

Federal Register notice triggers the 0.10 g/bhp-hr standard for engines rated above 294 hp. This means that urban bus operators using compliance program 1 must use equipment certified to the 0.10 g/bhp-hr standard when rebuilding or replacing applicable engines above 294 hp after May 6, 1998.

Urban bus engines certified to meet California emissions standards are not applicable to the CCT™ kit discussed in today's **Federal Register** notice. Additionally, the 0.10 g/bhp-hr PM standard is not triggered for engines certified to meet California emission standards. Operators of such urban buses, who choose to comply with program 1, are not required to use equipment certified to the 0.10 g/bhp-hr PM standard until the standard has been triggered for such engines. Operators of urban buses having engines certified to meet California emission standards, and who choose to comply with program 2, may not use the CCT™ kit described in today's notice to meet program requirements.

As stated in the program regulations (40 CFR 85.1401 through 85.1415), operators must, beginning January 1, 1995, maintain records for each engine in their fleet to demonstrate that they are in compliance with the requirements of the Urban Bus Retrofit/Rebuild Program. These records include purchase records, receipts, and part numbers for the parts and components used in the rebuilding of urban bus engines. Urban bus operators using the supply option 2, as described previously in today's **Federal Register** notice, must be aware of their responsibility for maintenance of records pursuant to 40 CFR Sections 85.1403 through 85.1404, because they do not purchase the complete CCT™ kit from JMI. Urban bus operators using supply option 2 must be able demonstrate that all parts used in the rebuilding of engines are in compliance with program requirements. In other words, such urban bus operators must be able to demonstrate that all components of the kit certified in today's **Federal Register** notice are installed on applicable engines.

Dated: October 29, 1997.

Richard D. Wilson,

Acting Assistant Administrator for Air and Radiation.

Underground Injection Control Program; Hazardous Waste Injection Restrictions; Petition for Exemption—Class I Hazardous Waste Injection; CECOS International, Inc. (CECOS)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final decision on petition modification.

SUMMARY: Notice is hereby given that modification is hereby given that modification of an exemption to the land disposal restrictions under the 1984 Hazardous and Solid Waste Amendments to the Resource Conservation and Recovery Act has been granted to CECOS, for the Class I injection well located at Sulphur, Louisiana. As required by 40 CFR part 148, the company has adequately demonstrated to the satisfaction of the Environmental Protection Agency by petition and supporting documentation that, to a reasonable degree of certainty, there will be no migration of hazardous constituents from the injection zone for as long as the waste remains hazardous. This final decision allows the underground injection by CECOS, of the specific restricted hazardous waste identified in the exemption modification, into the Class I hazardous waste injection well at the Sulphur, Louisiana facility specifically identified in the modified exemption, for as long as the basis for granting an approval of this exemption remains valid, under provisions of 40 CFR 148.24. As required by 40 CFR 124.10, a public document was issued July 31, 1997, and closed on September 15, 1997. No comments were received. This decision constitutes final Agency action and there is no Administrative appeal. **DATES:** This action is effective as of October 28, 1997.

ADDRESSES: Copies of the modified petition and all pertinent information relating thereto are on file at the following location: Environmental Protection Agency, Region 6, Water Quality Protection Division, Source Water Protection Branch (6WQ-S), 1445 Ross Avenue, Dallas, Texas 75202-2733.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection Being Reviewed by the Federal Communications Commission for Extension Under Delegated Authority 5 CFR 1320 Authority; Comments Requested

October 30, 1997.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden, invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Persons wishing to comment on this information collection should submit comments January 5, 1998.

ADDRESSES: Direct all comments to Jerry Cowden, Federal Communications Commission, Room 240-B, 2000 M St., N.W., Washington, DC 20554, or via internet to jcowden@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection contact Jerry Cowden at 202-418-0447 or via internet at jcowden@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Approval Number: 3060-0308.
Title: Section 90.505 Developmental operation, showing required.

Form No.: N/A.

Type of Review: Extension of existing collection.

Respondents: Businesses or other for-profit, state, local or tribal government, not-for-profit institutions.

Number of Respondents: 100.

Estimated Time Per Response: 2 hours.

Total Annual Burden: 200 hours.

Needs and Uses: The information collection requirement contained in Section 90.505 is needed to gather data on developmental programs for which a developmental authorization is sought. The information is used to evaluate the desirability of issuing such an authorization from spectrum use and interference potential considerations. If the information was not collected the value of developmental programs would be severely limited.

Federal Communications Commission.

William F. Caton,

Acting Secretary.
