BLM managed public lands within the Middle Deschutes Wild and Scenic River boundaries are closed to shooting yearlong except when legally hunting game birds, game mammals, and furbearers during official state waterfowl, big game, upland game, and furbearer seasons. Shooting is defined as "the discharge of firearms". A firearm is defined as "a weapon, by whatever name known, which is designed to expel a projectile by the action of powder and which is readily capable of use as a weapon." The purpose of this closure is to protect wildlife resources and to improve public safety. More specifically, this closure was partly ordered to protect nesting golden eagles within the river corridor. Currently, the occurrence of shooting jeopardizes the nesting success of golden eagles within the river corridor and poses a threat to

recreationists and other public land users. Exemptions to this closure order may be made on a case-by-case basis by the authorized officer. This closure will be evaluated in the Urban Interface Amendment to the Brothers/La Pine Resource Management Plan of 1989 and future amendments to the Two Rivers Resource Management Plan of 1986. The authority for this closure is 43 CFR 8364.1: Closure and restriction orders.

**ACTION:** Notice is hereby given that the area as legally described below is closed to shooting yearlong except when legally hunting game birds, game mammals, or furbearers during official state waterfowl, upland game, big game, and furbearer seasons.

**LEGAL DESCRIPTION:** This order applies to all areas within Township 17 South, Range 13 East, Section 23, NE of the SE.

All areas within Township 17 South, Range 13 East, Section 23, NE of the SE, are closed to shooting yearlong except when legally hunting game birds, game mammals, or furbearers during official state waterfowl, upland game, big game, and furbearer seasons. Shooting is defined as "the discharge of firearms". A firearm is defined as "a weapon, by whatever name known, which is designed to expel a projectile by the action of powder and which is readily capable of use as a weapon." The purpose of this closure is to protect wildlife resources and other natural values, reduce vandalism, and improve public safety. Currently, the occurrence

of shooting at Mayfield Pond continues to result in damage to wildlife resources (including migratory shorebirds, resident wildlife, and special status animal species); destruction of natural features; and vandalism to land and installations. The occurrence of shooting poses a threat to recreationists and other public land users. Exemptions to this closure order may be made on a case-by-case basis by the authorized officer. This emergency order will be evaluated in the Urban Interface Amendment to the Brothers/La Pine Resource Management Plan of 1989. The authority for this closure is 43 CFR 8364.1: Closure and restriction orders.

#### Order Providing for Opening of Lands Subject to Section 24 of the Federal Power Act; California

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice.

**SUMMARY:** This order opens to disposal by either land exchange or sale, subject to section 24 of the Federal Power Act (FPA), 1,561.66 acres of public lands withdrawn by an U. S. Geological Survey Order dated April 22, 1948, an Executive Order dated May 11, 1915, and two Federal Power Commission orders, dated July 18, 1949 and June 12, 1962, respectively, for power site purposes. This action will permit consummation of pending land exchanges and retain the power rights to the United States of America. The Federal Energy Regulatory Commission (FERC) has determined that the power value of the subject lands will not be injured or destroyed by their disposal by either land exchange or sale, if the land exchange or sale are subject to section 24 of FPA. FERC concurred with this action in three letters: DVCA-1241, dated December 10, 1996; DVCA-1242-000, dated April 17, 1997; and DVCA-1243-000, dated May 5, 1997. Although the lands have been and will remain closed to mining because of the withdrawals for the two power projects or the existing segregation for the pending land exchanges, they have been and will remain open to mineral leasing.
