

Specifically EPA is seeking information that would assist in determining whether F&W uses are currently being attained, or have been attained since or before 1975, or whether natural conditions or features or human caused conditions prevent the attainment of F&W uses and cannot be remedied or would cause more environmental damage to correct than to leave in place. Below is a general discussion of the types of data/information requested by the Agency:

Ambient Monitoring Information: (1) Any instream data for any of the above stream segments reflecting either natural conditions (e.g., instream flow data or other data relating to stream hydrology) or irretrievable human-caused conditions which prevent the F&W uses or supporting water quality criteria from being attained, (2) Any available instream biological data, (3) Any chemical and biological monitoring data that verify improvements to water quality as a result of treatment plant/facility upgrades and/or expansions and (4) Any instream data reflecting nonpoint sources of pollution or best management practices that have been implemented for nonpoint source control.

Current and Historical Effluent Data: (1) Any data and information relating to mass loadings from point source discharges of pollutants such as BOD, NH₃-N, Chlorine, metals (e.g., As, Cd, Cr, Cu, Pb, Hg, Ni, Ag, Zn), toxics (e.g., volatile organic chemicals such as benzene or toluene, acid extractables such as pentachlorophenol, base neutrals such as anthracene, fluorene or pyrene, and pesticides such as aldrin, lindane, DDT, dieldrin, endrin and toxaphene), (2) Data and information related to facility or treatment plant effluent quality and (3) Any information related to releases of pollutants from other sources such as landfills, transportation facilities, construction sites, agriculture/silviculture, incinerators, and contaminated sediments.

Models: (1) Any data or information on analytical models which can be used to evaluate or predict stream quality, flow and/or morphology, (2) Any physical, biological or chemical characteristics relating to beneficial uses and (3) The results of any such models which can be used to evaluate beneficial uses. **Economic Data:** Any information relating to costs and benefits associated with facility or treatment plant expansions or upgrades. This information includes: (1) Qualitative descriptions or quantitative estimates of any costs and benefits associated with facilities or treatment plants meeting F&W limits, (2) Any information on

costs to households in the community with facility or treatment plant expansions or upgrades, whether through an increase in user fees, an increase in taxes, or a combination of both, (3) Descriptions of the geographical area affected, (4) Any changes in median household income, employment, and overall net debt as a percent of full market value of taxable property and (5) Any effects of changes in tax revenues if the private-sector entity were to go out of business, changes in income to the community if workers lose their jobs, and effects on other businesses both direct and indirect.

Dated: January 21, 1997.

Robert F. McGhee,

Director, Water Management Division.

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 2174]

Petitions for Reconsideration and Clarification of Action in Rulemaking Proceedings

January 24, 1997.

Petitions for reconsideration and clarification have been filed in the Commission's rulemaking proceedings listed in this Public Notice and published pursuant to 47 CFR 1.429(e). The full text of these documents are available for viewing and copying in Room 239, 1919 M Street, N.W., Washington, D.C. or may be purchased from the Commission's copy contractor, ITS, Inc. (202) 857-3800. Oppositions to these petitions must be filed February 13, 1997. See Section 1.4(b)(1) of the Commission's rules (47 CFR 1.4(b)(1)). Replies to an opposition must be filed within 10 days after the time for filing oppositions has expired.

Subject: Amendment of Section 73.202(b), Table of Allotments, FM Broadcast Stations. (Rose Hill, Trenton, Aurora, and Ocracoke, North Carolina) (MM Docket No. 95-88, RM-8641, RM-8688, RM-8689)

Number of Petition Filed: 1.

Subject: Interconnection and Resale Obligations Pertaining to Commercial Mobile Radio Services. (CC Docket No. 94-54)

Number of Petition Filed: 2.

Federal Communications Commission.
William F. Caton,
Acting Secretary.

BILLING CODE 6712-01-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

Agency Information Collection Activities: Submission for OMB Review; Comment Request

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency has submitted the following proposed information collection to the Office of Management and Budget for review and clearance in accordance with the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3507).

Title: Approval and Coordination of Requirements to Use the NETC for Extracurricular Training Activities.

Type of Information Collection: Extension of a currently approved collection.

OMB Number: 3067-0219.

Abstract: The National Emergency Training Center (NETC) is a FEMA facility, located in Emmitsburg, Maryland, that houses the Emergency Management Institute and the National Fire Academy. It provides training and education programs for Federal, State, and local personnel in hazard mitigation, emergency response and preparedness, fire prevention and control, disaster response, and long-term disaster recovery. Special groups sponsored by the EMI, NFA, or other FEMA organizations may use NETC facilities to conduct activities closely related to, or in direct support of their activities. Such groups include other Federal departments and agencies, groups chartered by Congress such as the American Red Cross, State and local governments, volunteer groups and national and international associations representing State and local governments. The collection of information will be used to obtain information from special groups that request the use of NETC facilities for extracurricular training activities.

Affected Public: Individuals and households, business or other for-profit, not-for-profit institutions, Federal Government, and State, Local, or Tribal Government.

