

significantly affecting the quality of the human environment. Therefore, the Commission intends to prepare an Environmental Impact Statement (EIS) on the projects in accordance with the National Environmental Policy Act of 1969, and the Commission's regulations. The EIS will objectively consider both site-specific and cumulative environmental impacts of the projects and reasonable alternatives, and will include an economic and engineering analysis.

A draft EIS will be circulated for review and comment by all interested parties, and the Commission will hold a public meeting on the draft EIS. FERC staff will consider and respond to comments received on the draft EIS in the final EIS. The FERC staff's conclusions and recommendations will then be presented for the consideration of the Commission in reaching its final licensing decision.

The Commission staff is also preparing a cumulative analysis of the four projects already filed along with the following four other Idaho Power Company projects, scheduled to be filed between 1998 and 2008:

C.J. Strike Project—Project No. 2055
Upper and Lower Malad Project—Project No. 2726

Hells Canyon Project—Project No. 1971
Swan Falls Project—Project No. 503

Scoping

Concerned citizens, special interest groups, local governments, state and federal agencies, tribes, and any other interested parties are invited to comment on the scope of the environmental issues that should be analyzed in the EIS and the cumulative analysis. Scoping will help ensure that all significant issues related to this proposal are addressed in the EIS.

Bliss, Lower Salmon Falls, Upper Salmon Falls, and Shoshone Falls Projects

A scoping meeting oriented toward the public will be held starting at 7:00 p.m. on Tuesday, July 15, 1997, at the College of Southern Idaho, located at 315 Falls Avenue West, Twin Falls, Idaho.

A scoping meeting oriented toward the agencies will be held at 9:00 am on Thursday, July 15, 1997, at the Boise Center on the Grove, 850 West Front Street, Boise, Idaho.

The public and the agencies may attend either or both meetings.

Cumulative Analysis of the Snake River Basin

A scoping meeting for the cumulative analysis will be held starting at 9:00

a.m. on Friday, July 18, 1997, at the Boise Center on the Grove, 850 West Front Street, Boise, Idaho.

Objectives

At the July 15 and 17 scoping meetings, FERC staff will (1) identify preliminary environmental issues related to the proposed projects; (2) attempt to identify preliminary resource issues that are not important and do not require detailed analysis; (3) identify reasonable alternatives to be addressed in the EIS; (4) solicit from the meeting participants all available information, especially quantified data, on the resource issues; and (5) encourage statements from experts and the public on issues that should be analyzed in the EIS, including points of view in opposition to, or in support of, the staff's preliminary views.

At the July 18 scoping meeting in Boise, we will discuss approaches to evaluating cumulative impacts of the Idaho Power's eight relicense projects and cumulative impact issues associated with the eight projects.

Procedures

The meetings will be recorded by a court reporter and all statements (oral and written) will become a part of the official record of the Commission proceedings for the three projects. Individuals presenting statements at the meetings will be asked to clearly identify themselves for the record.

To help focus discussions at the scoping meeting, the FERC will mail a Scoping Document, outlining subject areas to be addressed in the EIS, to agencies and interested individuals on the project mailing list. Copies of the scoping document will also be available at the scoping meetings.

Persons choosing not to speak at the meetings, but who have views on the issues or information relevant to the issues, may submit written statements for inclusion in the public record at the meetings. In addition, written scoping comments may be filed with the Office of the Secretary, Dockets Room 1A, Federal Energy Regulation Commission, 888 First Street, NE, Washington, D.C. 20426 until August 18, 1997. All written correspondence should clearly identify the appropriate projects on the first page: Project Nos. 503 (C.J. Strike), 2061-004 (Lower Salmon Falls), 2726 (Upper and Lower Malad), 2777-007 (Upper Salmon Falls), 2778 (Shoshone Falls).

Intervenors—those on the Commission's service list for this proceeding (parties)—are reminded of the Commission's Rules of Practice and Procedure, requiring parties filing

documents with the Commission, to serve a copy of the document on each person whose name appears on the official service list. Further, if a party or interceder files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also service a copy of the document on that resource agency.

Site Visit

There will also be a tour of the Bliss, Lower Salmon Falls, Upper Salmon Falls, and Shoshone Falls Projects on July 16, 1997. Attendees will meet at the Shoshone Falls overlook parking lot at 9:00 a.m. Please call Craig Jones, Idaho Power Company, at 208-388-2934, if you plan to attend no later than July 9, 1997.

For Further Information Contact: Alan Mitchnick, FERC-OHL (202) 219-2826.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-340112; FRL 5721-2]

Notice of Receipt of Requests for Amendments to Delete Uses in Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, EPA is issuing a notice of receipt of request for amendment by registrants to delete uses in certain pesticide registrations.

DATES: Unless a request is withdrawn, the Agency will approve these use deletions and the deletions will become effective on December 8, 1997.

FOR FURTHER INFORMATION CONTACT: By mail: James A. Hollins, Office of Pesticide Programs (7502C), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location for commercial courier, delivery, telephone number and e-mail: Room 216, Crystal Mall No. 2, 1921 Jefferson Davis Highway, Arlington, VA, (703) 305-5761; e-mail: hollins.james@epamail.epa.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may

at any time request that any of its pesticide registrations be amended to delete one or more uses. The Act further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, the Administrator may approve such a request.

II. Intent to Delete Uses

This Notice announces receipt by the Agency of applications from registrants to delete uses in the 35 pesticide registrations listed in the following Table 1. These registrations are listed by registration number, product names, active ingredients and the specific uses deleted. Users of these products who desire continued use on crops or sites

being deleted should contact the applicable registrant before December 8, 1997 to discuss withdrawal of the applications for amendment. This 180-day period will also permit interested members of the public to intercede with registrants prior to the Agency approval of the deletion. *Note: Registration numbers preceded by ** indicate a 30-day comment period.*
