, 300 South Sunrise Way, Palm Springs, California, from 6:30 p.m. to 10:30 p.m., telephone number (760) 322-7323.

FOR FURTHER INFORMATION CONTACT:

Robert Eckart, Environmental Protection Specialist, Bureau of Indian Affairs, Sacramento Area Office, 2800 Cottage Way, Room W2550, Sacramento, California 95825, telephone number (916) 979-2600 extension 254; or Gloria Mesteth, Environmental Coordinator, Bureau of Indian Affairs, Palm Springs Field Office, 555 South Palm Canyon Drive, Palm Springs, California 92263, telephone number (760) 323-1725.

SUPPLEMENTARY INFORMATION: The proposed action is approval of the Section 14 Master Development Plan, which will facilitate approval of future leases on trust lands by the BIA in Section 14. Section 14 is located on the Agua Caliente Indian Reservation in downtown Palm Springs. It is comprised of Tribally owned parcels, allotted parcels, and parcels owned in fee. The section is bounded by Alejo Road to the north, Sunrise Road to the east, Ramon Road to the south, and Indian Canyon Drive to the west. The 640 acre section is one block east of downtown Palm Springs and one mile west of Palm Springs Regional Airport.

The intent of the Section 14 Master Development Plan is to (1) create an attractive, feasible and marketable vision for the area's development; (2)

achieve the highest and best use of Indian trust lands; (3) maximize and coordinate the development potential of Indian trust and fee lands in Section 14; (4) ensure compatibility with existing, proposed and planned development in the downtown area; (5) achieve a comprehensive master plan of development that is high quality, marketable and can be implemented in a timely manner; (6) revitalize existing uses; and (7) provide a specific plan that ensures quality development will occur independent of ownership.

Businesses that are expected to be attracted and which will result in new construction include restaurants and a variety of retail establishments. These establishments will consist of cinemas, live theaters, museums, and "entertainment retail" shopping where customers are entertained as they browse. There will also be health, sports and recreational complexes along with a large-scale hotel located across from the existing Convention Center.

In addition to the new development, existing structures will receive facade rehabilitation in order to blend in with the new destination resort theme of Section 14. Streets and streetscapes will be redesigned and enhanced within the section to promote a pedestrian-friendly, destination resort environment.

Alternative transportation modes will be established within the area to help limit the amount of automobile traffic. Walkways and bikeways will be linked into the existing street grid and the major attractions of the area. Shade features, such as awnings, overhangs and trellises will be established to attract both recreational and destination oriented pedestrians and cyclists. A rubber-tire shuttle will be installed linking Section 14, the airport and downtown with stops at major hotels and attractions.

Required actions by the BIA and the City of Palm Springs to be evaluated in the EIS/EIR are the approval of lease transactions by the BIA and the approval of a Specific Plan, General Plan amendments, and zone changes by the City of Palm Springs. Environmental issues expected to be addressed include: topography, geology, soils, seismicity, water resources, biological resources, cultural and scientific resources, land use, air quality, traffic, noise, health and safety, public services and utilities, light and glare, and visual resources. In addition to the Year 2010 project proposal, the EIS/EIR will address a number of alternatives, including (1) no action, which would keep the City of Palm Springs' General Plan in effect, (2) less intense development, (3) an

alternate design, and (4) an ultimate build-out of 50 years. The range of issues addressed may be expanded, depending upon comments received during the scoping process.

This notice is published pursuant to Sec. 1501.7 and Sec. 1508.22 of the Council of Environmental Quality Regulations (40 CFR, Part 1500 through 1508) implementing the procedural requirements of the NEPA of 1969, as amended (42 U.S.C. 4321 *et seq.*), Department of the Interior Manual (516 DM 1-6) and is in the exercise of authority delegated to the Assistant Secretary—Indian Affairs by 209 DM-8.

Dated: May 22, 1997.

Ada E. Deer,

Assistant Secretary—Indian Affairs.
