

company from a previous review or the original LTFV investigation to calculate constructed values for those models for which incomplete or no factors of production data was reported.

We have also used partial facts available to calculate the packing materials cost for one other model for which no packing factors of production data was submitted. As facts available, we are using the highest packing materials cost, excluding set costs, for an individual piece of cooking ware from the information submitted by Clover/Lucky. *See Notice of Final Results of Antidumping Duty Administrative Review: Welded Carbon Steel Pipe from Turkey* (61 FR 69067, 69073; December 31, 1996).

#### Currency Conversion

We made currency conversions pursuant to section 773A(a) of the Act and section 353.60(a) of the Department's regulations. Currency conversions were made at rates certified by the Federal Reserve Bank.

#### Preliminary Results of the Review

As a result of our review, we preliminarily determine that the following dumping margins exist for the period December 1, 1994 through November 30, 1995:

Manufacturer/Exporter	Margin (percent)
Clover Enamelware Enterprise/ Lucky Enamelware Factory ...	1.32
PRC-Wide Rate .....	66.65

The PRC-wide rate applies to all entries of subject merchandise except for entries from manufacturers and exporters that are individually identified above. The Department implements a policy in NME cases whereby all exporters or producers are presumed to comprise a single entity, the "NME entity." The U.S. Court of International Trade has upheld our NME policy in previous cases. *See, e.g., UCF America, Inc. v. United States*, 870 F. Supp. 1120, 1126 (CIT 1994); *Sigma Corp. v. United States*, 841 F. Supp. 1255, 1266-67 (CIT 1993), and; *Tianjin Machinery Import & Export Corp. v. United States*, 806 F. Supp. 1008, 1013-15 (CIT 1992). Thus, we assign the NME rate to the NME entity just as we assign an individual rate to a single exporter or producer operating in a market economy. As a result, all exporters and producers that are part of the NME entity are assigned the "NME-wide" rate. Because the "NME-wide" rate is the equivalent of a company-specific rate, it changes only when we review the NME entity (*i.e.*, all NME producers

and exporters that have not qualified for a separate rate). To qualify for a separate rate, as discussed under the *Separate Rates* section of this notice, an NME exporter or producer must provide evidence showing both *de jure* and *de facto* absence of government control over export activities. Until such evidence is presented, a company is presumed to be part of the NME entity and receives the "NME-wide" rate. All exporters or producers will either qualify for separate company-specific rate, or be part of the NME enterprise, and receive the "NME-wide" rate. Thus, there can be no exporters or producers who have never been investigated or reviewed. In this review, Clover/Lucky qualifies for a separate rate as discussed in the "Separate Rates" section of this notice. The PRC-wide rate has not changed from the last administrative review because no company representing the single entity was reviewed.

Parties to the proceeding may request disclosure within 5 days of the date of publication of this notice in accordance with 19 CFR 353.22(c)(6). Any interested party may request a hearing within 10 days of publication in accordance with 19 CFR 353.38(b). Any hearing, if requested, will be held 44 days after the publication of this notice, or the first workday thereafter. Interested parties may submit case briefs within 30 days of the date of publication of this notice in accordance with 19 CFR 353.38(c). In accordance with 19 CFR 353.38(d), rebuttal briefs, which must be limited to issues raised in the case briefs, may be filed not later than 37 days after the date of publication. Parties who submit case briefs or rebuttal briefs in this proceeding are requested to submit with each argument (1) a statement of the issue and (2) a brief summary of the argument. The Department will publish a notice of final results of this administrative review, which will include the results of its analysis of issues raised in any such comments.

The Department shall determine, and the U.S. Customs Service shall assess, antidumping duties on all appropriate entries. Individual differences between export price and NV may vary from the percentages stated above. The Department will issue appraisement instructions directly to the U.S. Customs Service.

Furthermore, the following deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of POS cooking ware from the PRC entered, or withdrawn from warehouse, for consumption on or after the

publication date, as provided for by section 751(a)(2)(C) of the Act: (1) for Clover/Lucky, which has a separate rate, the cash deposit rate will be the company-specific rate established in the final results of this administrative review; (2) for all other PRC exporters, the cash deposit rate will be the PRC-wide rate established in the final results of this administrative review; and (3) the cash deposit rates for non-PRC exporters of subject merchandise from the PRC will be the rates applicable to the PRC supplier of that exporter. We preliminarily determine that the PRC-wide rate continues to be 66.65 percent because no company representing the single entity was reviewed. This is the highest rate found for any respondent in the LTFV investigation or any review. These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

#### Notification of Interested Parties

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 353.26 of the Department's regulations to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and notice are in accordance with section 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22 of the Department's regulations.
