

1. *Santa Barbara Bancorp*, Santa Barbara, California; to acquire 100 percent of the voting shares of Citizens State Bank of Santa Paula, Santa Paula, California.

Board of Governors of the Federal Reserve System, June 26, 1997.

Jennifer J. Johnson,

Deputy Secretary of the Board.

[FR Doc. 97-17173 Filed 6-30-97; 8:45 am]

BILLING CODE 6210-01-F

FEDERAL RESERVE SYSTEM

Sunshine Act Meeting

AGENCY HOLDING THE MEETING: Board of Governors of the Federal Reserve System.

TIME AND DATE: 10:00 a.m., Thursday, July 3, 1997.

PLACE: Marriner S. Eccles Federal Reserve Board Building, C Street entrance between 20th and 21st Streets, N.W., Washington, D.C. 20551.

STATUS: Open.

MATTERS TO BE CONSIDERED:

1. Publication for comment of a proposal to apply sections 23A and 23B of the Federal Reserve Act to certain subsidiaries of banks engaged in activities impermissible for the bank itself.

2. Any items carried forward from a previously announced meeting.

Note: This meeting will be recorded for the benefit of those unable to attend. Cassettes will be available for listening in the Board's Freedom of Information Office, and copies may be ordered for \$5 per cassette by calling (202) 452-3684 or by writing to: Freedom of Information Office, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

CONTACT PERSON FOR MORE INFORMATION: Mr. Joseph R. Coyne, Assistant to the Board; (202) 452-3204.

Dated: June 26, 1997.

Jennifer J. Johnson,

Deputy Secretary of the Board.

[FR Doc. 97-17133 Filed 6-26-97; 10:43 am]

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 639-7090.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the

proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques for other forms of information technology. Send comments to Wilma Johnson, CDC Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Projects

1. Information Collection Procedures for Evaluating Toxicological Profiles—New—The Agency for Toxic Substances and Disease Registry (ATSDR) prepares toxicological profiles in accordance with guidelines developed with guidelines developed by ATSDR and EPA and each profile is revised and republished as necessary, but no less often than every three years. The principal audiences for the toxicological profiles are health professionals at the federal, state, and local levels, interested private sector organizations and groups, and members of the public.

This is a request for approval to collect information in the profiles from users on: (a) Affiliation of users of the profiles, (b) clarity of discussion in the profiles, (c) consistency of information in the profiles, (d) completeness of information in the profiles, and (e) utility of information in the profile.

The information will be used in an effort to maintain customer satisfaction concerning use of the profiles by these multi-disciplinary users. This will also ensure that we continue to provide a client-oriented product. This effort will be accomplished through enhancement of the built-in system used for updating existing toxicological profiles and improving the utility of newly developed profiles by use of these user surveys.

The only cost to respondents will be the time to complete the form, which we estimate at less than 15 minutes per respondent. We expect respondents of the toxicological profile survey to come from a wide range of occupational and professional backgrounds and have an average hourly wage of \$15. The cost to respondents to evaluate toxicological profiles would then be \$3.75 per evaluation. Assuming a 50% response rate and a total of 12000 profiles (questionnaires) per year, the estimated annual cost to respondents is \$22,500

Respondents	Number of respondents	Number of responses/re-spondent	Avg. burden/response	Total burden (in hrs.)
Questionnaire	6000	1	0.25	750

2. Preventive Health and Health Services Block, Annual applications and reports—(0920–0106)—Extension—In 1994, OMB approved the collection of information provided in the grant applications and annual reports for the Preventive Health and Health Services Block Grant (OMB #0920–0106). This approval expires on September 30, 1997. CDC is requesting extension of OMB clearance for this legislatively mandated information collection.

The information collected through the applications from the official State health agencies is required from section 1905 of the Public Health Service Act. This is no change in the proposed information collection from previous years. The information collected from the annual reports is required by section 1906, specifically the requirement for uniform data sets matching the uses of funds. Minor modifications to some individual uniform data sets for chronic

diseases, as well as some other program areas, have been made to maintain consistency with performance measures developed as a result of the Government Performance and Results Act. Overall, this request reflects a 25% reduction in the collection burden to the grantees (States). The total cost to all respondents is \$137,250, estimated at \$25/burden hour.

Respondents	Number of respondents	Number of responses/re-spondents	Avg. burden/response (in hrs.)	Total burden (in hrs.)
Annual Applications	61	1	30	1830
Annual Reports	61	1	30	1830
Total				5490

Dated: June 25, 1997.

Wilma G. Johnson,

Acting Associate Director for Policy Planning And Evaluation, Centers for Disease Control and Prevention (CDC).

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Office on (404) 639–7090. Send written comments to CDC, Desk Officer; Human

Resources and Housing Branch, New Executive Office Building, Room 10235; Washington, DC 20503. Written comments should be received within 7 days of this notice.

Proposed Project

1. The National Home and Hospice Care Mail Survey (NHHCMS)—(0920–0298)—Revision—The National Home and Hospice Care Survey (NHHCS) was conducted in 1992, 1993, 1994 and 1996. It is part of the Long-Term Care component of the National Health Care Survey. Section 306 of the Public Health Service Act states that the National Center for Health Statistics “shall collect statistics on health resources * * * [and] utilization of health care, including utilization of * * * services of hospitals, extended care facilities, home health agencies, and other institutions.”—NCHS data are used to examine this most rapidly expanding sector of the health care industry. Data from the NHHCS are widely used by the health care industry and policy makers for such diverse analyses as the need for various medical supplies; minority

access to health care; and planning for the health care needs of the elderly. The NHHCS also reveals detailed information on utilization patterns, as needed to make accurate assessments of the need for and costs associated with such care. Data from earlier NHHCS collections have been used by the Congressional Budget Office, the Bureau of Health Professions, the Maryland Health Resources Planning Commission, the National Association for Home Care, and by several newspapers and journals. Additional uses are expected to be similar to the uses of the National Nursing Home Survey. The mail survey version is an abbreviated form used to collect basic trend data in years in which the full NHHCS is not in the field. NHHCMS data cover: baseline data on the characteristics of home health agencies and hospices including number of patients served, ownership, Medicare and Medicaid certification, and services provided. Data collection is planned for the period October 1997–January 1998. Survey design is in process now. The total annual burden hours are 200.

Respondents	Number of respondents	Number of responses/re-spondent	Avg. burden/response (in hrs.)
Hospices and Home Health Care Agencies	1,200	1	0.166
