ENVIRONMENTAL PROTECTION AGENCY**40 CFR Part 300**

[FRL-5851-4]

National Oil and Hazardous Substances Pollution Contingency Plan**National Priorities List**

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of deletion of Sealand Limited Site from the National Priorities List.

SUMMARY: EPA, Region 3, announces the deletion of the Sealand Limited Site, Mount Pleasant, Delaware, from the National Priorities List (NPL). The NPL is Appendix B of 40 CFR part 300, which is the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). EPA promulgated the NCP pursuant to section 105 of the Comprehensive

Environmental Response, Compensation, and Liability Act of 1980 (CERCLA), as amended. EPA and the State of Delaware Department of Natural Resources and Environmental Control (DNREC) have determined that all appropriate CERCLA actions have been implemented, that the Site poses no significant threat to public health or the environment pursuant to CERCLA, and that no further cleanup by the responsible parties is necessary under CERCLA.

DATES: Effective July 1, 1997.

ADDRESSES: Comprehensive information on this Site is available through the public docket which is available for viewing at the Site information repositories at the following locations:

Hazardous Waste Technical Information Center, 9th Floor, U.S. EPA, Region 3, 841 Chestnut Building, Philadelphia, PA, 19107, (215) 566-5363

Appoquinimink Public Library, 118 Silver Lake Road, Middletown, DE, 19709, (302) 378-5290.

FOR FURTHER INFORMATION CONTACT: Lesley Brunker (3HW23), U.S. EPA Region 3, 841 Chestnut Building, Philadelphia, PA, 19107, (215) 566-3239.

SUPPLEMENTARY INFORMATION: EPA announces the deletion of the Sealand Limited Site located in Mount Pleasant, Delaware, from the National Priorities List (NPL). The NPL is Appendix B of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), 40 CFR part 300. EPA identifies sites that appear to present a significant risk to public health, welfare, or the environment and maintains the NPL as the list of those sites. Sites on the NPL may be the subject of remedial actions financed by the Hazardous Substances Superfund Response Trust Fund (Fund). Pursuant to CERCLA, 40 U.S.C. 9605 (40 CFR 300.425(e)(3) of the NCP), any site deleted from the NPL remains eligible for Fund-financed remedial actions in the event that conditions at the site warrant such action in the future. Deletion of a site from the NPL does not affect responsible party liability or impede agency efforts to recover costs associated with response efforts.

A Notice of Intent to Delete the Sealand Limited Site from the NPL was published on February 10, 1997 in the **Federal Register** (62 FR 5949). The closing date for comments on the Notice of Intent to Delete was March 13, 1997. EPA received no comments on the proposed deletion.

List of Subjects in 40 CFR Part 300

Environmental Protection, Air pollution control, Chemicals, Hazardous substances, Hazardous waste, Intergovernmental relations, Penalties, Reporting and recordkeeping requirements, Superfund, Water pollution control, Water supply.

Dated: June 18, 1997.

For the reasons set out in the preamble, 40 CFR part 300 is amended as follows:

PART 300—[AMENDED]

The authority citation for part 300 continues to read as follows: Authority: 33 U.S.C. 1321(c)(2); 42 U.S.C. 9601–9657; E.O. 12777, 56 FR 54757, 3 CFR, 191 Comp., p. 351; E.O. 12580, 52 FR 2923, 3 CFR, 1987 Comp., p. 193.

Appendix B—[Amended]

Table 1 of Appendix B to part 300 is amended by removing the site “Sealand Limited, Mount Pleasant, Delaware.”

Stanley Laskowski,

Acting Regional Administrator, U.S. EPA Region 3.

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****50 CFR Part 285**

[I.D. 062497A]

Atlantic Tuna Fisheries; Closure Postponement

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Inseason adjustment.

