#### **Los Angeles, California and New York, New York; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance**

#### Parker Abex NWL Aerospace Kalamazoo, Michigan; Notice of Revised Determination on Reconsideration

On July 24, 1997, the Department issued an Affirmative Determination Regarding Application for Reconsideration for the workers and former workers of the subject firm. The

notice will soon be published in the **Federal Register**.

The workers at Parker Abex NWL Aerospace in Kalamazoo, Michigan produced flight control systems including hydraulic actuators, flight controls, and hydraulic pumps. The worker petition for TAA was initially denied because the "contributed importantly" test of the Group Eligibility Requirements of Section 222 of the Trade Act of 1974, as amended, was not met. The layoffs were attributable to the transfer of production from Kalamazoo, Michigan to other plants located domestically.

The petitioner presented information regarding import impact that had not been considered in the initial determination.

On reconsideration the Department surveyed the major declining customers of the subject firm. The survey results revealed that customers increased import purchases of flight control systems from 1995 to 1996.

#### Conclusion

After careful consideration of the new facts obtained on reconsideration, it is concluded that the workers of Parker Abex, NWL Aerospace, Kalamazoo, Michigan were adversely affected by increased imports of articles like or directly competitive with transformers produced at the subject firm.

"All workers of Parker Abex NWL Aerospace, Kalamazoo, Michigan, engaged in employment related to the production of flight control systems, who became totally or partially separated from employment on or after February 1, 1996 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974."

Signed at Washington, DC, this 22nd day of August 1997.
