FEDERAL COMMUNICATIONS COMMISSION**47 CFR Part 73**

[MM Docket No. 96-212; RM-8884]

Radio Broadcasting Services; Portland and Seaside, OR**AGENCY:** Federal Communications Commission.**ACTION:** Final rule.

SUMMARY: The Commission, at the request of Radio Systems of Miami, Inc., substitutes Channel 254C1 for Channel 253C at Portland, OR, and modifies the license of Station KUPL-FM to specify operation on the lower class channel. To accommodate the allotment at Portland, Channel 272A is substituted for Channel 255A at Seaside, OR, and the construction permit of Station KULU(FM) is modified to specify the alternate Class A channel. See 61 FR 55780, October 29, 1996. The allotment of Channel 254C1 at Portland could enable Station KUPL-FM to relocate its transmitter to better serve its community of license. Channel 254C1 can be allotted to Portland with a site restriction of 9.1 kilometers (5.6 miles) west, at coordinates 45-30-58 NL; 122-43-59 WL, to accommodate petitioner's desired site. Channel 272A can be allotted to Seaside at the transmitter site specified in Station KULU(FM)'s construction permit, at coordinates 45-54-35 NL; 123-56-07 WL. Canadian concurrence in these allotments has been received since both communities are located within 320 kilometers (200 miles) of the U.S.-Canadian border. With this action, this proceeding is terminated.

EFFECTIVE DATE: July 21, 1997.

[MM Docket No. 87-268; DA 97-1193]

Advanced Television Systems and Their Impact on the Existing Television Service**AGENCY:** Federal Communications Commission.**ACTION:** Final rule; consolidated petitions for reconsideration.

SUMMARY: The Commission is allowing parties to submit consolidated petitions for reconsideration of the *Fifth Report and Order* and *Sixth Report and Order* in this proceeding. The Commission is also increasing the page limit for such consolidated petitions to 50 pages. This action will eliminate the need for filing of duplicative pleadings, reduce the burden on responding parties and conserve Commission. Parties preparing to submit petitions for reconsideration of either or both of these decisions are also advised that they may submit filings addressing only one of these decisions or may submit separate filings addressing both decisions individually, in accordance with the standard procedures for petitions for rule making.

Filings that address only one decision will continue to be limited to 25 pages.

DATES: Petitions for reconsideration of the *Fifth Report and Order* are due June 16, 1997; petitions for reconsideration of the *Sixth Report and Order* are due June 13, 1997.

ADDRESSES: Federal Communications Commission, 1919 M Street, NW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Bruce Franca (202-418-2470), Alan Stillwell (202-418-2470) or Robert Eckert (202-428-2470), Office of Engineering and Technology.

SUPPLEMENTARY INFORMATION:

1. On April 3, 1997, the Commission adopted two decisions in this proceeding: the *Fifth Report and Order* in MM Docket No. 87-268, FCC 97-116 and the *Sixth Report and Order* in MM Docket No. 87-268, FCC 97-115. The *Fifth Report and Order* established service rules for digital television (DTV); the *Sixth Report and Order* established a DTV Table of Allotments, rules for the initial DTV allotments; procedures for assigning for DTV channels, and plans for spectrum recovery.

2. On May 29, 1997, the Association for Maximum Service Television, Inc. (MSTV) submitted a motion seeking permission to file a single petition for reconsideration of the *Fifth and Sixth Reports and Orders* that would exceed the 25-page limitation set forth in § 1.429(d) of the Commission's rules, 47 CFR 1.429(d). MSTV states that as evidenced by the numerous passages in the decisions that refer back to the separate decisions, the Commission's decisions with respect to many DTV service rule and allotment/assignment issues are interrelated and cannot be meaningfully assessed in isolation. It therefore submits that one petition addressing both the *Fifth and Sixth Reports and Orders* will provide an efficient means of responding to these decisions and also provide the Commission with the most studied and accurate response and information

possible. It further states that a thoughtful discussion in a single document of both DTV service rule and allotment/assignment issues will necessitate exceeding the 25-page limitation.

3. We recognize MSTV's position that many of the issues addressed in the *Fifth and Sixth Reports and Orders* are interrelated and that it may be more efficient for parties to respond to these decisions in a single, consolidated petition for reconsideration. In this case, a single filing could eliminate the need for duplicative pleadings, reduce the burden on responding parties and conserve Commission resources. Thus, we find that there is good cause for granting MSTV's motion for permission to file a single petition that addresses both decisions. Although we do not routinely grant extensions of the page limits for pleadings filed with the Commission (see 47 CFR 1.48(b)), we find that, given the number and complexity of the issues addressed in the *Fifth and Sixth Reports and Orders*, it is reasonable and appropriate to allow a single petition for reconsideration addressing both decisions to exceed the 25 page limit set forth in § 1.429(d). We also believe that a limit of 50 pages is appropriate for such consolidated filings. Accordingly, we are allowing all interested parties to submit consolidated petitions for rule making of the *Fifth and Sixth Reports and Orders* and are increasing the page limit for such petitions to 50 pages. Parties preparing to submit petitions for reconsideration of either or both of these decisions are also advised that they may submit filings addressing only one of these decisions or may submit separate filings addressing both decisions individually, in accordance with the standard procedures for petitions for rule making. Filings that address only one decision will continue to be limited to 25 pages.

4. Accordingly, it is ordered, pursuant to §§ 4(i) and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i) and 303(r),

and §§ 0.31, 0.241, 1.3, and 1.429 of the Commission's Rules, 47 CFR 0.31, 0.241, 1.3, and 1.429, that the motion of the Association for Maximum Service Television, Inc. that we permit the filing of consolidated petitions for reconsideration of the *Fifth Report and Order* and the *Sixth Report and Order* in MM Docket No. 87-268 and extend the page limit for such consolidated petitions is granted, as indicated above.