SUMMARY: NMFS postpones the closure of the Angling category fishery for large school and small medium Atlantic bluefin tuna (ABT) in the southern area (Delaware and states south). NMFS previously announced a closure date of June 27, 1997, for this category. However, based on dockside intercept data, NMFS has determined that catch rates have not been as high as projected. This closure postponement is necessary to provide fishery participants a reasonable opportunity the catch the

allocated quota. This action is being taken to extend scientific data collection on ABT and to further domestic management objectives for the Atlantic tuna fisheries.

DATES: Effective June 27, 1997, 11:30 p.m. until 11:30 p.m. local time, July 20, 1997.

FOR FURTHER INFORMATION CONTACT: Sarah McLaughlin, 301–713–2347, or Mark Murray-Brown, 508–281–9260.

SUPPLEMENTARY INFORMATION:

Regulations implemented under the authority of the Atlantic Tunas Convention Act (16 U.S.C. 971 *et seq.*) governing the harvest of ABT by persons and vessels subject to U.S. jurisdiction are found at 50 CFR part 285. Section 285.22 subdivides the U.S. quota recommended by the International Commission for the Conservation of Atlantic Tunas among the various domestic fishing categories.

NMFS is required, under § 285.20(b)(1), to monitor the catch and landing statistics and, on the basis of these statistics, to project a date when the catch of ABT will equal the quota and publish a **Federal Register** announcement to close the applicable fishery.

On February 21, 1997, NMFS amended the regulations governing the Atlantic bluefin tuna (ABT) fisheries to provide authority for NMFS to close and/or reopen all or part of the Angling category in order to provide for further distribution of fishing opportunities throughout the species range (62 FR 8634, February 26, 1997). The regulatory amendments were necessary to increase the geographic and temporal scope of data collection from the scientific monitoring quota established for the United States. Additionally, the authority for interim closures facilitates a more equitable geographic and temporal distribution of fishing opportunities for all fishermen in the Angling category, thus furthering domestic management objectives for the Atlantic tuna fisheries.

On March 2, 1997, based on catch estimates obtained through angler interviews, NMFS closed the Angling category for school, large school, and small medium ABT in all areas (62 FR 9376, March 3, 1997).

Effective June 13, 1997, NMFS reopened the Angling category for all areas but limited to 2 weeks the opening period for large school and small medium ABT in the southern area

(waters off Delaware and states south (south of 38°47' N. lat.)). The 2 week opening was based on preliminary estimates of catch in that size category in North Carolina, the available quota, and expected catch rates of large school and small medium ABT. NMFS has since determined that catch rates in the southern area are lower than originally projected and that the closure date should be postponed until July 20, 1997. This action does not apply to the northern Angling category fishery for large school and small medium ABT, and the Angling category fishery for school ABT in all areas, which remain open until further notice.

Catch Limit

NMFS previously adjusted the daily catch limit for the Angling category fishery for ABT to one fish per vessel (61 FR 66618, December 18, 1996), which may be from the school, large school, or small medium size class (measuring 27–73”). Due to increased participation in the fishery and anticipated catch rates, this daily catch limit remains in effect. Additionally, the catch limit for trophy size class ABT (large medium and giant ABT, measuring 73” and greater) remains at one per vessel per year. Any changes to these catch limits will be published in the **Federal Register** and posted on the 24-hour Highly Migratory Species Information Lines (301–713–1279; 508–281–9305; 1–888–USA-TUNA). Anglers should consult the information lines prior to each fishing trip for updates on closures and catch limits.

This action is being taken to facilitate a wide distribution of fishing opportunities for all fishermen in the Angling category, thus furthering domestic management objectives for the Atlantic tuna fisheries. This action also facilitates data collection from the scientific monitoring quota established for the United States over the greatest geographic and temporal range.

Classification

This action is taken under 50 CFR 285.20(b)(1) and is exempt from review under E.O. 12866.

Authority: 16 U.S.C. 971 *et seq.*

Dated: June 25, 1997.

Bruce Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
