SUPPLEMENTARY INFORMATION:

I. Introduction

Section 6(f)(1) of FIFRA, provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be amended to delete one or more uses. The Act further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, the Administrator may approve such a request.

II. Intent to Delete Uses

This notice announces receipt by the Agency of applications from registrants to delete uses in the 39 pesticide registrations listed in the following Table 1. These registrations are listed by registration number, product names, active ingredients and the specific uses deleted. Users of these products who desire continued use on crops or sites being deleted should contact the applicable registrant before December 1, 1997 to discuss withdrawal of the applications for amendment. This 180-day period will also permit interested members of the public to intercede with registrants prior to the Agency approval of the deletion.

Fortieth Report of the TSCA Interagency Testing Committee to the Administrator; Receipt of Report and Request for Comments

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The TSCA Interagency Testing Committee (ITC), established under section 4(e) of the Toxic Substances Control Act (TSCA), transmitted its Fortieth Report to the

Administrator of the EPA on April 28, 1997. In the Fortieth Report, which is included with this notice, the ITC revised the TSCA section 4(e) *Priority Testing List* by removing two isocyanates that were recommended in the 26th Report, one high production volume chemical, trichloromethane sulfonyl chloride that was recommended in the 36th Report and 2,4,6-tribromophenol that was recommended in the 39th Report. The ITC is also proposing procedures for chemical trade associations and producers, importers, processors, and users of future ITC-recommended chemicals to voluntarily provide data needed by U.S. Government organizations represented on the ITC and thereby reduce the need for the EPA to promulgate TSCA section 8 rules for these chemicals.

There are no designated or recommended with intent-to-designate chemicals or chemical groups in the Fortieth Report. EPA invites interested persons to submit written comments on the Report.

DATES: Written comments on the Fortieth ITC Report should be received by July 7, 1997.

ADDRESSES: Comments on the Fortieth Report should be submitted to both the ITC and the TSCA Docket. Send one copy of written comments to: John D. Walker, ITC Executive Director (7401), U.S. Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Send six copies of written comments to:

Document Control Office, Rm. ET-G-099, Office of Pollution Prevention and Toxics (7407), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. All submissions should bear the document control number OPPTS-41048.

Comments may also be submitted electronically by sending electronic mail (e-mail) to the ITC (walker.johnd@epamail.epa.gov) or the EPA (ncic@epamail.epa.gov). Electronic comments are preferred by the ITC. Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of security encryption. Comments will also be accepted on disks in WordPerfect 5.1/6.1 file format or ASCII file format. All comments in electronic form must be identified by the document control number OPPTS-41048. No TSCA "Confidential Business Information" (CBI) should be submitted through e-mail. Electronic comments on the Fortieth Report may be filed online at many Federal Depository Libraries. Additional information on electronic submissions can be found in Unit IV of this document.

The public record supporting this action, including comments, is available for public inspection in the TSCA Non-Confidential Information Center (NCIC), Rm. NE B-607 at the address noted above from 12 noon to 4 p.m., Monday through Friday, except legal holidays.
