Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared August 4, 1997 through August 8, 1997 pursuant to the Environmental Review Process (ERP), under Section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 564-7167.

An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 04, 1997 (62 FR 16154).

Draft EISs

ERP No. D-FHW-G40145-00 Rating LO, US 71 Highway Improvement Project, between Texarkana, (US71) Arkansas and DeQueen, Funding, Right-of-Way Approval and COE Section 404 Permit, Little River, Miller and Sevier Counties, AR and Bowie County, TX.

Summary: EPA had no objections to the conceptual relocation project. For the most part, EPA finds the DEIS to be comprehensive, thorough, and to adequately address the impacts associated with the alternative considered. The preferred action must be identified with appropriate mitigation in the Final Statement.

ERP No. D-FTA-K40223-CA Rating LO, Mission Valley East Corridor Transit Improvement Project, between I-15 in Mission Valley and the East County community of La Mesa, Funding, COE Section 404 Permit, Metropolitan Transit Development Board (MTDB) and Light Rail Transit (LRT), San Diego County, CA.

Summary: EPA lacked objections to the FTA's proposed Mission Valley East Transit Improvement project.

Final EISs

ERP No. F-FHW-E40345-NC, NC-16, Upgrading and Relocating Project, Construction, Lucia to North of NC-150, Funding, COE Section 404 Permit and NPDES Permit, Gaston, Lincoln and Catawba Counties, NC.

Summary: EPA generally concurred with the corridor selected, but continues to question providing greater highway capacity in a water supply watershed.

ERP No. F-FHW-G40140-TX, Grand Parkway Segment (TX-99) Improvements Project, from TX-225 to I-10, Funding, COE Section 404 Permit and Right-of-Way Grant, Harris and Chambers Counties, TX.

Summary: the Final EIS has adequately responded to EPA's comments offered on the DEIS and therefore EPA has no objection to the selection of the preferred alternative as now described in the Final EIS.

Dated: September 2, 1997.

Privacy Act of 1974; Republication of Existing Systems of Records

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of republication of existing systems of records.

SUMMARY: Under the Privacy Act of 1974, as amended, 5 U.S.C. 552a, EPA previously published notices for two systems of records maintained by EPA's Office of Inspector General (OIG): the

EPA-4 system of records called "OIG Criminal Investigative Index and Files—EPA/OIG" and the EPA-5 system of records called "OIG Personnel Security Files—EPA/OIG." The most recent notice for these systems of records was published in the **Federal Register** at 58 FR 29821 (May 24, 1993). Under 5 U.S.C. 552a(e)(4), EPA is revising the EPA-4 system notice to add three new routine uses and to update information about the categories of individuals covered by the system, the categories of records in the system, the authority for maintenance of the system, the way records are retrieved from the system, the record source categories, the system location, and the system manager's address. EPA is revising the EPA-5 system notice to add one new routine use and to update information about the categories of records in the system, the authority for maintenance of the system, the system location, and the system manager's address.

DATES: This notice will be effective without further notice on October 15, 1997, unless EPA receives written comments that would result in a contrary determination.

ADDRESSES: Interested persons may submit written comments to John C. Jones, Assistant Inspector General for Management, Office of Inspector General (2441), Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: John C. Jones, (202) 260-4912.

SUPPLEMENTARY INFORMATION: For the EPA-4 system of records, EPA is revising the notice to add three new routine uses: Routine use "u" allows the disclosure of records to officers and employees of other Federal agencies for the purpose of conducting quality assessments of the investigative operations of the OIG; routine use "v" allows the disclosure of records to the public when the matter has become public knowledge, or when the Inspector General determines that such disclosure is necessary to preserve confidence in the integrity of the OIG investigative process or is necessary to demonstrate the accountability of EPA officers, employees, or individuals covered by this system, unless it is determined that disclosure of the specific information in the context of a particular case would constitute an unwarranted invasion of personal privacy; and routine use "w" allows the disclosure of records to the news media and public when there exists a legitimate public interest (e.g., to provide information on events in the criminal process, such as indictments),
