### Health Resources and Services Administration

#### Proposed Special Factors for Grants for Residency Training and Advanced Education in the General Practice of Dentistry Programs for Fiscal Year 1998

Grants for Residency Training and Advanced Education in the General Practice of Dentistry Programs are authorized under section 749, title VII of the Public Health Service Act, as amended by the Health Professions Education Extension Amendments of 1992, Pub. L. 102-408, dated October 13, 1992.

#### Proposed Special Factors

The following Special Factors are proposed:

##### *Special Factors*

In determining the funding of approved applications, the Secretary will consider the following Special Factors:

**Community linkages**—This special factor may be addressed by the establishment of academic-community linkages, in particular linkages between the training program and underserved populations or communities. Documentation of such linkages should include verification that at least 20% of residents' training time occurs in one or more underserved settings. Memoranda of agreement and letters of support from the community settings involved should be included in the appropriate appendix of the application.

**Establishment of new PGY-1 training positions**—To address the recommendations of expert panels such as the Institute of Medicine and Pew Commission on Health that a year of post-doctoral training be available for all dental graduates, and that the majority of these positions be in general dentistry programs, this special factor may be addressed by the establishment of new postgraduate year-one (PGY-1) training positions, either through the establishment of a new program or the expansion of an existing program. An increase in the number of PGY-2

positions does not address the intent of this special factor.

**Innovative training methods**—Examples of ways in which applicants address this special factor might include new sponsor/co-sponsor arrangements; different organizational and administrative structures; expanded private/public sector affiliations and setting linkages; and creative applications for current instructional telecommunications and computer technologies.

Peer reviewers will take into consideration the extent to which proposals address these Special Factors and adjust their individual technical review scores accordingly.

An announcement will be made in the *HRSA Preview* for grant programs which will conduct competitive cycles in FY 1998.

The comment period is 30 days. All comments received on or before December 24, 1997 will be considered before the final review criteria are established. Written comments should be addressed to: Bernice Parlak, Division of Associated, Dental and Public Health Professions, Bureau of Health Professions, Health Resources and Services Administration, Parklawn Building, Room 8-101, 5600 Fishers Lane, Rockville, Maryland 20857. Telephone: (301) 443-6853; FAX: (301) 443-1164.

All comments received will be available for public inspection and copying at the Division of Associated, Dental and Public Health Professions, at the above address, weekdays (Federal holidays excepted) between the hours of 8:30 a.m. and 5:00 p.m.

Dated: November 14, 1997.
