Environmental Impact Statement Modifications to the Port of Entry in Tecate, California

The General Services Administration (GSA) invites the public to participate in a public scoping meeting for the preparation of an Environmental Impact Statement (EIS) pursuant to the National Environmental Policy Act.

The EIS will address the proposed modification of the Tecate Port of Entry to eliminate on-site traffic safety hazards for motorists and pedestrians and upgrade inadequate water supply, wastewater and storm water facilities.

A draft Environmental Assessment was prepared and submitted for public review on March 24, 1997. As a result of public comments regarding the preferred action, GSA is preparing an EIS to more fully address environmental and social impacts of the proposed action and alternatives.

Public participation in the scoping process is encouraged to identify potential issues of community concern which should be addressed in the EIS. Both written and oral comments are solicited and will be considered. The public scoping meeting will be held on June 11, 1997 at the Port of Entry, Tecate, California. There will be two sessions; one: 5 to 7 p.m. and one 7 to 9 p.m. to allow for participation by citizens of Mexico and the United States. There will be a translator available. Written comments may be submitted until July 1, 1997.

Send comments to: General Services Administration, Public Buildings Service, Portfolio Management, 450 Golden Gate Ave. 9PT, San Francisco, California 94102, Attn: Rosanne Nieto, Phone (415) 522-3490, FAX (415) 522-3215.

The appointments to the Commission by the President and the establishment of the Commission by the Secretary of Health and Human Services reflect the commitment of the President and the Secretary to the development of a sound and consistent regulatory policy on labeling of dietary supplements.

The Commission has been conducting a study that will provide recommendations for regulation of label claims and statements for dietary supplements, including the use of supplemental literature in connection with their sale and, in addition, procedures for evaluation of label claims. Administration for Children and Families

Early Head Start Evaluation

OMB No.: 0970-0143.

Description: The Head Start Reauthorization Act of 1994 established a special initiative creating funding for services for families with infants and toddlers. In response the Administration on Children, Youth and Families (ACYF) designed the Early Head Start (EHS) program. In September 1995, ACYF awarded grants to 68 local programs to serve families with infants and toddlers. ACYF awarded grants to an addition 75 local programs in September 1996.

EHS programs are designed to produce outcomes in four domains: (1) Child development, (2) family development, (3) staff development, and (4) community development. The Reauthorization required that this new initiative be evaluated. To study the effect of the initiative, ACYF awarded a contract through a competitive procurement to Mathematica Policy Research, Inc. (MPR) with a subcontract to Columbia University's Center for Young Children and Families. The evaluation will be carried out from October 1, 1995 through September 30, 2000. Data collection activities that are

the subject of this **Federal Register** notice are intended for the second phase of the EHS evaluation.

The sample for the child and family assessments will be approximately 3,400 families who include a pregnant woman or a child under 12 months of age, in 17 EHS study sites. Each family will be randomly assigned to a treatment group or a control group. The sample for the child care assessments will include the primary child care provider for the focal child in each of the 3,400 study sample families. The surveys and assessments will be conducted through computer-assisted telephone and personal interviewing, pencil and paper self-administered questionnaires, structured observations and videotaping. All data collection instruments have been designed to minimize the burden on respondents by minimizing interviewing and assessment time. Participation in the study is voluntary and confidential.

The information will be used by government managers, Congress and others to identify the features and evaluate the effectiveness of the EHS program.

Respondents: Applicants to the Early Head Start program and child care providers for Early Head Start families and control group families.
