

generator, Great Bay is precluded from opportunities in additional electricity markets. The proposed formation of a holding company would protect Great Bay's status as an exempt wholesale, electric generator and allow management to develop and participate in opportunities in additional electricity markets through the holding company.

#### *Environmental Impacts of the Proposed Action*

The Commission has completed its evaluation of the proposed corporate restructuring and concludes that there will be no physical or operational changes to Seabrook. The corporate restructuring will not affect the qualifications or organizational affiliation of the personnel who operate the facilities, as North Atlantic will continue to be responsible for the operation Seabrook.

The Commission has evaluated the environmental impact of the proposed action and has determined that the probability or consequences of accidents would not be increased by the restructuring, and that post-accident radiological releases would not be greater than previously determined. Further, the Commission has determined that the corporate restructuring would not affect routine radiological plant effluents and would not increase occupational radiological exposure. Accordingly, the Commission concludes that there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential nonradiological impacts, the restructuring would not affect nonradiological plant effluents and would have no other environmental impact. Therefore, the Commission concludes that there are no significant nonradiological environmental impacts associated with the proposed action.

#### *Alternatives to the Proposed Action*

Since the Commission concluded that there are no significant environmental effects that would result from the proposed action, any alternative with equal or greater environmental impacts need not be evaluated.

The principal alternative would be to deny the requested action. Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are identical.

#### *Alternative Use of Resources*

This action does not involve the use of any resources not previously considered in the Final Environmental

Statements for the Seabrook Station, Unit No. 1, dated March 1983.

#### *Agencies and Persons Consulted*

In accordance with its stated policy, on January 15, 1997, the NRC staff consulted with the New Hampshire state official, Mr. George Iverson of the New Hampshire Emergency Management Agency regarding the environmental impact of the proposed action. On January 15, 1997, the NRC staff consulted with the Massachusetts state official, Mr. James Muckerheid of the Massachusetts Emergency Management Agency. The state officials had no comments.

#### *Finding of No Significant Impact*

Based upon the environmental assessment, the Commission concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the Commission has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensees' letters dated May 8, 1996, October 18, 1996, and December 9, 1996, which are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document rooms located at the Local Public Document Room located at Exeter Public Library, Founders Park, Exeter, New Hampshire 03833.

## OFFICE OF PERSONNEL MANAGEMENT

### Proposed Collection; Comment Request for Review of Data Collection Forms

**AGENCY:** U.S. Office of Personnel Management.

**ACTION:** Notice.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995 (Public Law 104-13, May 22, 1995), this notice announces that the Office of Personnel Management (OPM) intends to submit to the Office of Management and Budget a request for review of data collection forms. The Establishment Information Form, the Wage Data Collection Form, and the Continuation

Form are wage survey forms developed by OPM and used by two lead agencies, the Department of Defense (DOD) and the Department of Veterans Affairs (VA). Data collectors survey 21,200 businesses annually to determine the level of wages paid by private enterprise establishments for representative jobs common to both private industry and Government. Each survey collection requires 1-4 hours of respondent burden, resulting in a total yearly burden of 75,800 hours. The lead agencies use this information to establish rates of pay for Federal Wage System employees. For copies of this proposal contact Jim Farron on (202) 418-3208, or E-mail to [jmfarron@mail.opm.gov](mailto:jmfarron@mail.opm.gov).

**AGENCY:** Office of Personnel Management.

The form is used in conjunction with Project ABLE (ABLE BENEFICIARIES' LINK to EMPLOYERS). OPM Form 1622, "Project ABLE Enrollment Form," is used by authorized State Vocational Rehabilitation Counselors. Project ABLE is designed to enhance Federal job opportunities for people with disabilities who are job ready and want to work. The Social Security Administration identifies those persons

who may complete the enrollment process. Information on eligible enrollees is stored in OPM's Automated Applicant Referral System (AARS).

It is estimated that no more than 1,000 enrollments will be processed annually. Each form takes approximately 5 minutes (.08 hours) to complete. The annual estimated burden is 80 hours.
