

Background

On June 6, 1995, the Department published a notice of "Opportunity to Request Administrative Review" (60 FR 29821) of the antidumping finding on LPTs from Italy (37 FR 11772, June 14, 1972.) Petitioner, ABB Power T&D Co., Inc. (ABB), and Tamini both requested an administrative review on June 30, 1995. Tamini also requested, pursuant to 19 CFR 353.25(b), revocation of the order with respect to its sales of the subject merchandise and submitted the certification required by 19 CFR 353.25(b)(1). Tamini was not required to provide the certification required by 19 CFR 353.25(b)(2) (a statement in writing agreeing to its immediate reinstatement in the order if the Department concludes, subsequent to revocation, that the respondent sold merchandise at less than normal value) because the Department has not previously determined that Tamini sold subject merchandise in the United States at less than normal value. We published a notice of initiation of the review on August 16, 1995 (60 FR 42500), covering the period June 1, 1994 through May 31, 1995. Based on the preliminary results in this review and the two preceding reviews (see *Large Power Transformers from Italy; Final Results of Antidumping Duty Administrative Review*, 59 FR 48851 (September 23, 1994), and *Large Power Transformers from Italy; Final Results of Antidumping Duty Administrative Review*, 61 FR 37443 (July 18, 1996), we preliminarily determined that Tamini has demonstrated three consecutive years of sales at not less than normal value and, therefore, qualifies for revocation. We published, on August 6, 1996, the preliminary results of administrative review of the antidumping finding on LPTs from Italy and the intent to revoke the finding in part (61 FR 40815). The Department is conducting this review in accordance with section 751 of the Act.

Scope of the Review

Imports covered by the review are shipments of large power transformers (LPTs); that is, all types of transformers rated 10,000 kVA (kilovolt-amperes) or above, by whatever name designated, used in the generation, transmission, distribution and utilization of electric power. The term "transformers" includes, but is not limited to, shunt reactors, autotransformers, rectifier transformers, and power rectifier transformers. Not included are combination units, commonly known as rectiformers, if the entire integrated assembly is imported in the same shipment and entered on the same entry

and the assembly has been ordered and invoiced as a unit, without a separate price for the transformer portion of the assembly. This merchandise is currently classifiable under the Harmonized Tariff Schedule (HTS) item numbers 8504.22.00, 8504.23.00, 8504.34.33, 8504.40.00, and 8504.50.00. The HTS item numbers are provided for convenience and Customs purposes. The written description remains dispositive.

The review covers shipments of transformers by Tamini during the period June 1, 1994, through May 31, 1995.

Analysis of Comments Received

We invited interested parties to comment on our preliminary results and preliminary notice of intent to revoke the finding in part. We did not receive any comments from interested parties, and we did not make any adjustments to our calculations for these final results. Accordingly, the weighted-average margin for these final results remains zero percent.

Final Results of Review

We determine that, for the period June 1, 1994, through May 31, 1995, Tamini had a weighted-average antidumping duty margin of zero percent. We further determine that Tamini has demonstrated three consecutive review periods of sales at not less than normal value. Our record presents no evidence that Tamini has sold the subject merchandise at less than normal value in the past, and we received no comments from any interested parties contesting the revocation. On the basis of no sales at less than normal value for three consecutive years and the lack of any indication that such sales are likely in the future, we have concluded that it is not likely that Tamini will in the future sell the subject merchandise at less than normal value. Accordingly, we are revoking the order on large power transformers from Italy with respect to Tamini in accordance with section 751(d) of the Act and 19 CFR 353.25(a).

This revocation applies to all entries of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after June 1, 1995. The Department will order the suspension of liquidation ended for all such entries and will instruct the Customs Service to release any cash deposit or bonds. The Department will further instruct Customs to refund with interest any cash deposits on post-June 1, 1994 entries.

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 353.26 to

file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 353.34(d). Failure to comply is a violation of the APO.

This administrative review, revocation, and notice are in accordance with sections 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and 19 C.F.R. 353.22(c)(5) and 353.25(a).

Acting Assistant Secretary for Import Administration.

We are now revoking this order in part, with regard to stainless steel camping cooking ware, as described in the *Scope of Review*, based on the fact that domestic parties have expressed no interest in the importation or sale of this stainless steel camping cooking ware imported from the Republic of Korea.

EFFECTIVE DATE: January 24, 1997.

Background

On December 9, 1996, Peregrine Outfitters, Inc., (Peregrine) requested that the Department conduct a changed circumstances administrative review to determine whether to partially revoke the order with regard to imports of stainless steel camping cooking ware from the Republic of Korea. The order with regard to imports of other types of stainless steel cooking ware is not affected by this request. In addition, on December 9, 1996, Revere Ware Corp. (petitioner) informed the Department in writing that it did not object to the changed circumstances review and had no interest in the importation or sale of stainless steel camping cooking ware produced in the Republic of Korea, as described by Peregrine.

We preliminarily determined that petitioner's affirmative statement of no interest constituted changed circumstances sufficient to warrant a partial revocation of this order. Consequently, on December 20, 1996, the Department published a notice of initiation and preliminary results of changed circumstances antidumping duty administrative review and intent to revoke this order in part (61 FR 67320). We gave interested parties an opportunity to comment on the preliminary results of this changed circumstances review. We received no comments.

Scope of Review

The merchandise covered by this changed circumstances review is stainless steel camping cooking ware from the Republic of Korea. This changed circumstances administrative review covers all manufacturers/exporters of stainless steel cooking ware meeting the following specifications of

stainless steel camping cooking ware: (1) made of single-ply stainless steel having a thickness no greater than 6.0 millimeters; and (2) consists of 1.0, 1.5, and 2.0 quart saucepans without handles and 2.5, 4.0, and 5.0 quart saucepans with folding bail handles and with lids that also serve as fry pans. These camping cooking ware items can be nested inside each other in order to save space when packing for camping or backpacking. The order with regard to imports of other stainless steel cooking ware is not affected by this request.

Final Results of Review; Partial Revocation of Antidumping Duty Order

The affirmative statement of no interest by petitioners in stainless steel camping cooking ware from the Republic of Korea constitutes changed circumstances sufficient to warrant partial revocation of this order. Therefore, the Department is partially revoking the order on certain stainless steel cooking ware from the Republic of Korea with regard to cooking ware which meets the specifications of stainless steel camping cooking ware from the Republic of Korea, in accordance with sections 751(b) and (d) and 782(h) of the Act and 19 CFR 353.25(d)(1).

The Department will instruct the U.S. Customs Service (Customs) to proceed with liquidation, without regard to antidumping duties, of all unliquidated entries of stainless steel camping cooking ware from the Republic of Korea that are not subject to final results of administrative review. The Department will further instruct Customs to refund with interest any estimated duties collected with respect to unliquidated entries of stainless steel camping cooking ware from the Republic of Korea that are not subject to final results of administrative review.

This notice also serves as a reminder to parties subject to administrative protection orders (APOs) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 353.34(d). Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

This changed circumstances administrative review, partial revocation of the antidumping duty order and notice are in accordance with sections 751 (b) and (d) and 782(h) of the Act and §§ 353.22(f) and 353.25(d) of the Department's regulations.

Dated: January 14, 1997.
