CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Part 1700

Household Products Containing Petroleum Distillates and Other Hydrocarbons; Advance Notice of Proposed Rulemaking; Reopening of Comment Period

AGENCY: Consumer Product Safety Commission.

ACTION: Reopening of comment period for advance notice of proposed rulemaking.

SUMMARY: There are child-resistant packaging standards in effect under the Poison Prevention Packaging Act ("PPPA") for some products that contain petroleum distillates or other hydrocarbons. In the **Federal Register** of February 26, 1997, the Consumer Product Safety Commission ("CPSC" or "Commission") published an advance notice of proposed rulemaking ("ANPR") requesting comments on whether additional products containing these substances should be subject to child-resistant packaging standards. 62 FR 8659. At the request of the Chemical Specialties Manufacturers Association ("CSMA"), the Commission extended the period for receiving written comments on the ANPR until July 11, 1997. 62 FR 22897 (April 28, 1997).

As requested by the Cosmetic, Toiletry, and Fragrance Association ("CTFA"), the Commission further reopens the comment period until September 1, 1997.

DATES: Written comments in response to the ANPR must be received by the Commission by September 1, 1997.

ADDRESSES: Comments, preferably in five copies, should be mailed to the Office of the Secretary, Consumer Product Safety Commission, Washington, DC 20207-0001, or delivered to the Office of the Secretary, Consumer Product Safety Commission, Room 502, 4330 East-West Highway, Bethesda, Maryland 20814; telephone (301) 504-0800. Alternatively,

comments may be filed by telefacsimile to (301)504-0127 or by e-mail to cpsc-os@cpsc.gov. Comments should be captioned "Comments on ANPR for Petroleum Distillates."

FOR FURTHER INFORMATION CONTACT:

Suzanne Barone, Directorate for Epidemiology and Health Sciences, Consumer Product Safety Commission, Washington, DC 20207; telephone (301) 504-0477, ext. 1196.

SUPPLEMENTARY INFORMATION: Existing PPPA standards require child-resistant packaging for some products that contain petroleum distillates or other hydrocarbons. Aspiration of small amounts of these chemicals into the lung can cause chemical pneumonia, pulmonary damage, and death.

In the **Federal Register** of February 26, 1997, the CPSC published an ANPR that initiated a rulemaking proceeding to consider whether additional household products containing petroleum distillates and other hydrocarbons should be subject to PPPA standards. 62 FR 8659. The Commission solicited written comments from interested persons concerning these risks, the regulatory alternatives discussed in the ANPR, other possible means to address the risks, and the economic impacts of the various regulatory alternatives. The Commission originally provided for a 75-day comment period, which would have expired on May 12, 1997. At the request of the CSMA, the Commission extended the period for receiving written comments on the ANPR until July 11, 1997. 62 FR 22897 (April 28, 1997).

By a letter dated July 1, 1997, the CTFA requested a further extension of the comment period until September 1, 1997. CTFA asserted that additional time was needed because the ANPR lacked a definition of "petroleum distillates," and there was confusion among CTFA's members regarding which petroleum distillates would be contained in cosmetic products, if any. CTFA also has asserted that some of its member companies have recently become aware that several product categories not previously contemplated by manufacturers could be affected by the ANPR. Further, CTFA claimed that because cosmetics are not generally subject to CPSC's statutes (except the Poison Prevention Packaging Act), a significant effort was required to educate CTFA's members about the rulemaking and request for information. CTFA stated that additional time is required in order to submit accurate, complete, and useful information to the agency to enable the staff to assess the impact of the ANPR on the cosmetics industry.

CTFA represents companies that can supply valuable information concerning the issues identified in the ANPR. Accordingly, the Commission granted its request for an extension of the comment period, and reopens the period for submission of written comments to September 1, 1997.

Dated: July 15, 1997.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

Approval of Source Specific Revisions to the Tennessee SIP Regarding Volatile Organic Compounds

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is taking action on three source specific revisions to the Tennessee State Implementation Plan (SIP) which establish reasonably available control technology requirements (RACT) for the control of volatile organic compound (VOC) emissions from certain operations at Brunswick Marine Corporation, Outboard Marine Corporation, and Essex Group Incorporated. EPA is approving the operating permits for these sources into the SIP with the exception of the portion of one permit which allows the Tennessee Technical Secretary to determine RACT which is being disapproved. These permits were issued consistent with the alternate control plans which established RACT requirements in accordance with the provisions of the Tennessee SIP for developing VOC emission control requirements for major sources for which there is no regulation or guidance for determining RACT. In the final rules section of this **Federal Register**, the EPA is approving the submitted chapter in its entirety as a direct-final rule without prior proposal because the EPA views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: To be considered, comments must be received by August 20, 1997.

ADDRESSEES: Written comments on this action should be addressed to William Denman at the Environmental Protection Agency, Region 4 Air Planning Branch, 100 Alabama Street, SW, Atlanta, Georgia 30303. Copies of
