FEDERAL TRADE COMMISSION**Cigarette Testing; Extension of Deadline for Submission of Public Comments**

AGENCY: Federal Trade Commission.

ACTION: Extension of deadline for submission of comments on proposed revisions to the Federal Trade Commission methodology for determining tar, nicotine, and carbon monoxide yields of cigarettes, and on a proposed format for disclosing the resulting ratings in advertising.

SUMMARY: The Federal Trade Commission ("FTC" or "Commission") is extending until January 20, 1998 the deadline for filing comments on its proposed revisions to the testing method used to determine the tar, nicotine, and carbon monoxide ratings of cigarettes, and on two possible formats for disclosure of those test results.

FOR FURTHER INFORMATION CONTACT: Shira D. Modell, Division of Advertising Practices, Federal Trade Commission, Sixth Street and Pennsylvania Avenue, N.W., Washington, D.C. 20580, (202) 326-3116.

SUPPLEMENTARY INFORMATION: On September 9, 1997, the Commission

issued a notice proposing changes to the methodology currently used to determine cigarette ratings for tar, nicotine, and carbon monoxide. See 62 FR 48,158 (Sept. 12, 1997). The proposed methodology would produce tar, nicotine, and carbon monoxide yields using both the current testing parameters and more intensive smoking conditions, thus producing a range of potential yields for each cigarette. The Commission requested comment on those proposed changes to the testing methodology, and on the feasibility of generating the upper tier of tar, nicotine, and carbon monoxide ratings through mathematical formulas, rather than actual testing on a smoking machine. The Commission also placed on the public record two different legends that could be used in advertising to disclose the ratings and sought comment on the usefulness and feasibility of these potential disclosure formats. Finally, comment was requested on alternative approaches that were considered but not proposed by the Commission. The deadline for submission of the requested comments was November 17, 1997.

The Commission has received requests for extension of this deadline from the Food and Drug Administration, the four largest cigarette manufacturers (Brown & Williamson Tobacco Corporation, Lorillard Tobacco Company, Philip Morris Incorporated and R.J. Reynolds Tobacco Company), the American Lung Association, the Commonwealth of Massachusetts and the American Society of Addiction Medicine.

In light of the importance and complexity of the issues addressed by

the Commission's **Federal Register** notice, and the number of issues on which comment is being requested, the Commission has decided to extend the filing deadline until January 20, 1998.

By direction of the Commission.

Donald S. Clark,
Secretary.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 93N-0195]

Agency Information Collection Activities; Submission for OMB Review; Comment Request

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that the proposed collection of information listed below has been submitted to the Office of Management and Budget (OMB) for review and clearance under the Paperwork Reduction Act of 1995 (the PRA).

DATES: Submit written comments on the collection of information by December 1, 1997.

ADDRESSES: Submit written comments on the collection of information to Office of Information and Regulatory Affairs, OMB, New Executive Office Bldg., 725 17th St. NW., rm. 10235, Washington, DC 20503, Attention: Desk Officer for FDA.

FOR FURTHER INFORMATION CONTACT: Margaret R. Wolff, Office of Information Resources Management (HFA-250), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-827-1223.

SUPPLEMENTARY INFORMATION: In compliance with section 3507 of the PRA (44 U.S.C. 3507), FDA has submitted the following proposed collection of information to OMB for review and clearance.

In a final rule entitled "Procedures for the Safe Processing and Importing of Fish and Fishery Products" (60 FR 65096, December 18, 1995), FDA issued regulations in part 123 (21 CFR part 123) mandating the application of Hazard Analysis and Critical Control Point (HACCP) principles to the processing of seafood. HACCP is a preventive system of hazard control designed to help ensure the safety of foods.

The regulations were issued under FDA's statutory authority to regulate food safety, including section 402(a)(1) and (a)(4) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 342(a)(1) and (a)(4)), and will become effective on December 18, 1997.

Certain provisions in the regulations require that processors and importers of seafood collect and record information. In the final rule (60 FR 65096 at 65177 and 65178), the agency requested comments on the information collection provisions of the new regulations. No comments were received in response to this request.

FDA estimates the burden of this collection of information as follows:
