BILLING CODE 4210–29–M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Receipt of Applications for Permit

The following applicants have applied for a permit to conduct certain activities with endangered species. This notice is provided pursuant to Section 10(c) of the Endangered Species Act of 1973, *as amended* (16 U.S.C. 1531, *et seq.*):

PRT–836274

Applicant: Lance K. Parks, Billings, MT.

The applicant requests a permit to import the sport-hunted trophy of one male bontebok (*Damaliscus pygargus dorcas*) culled from a captive herd maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

PRT–833085

Applicant: Wayne Clark, Aurora, CO.

The applicant requests a permit to import the sport-hunted trophy of one male bontebok (*Damaliscus pygargus dorcas*) culled from a captive herd

maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

Written data or comments should be submitted to the Director, U.S. Fish and Wildlife Service, Office of Management Authority, 4401 North Fairfax Drive, Room 700, Arlington, Virginia 22203 and must be received by the Director within 30 days of the date of this publication.

The public is invited to comment on the following application for permits to conduct certain activities with marine mammals. The application was submitted to satisfy requirements of the Marine Mammal Protection Act of 1972, *as amended* (16 U.S.C. 1361 *et seq.*) and the regulations governing marine mammals (50 CFR 18).

PRT–836264

Applicant: Richard N. Biewer, St. Clair, MI.

The applicant requests a permit to import a polar bear (*Ursus maritimus*) sport-hunted from the Lancaster Sound polar bear population, Northwest Territories, Canada for personal use.

PRT 835829

Applicant: Curtis H. Springer, Urbana, OH.

The applicant requests a permit to import a polar bear (*Ursus maritimus*) sport-hunted from the South Beaufort Sea polar bear population, Northwest Territories, Canada for personal use.

PRT–836256

Applicant: Charles Chappell, Gibsonia.

The applicant requests a permit to import a polar bear (*Ursus maritimus*) sport-hunted from the Lancaster Sound polar bear population, Northwest Territories, Canada for personal use.

PRT–836255

Applicant: Robert Chappell, Oley, PA.

The applicant requests a permit to import a polar bear (*Ursus maritimus*) sport-hunted from the Lancaster Sound polar bear population, Northwest Territories, Canada for personal use.

Documents and other information submitted with these applications are available for review, *subject to the requirements of the Privacy Act and Freedom of Information Act*, by any party who submits a written request for a copy of such documents to the following office within 30 days of the date of publication of this notice: U.S. Fish and Wildlife Service, Office of Management Authority, 4401 North Fairfax Drive, Room 700, Arlington, Virginia 22203. Phone: (703/358–2104); FAX: (703/358–2281).

Dated: November 7, 1997.

Mary Ellen Amtower,

Acting Chief, Branch of Permits, Office of Management Authority.

BILLING CODE 4310-55-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Receipt of an Application From the County of San Diego, California, for an Incidental Take Permit

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: The County of San Diego, California (County), has applied to the Fish and Wildlife Service for a 50-year permit pursuant to section 10(a)(1)(B) of the Endangered Species Act (Act) to incidentally take up to 85 species. Take would occur in conjunction with urban growth within the southern coastal portion of the County. The application includes the County of San Diego Subarea Plan (Subarea Plan) and an Implementing Agreement, both of which were prepared in accordance with the regional Multiple Species Conservation Program (MSCP). The Subarea Plan would provide for the incidental take of species listed under the Act and those that may be listed in the future. The County's planning area includes approximately 252,132 acres of unincorporated land. The Subarea Plan addresses 85 sensitive plant and animal species and their habitats, and creates a process for the issuance of permits and other authorizations under the Federal and California Endangered Species Acts, and the California Natural Community Conservation Planning Act. The County's Subarea Plan and Implementing Agreement are available for public review and comment. The Service specifically requests comment on the appropriateness of the "No Surprises" assurances contained in section 9 of the Implementing Agreement.

DATES: Written comments on the permit application should be received on or before December 15, 1997.

ADDRESSES: Comments should be addressed to Mr. Gail Kobetich, Field Supervisor, Carlsbad Fish and Wildlife Office, 2730 Loker Avenue West, Carlsbad, California 92008. Written comments may be sent by facsimile to (760) 431-9618.

