Authority

This action is authorized under the Omnibus Crime Control and Safe Streets Act of 1968, §§ 201-03, as amended, 42 U.S.C. 3721-23 (1994).

Background

The National Institute of Justice calls for proposals for research and evaluation of the Violent Offenders Incarceration and Truth-in-Sentencing Acts (Title II, Subtitle A) of the Violent Crime Control and Law Enforcement Act of 1994, as amended. Requested areas of research are broken down into three main categories: sentencing impact evaluations, topical research and evaluation, and practitioner-research partnerships.

Section A, Sentencing Impact Evaluations, is divided into three topic areas: impact on length of stay in correctional facilities, impact on management and operations of facilities, and the impact of privatization.

Section B calls for proposals on topics of interest to NIJ, including: victim issues and concerns, the sentenced offender, unintended consequences of sentencing, court-related issues, and public opinion on sentencing. These topics are only illustrative of the research and evaluations that NIJ encourages under this solicitation. In developing other topics applicants should explain their likely contribution to the understanding of sentencing policies.

Section C calls for applications for the development of practitioner-researcher partnerships to explore how State sentencing policies and practices are best implemented in State or local agencies. Both sentencing and corrections partnerships can be formed. These partnerships may be newly formed in response to this solicitation or they may build on an existing relationship between researchers and practitioners. The applicant may be either the practitioner agency or the research agency or academic institution. Applications from jurisdictions of all sizes are encouraged.