FEMA Forms:

(1) FEMA Form 75-10, Request for Housing Accommodations, is used by an organization's or group's contact person to provide information on participants who will be staying on campus. NETC staff use the information to assign dormitory rooms. Estimated burden for this form is 110 hours—1,100 responses at 6 minutes per response.

(2) FEMA Form 75-11, Request for Use of NETC Facilities, is used by

respondents to provide information on the number of participants, meals, and special requirements. The information is used by NETC staff to assign classrooms, schedule equipment, and arrange for food service. Estimated burden for this form is 20 hours—100 responses at 12 minutes per response.

Frequency of Response: One response per respondent.

Estimated Total Annual Burden Hours: 130.

Estimated Costs: \$3,000 per year.

COMMENTS: Interested persons are invited to submit written comments on the proposed information collection to Victoria Wassmer, Desk Officer for the Federal Emergency Management Agency, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503 within February 28, 1997.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection should be made to Muriel B. Anderson, FEMA Information Collections Officer, Federal Emergency Management Agency, 500 C Street, SW, Room 311, Washington, DC 20472. Telephone number (202) 646-2625. FAX number (202) 646-3524.

Dated: January 17, 1997.

Reginald Trujillo,

Director, Program Services Division,
Operations Support Directorate.

BILLING CODE 6718-01-P

Agency Information Collection Activities: Submission for OMB Review; Comment Request

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency is submitting a request for review and approval of a collection of information under the emergency processing procedures in Office of Management and Budget (OMB) regulation 5 CFR 1320.13. FEMA is requesting the collection of information be approved by January 21, 1997, for use through July 31, 1997.

Supplementary Information. The Robert T. Stafford Disaster Relief and Emergency Act, Public Law 93-288, as amended, authorizes the President to provide assistance to individuals and to State and local governments to help them to respond to and recover from a disaster. Certain types of private nonprofit organizations may receive assistance also. In order to receive Federal assistance, i.e., Federal grants, State and local officials and officials of

eligible private nonprofit organizations who have a responsibility for response to a major disaster and for the restoration of facilities in the aftermath of such events must provide information to FEMA. The information is required in accordance with FEMA regulations 44 CFR Part 206, Subpart G and guidance published in FEMA 286, Public Assistance Guide.

Collection of Information

Title. Damage Survey Report-Data Sheet, Building Survey, Pumping Equipment Survey, Bridge Survey.

Type of Information Collection. Reinstatement, without change, of a previously approved collection for which OMB approval has expired.

OMB Number: 3067-0223.

Abstract. Following a major disaster declaration by the President, the State and Disaster Recovery Manager will arrange for damage surveys to be made by damage survey inspection teams. A Damage Survey Report-Data Sheet will be completed by a Federal/State inspection team, escorted by a local representative for each damaged facility and for each item of emergency and permanent work identified by the local representative. The inspection teams will inspect every damaged facility and review all applicable records to determine the extent of the disaster damage, the scope of eligible work, and the estimated cost of that work. The inspection teams do not randomly search for damaged facilities but rely on applicants to prepare for the damage survey inspections before the arrival of the inspectors (through the identification of all damaged facilities and the projection of restoration/repair costs, etc.), and be prepared to guide the team to each site.

The Damage Survey Report-Data Sheet is designed to itemize field recommendations which are attached as supporting justification to the applicant's project application. The following forms are supplements to the Damage Survey Report: FEMA Form 90-3, Pumping Survey, provides additional information on pumping equipment damage sustained during a disaster. FEMA Form 90-51, Building Survey, provides additional information on damage to buildings, and FEMA Form 90-53, Bridge Survey, provides additional information on bridge damage sustained during a disaster. Prior to approval, FEMA performs an engineering analysis of each project application and the accompanying damage survey report-data sheet, to ensure the restoration work and associated costs meet FEMA eligibility criteria.

FEMA Forms and Checklist:

(1) FEMA Form 90-91, Damage Survey Report-Data Sheet—12,000 responses at 30 minutes per response for an estimated total of 6,000 burden hours.

(2) FEMA Form 90-3, Pumping Equipment Survey—50 responses at 30 minutes per response for an estimated total of 25 burden hours..

(3) FEMA Form 90-51, Building Survey—50 responses at 30 minutes per response for an estimated total of 25 burden hours.

(4) FEMA Form 90-53, Bridge Survey—50 responses at 30 minutes per response for an estimated total of 25 burden hours.

(5) Applicant's Checklist to Prepare for Damage Survey Inspections—An estimated total burden of 80 hours for local representatives to gather required information contained in FEMA 286, Public Assistance Guide.

Affected Public: Not-for-profit institutions, State, Local or Tribal Governments.

Estimated Total Annual Burden Hours. 6,155.

Estimated Cost. \$210,000.

COMMENTS: Written comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

ADDRESSES: Interested persons should submit written comments to the Office of Management and Budget, Office of Information and Regulatory Affairs, ATTN: Ms. Victoria Wassmer, FEMA Desk Officer, Room 10202, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Contact Dick Buck at (202) 646-4535 for additional information. Contact Ms. Muriel B. Anderson at (202) 646-2625 for copies of the proposed collection of information.

Dated: January 21, 1997.

Reginald Trujillo,

Director, Program Services Division,
Operations Support Directorate.
