#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The Bureau of Economic Analysis is responsible for the computation and publication of the U.S. balance of payments accounts. The information collected in this survey is an integral part of the "transportation" portion of the U.S. balance of payments accounts. The balance of payments accounts, which are published quarterly in the Bureau's monthly publication, the Survey of Current Business, are one of the major statistical products of BEA. The accounts provide a statistical summary of U.S. international transactions. They are used by government and private organizations for national and international policy formulation, and analytical studies. Without the information collected in this survey, an integral component of the transportation account would be omitted. No other Government agency collects comprehensive annual data on foreign ocean carriers' expenses in the United States.

The survey requests information from U.S. agents of foreign ocean carriers. Information is collected on an annual basis from U.S. agents that handle 40 or more port calls by foreign vessels or have annual total covered expenses above \$250,000. U.S. agents with less than 40 port calls or with annual total covered expenses below \$250,000 are exempt from reporting.

##### II. Method of Collection

Mandatory reports are received from U.S. shipping agents who provide data regarding the expenses of foreign ocean carriers' in the United States. Submission of the completed report form, or computer printouts in the format of the report form, are the most expedient and economical methods of reporting the information.