FOR FURTHER INFORMATION CONTACT: Ms. Sherry Barrett, Assistant Field

Supervisor, at the above Carlsbad address; telephone (760) 431-9440.

SUPPLEMENTARY INFORMATION:

Availability of Documents

Persons wishing to obtain copies of the documents or additional background material should contact the County of San Diego, Department of Planning and Land Use, 5201 Ruffin Road, Suite B, Mail Station 0650, San Diego, California 92123; telephone (619) 260-8316. Documents will be available for public inspection, by appointment, during normal business hours (8 a.m. to 12 p.m. and 1 p.m. to 5 p.m.), Monday through Friday, at the above County office and at the Carlsbad Fish and Wildlife Office (see **ADDRESSES**).

Background

Under section 9 of the Act and its implementing regulations, the take of wildlife species listed as threatened or endangered is prohibited. The term "take" means to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, collect, or attempting to engage in any such conduct. Harm is further defined to include significant habitat modification or degradation that results in death or injury to listed species by significantly impairing essential behavior patterns, including breeding, feeding, or sheltering. Under limited circumstances, the Service may issue permits to take listed wildlife if such taking is incidental to, and not the purpose of, otherwise lawful activities. The taking prohibitions of the Act do not apply to listed plants on private lands unless such take is in violation of trespass law or would violate State law. Regulations governing permits for endangered and threatened species are in 50 CFR 17.22 and 17.32. Under section 10(a)(1)(B) of the Act, the Service may issue incidental take permits for listed species with an approved conservation plan. Among other criteria, issuance of such permits must not jeopardize the continued existence of listed plant and animal species.

The MSCP Plan is a regional habitat conservation plan that includes 12 local jurisdictions. Each jurisdiction is expected to apply for incidental take permits in conjunction with finalization of a subarea plan that is consistent with the regional MSCP Plan. The cities of San Diego and Poway finalized their subarea plans and received take authorizations under the MSCP on July 18, 1997, and July 19, 1996, respectively. The City of La Mesa has submitted an application, subarea plan, environmental assessment, and

implementing agreement for which a 30-day public review period was announced in the **Federal Register** on October 31, 1997 (62 FR 58976). The County of San Diego submitted an application with its Subarea Plan and Implementing Agreement on November 6, 1997.

The regional MSCP Plan covers an approximately 900-square-mile area (580,000 acres) in southwestern San Diego County. Under the MSCP Plan, approximately 171,917 acres of vacant land, including 167,667 acres of wildlife habitat, will be preserved and managed within a designated area referred to as the Multiple Habitat Planning Area.

Nearly half of the MSCP planning area is within the County of San Diego Subarea. Approximately 73 percent (184,248 acres) of the County Subarea provides habitat for native plants and wildlife, whereas the remaining 27 percent is disturbed, developed, or agricultural land. Of the existing habitat in the County Subarea, approximately 55 percent (101,268 acres) is expected to be preserved under the Subarea Plan, in a manner consistent with the regional MSCP Plan.

The Subarea Plan is divided into three segments: the Lake Hodges segment, the Southern segment, and the Metro-Lakeside-Jamul segment. The Lake Hodges and Southern segments include projects where development and preserve boundaries have been determined and delineated in the Subarea Plan. Several major and minor amendment areas have been designated in these segments. Take for species within these amendment areas would only be authorized after they have become part of the Subarea Plan through the appropriate amendment process. The Metro-Lakeside-Jamul segment is composed of lands where preserve boundaries will be determined in the future based upon standards, goals, and criteria described in the Subarea Plan and in the County's Biological Mitigation Ordinance.

Environmental Documentation

To ensure compliance with the National Environmental Policy Act and the California Environmental Policy Act, in January, 1997, the Service (lead Federal Agency) and the City of San Diego (lead local agency) completed a final Environmental Impact Report/Statement on the MSCP Plan and draft subarea plans. This culminated a 2-year period during which the Service complied with scoping and public notice requirements, providing extensive opportunity for public comment on the MSCP Plan, draft subarea plans, template implementing
