SUPPLEMENTARY INFORMATION: The EPA promulgated standards of performance for new MSW landfills and emission guidelines for existing MSW landfills on March 12, 1996. These standards of performance and emission guidelines, which were developed under section 111 of the Clean Air Act (CAA), regulate emissions of nonmethane organic compounds from MSW landfills. Section 111(d) of the CAA requires States to submit a Plan to the EPA that addresses how States will regulate, implement and enforce standards of performance on existing MSW landfills. This requirement is codified under 40 CFR 60.23.

However, the EPA Administrator is allowed to extend the period for submission of a section 111(d) Plan under 40 CFR 60.27 whenever he or she determines it is necessary. Alaska, Idaho, Illinois, Kentucky, New York, North Carolina, South Carolina, Tennessee, Texas and Washington have all shown good faith in developing and committing to submit their Plans by the dates specified in this notice. Based on EPA's analysis of the State requests, the following extensions are granted: Alaska, Idaho and Tennessee are granted extensions to December 31, 1997; South Carolina is granted an extension to January 15, 1998; Kentucky is granted an extension to February 15, 1998; Washington is granted an extension to May 31, 1998; North Carolina is granted an extension to July 1, 1998; New York is granted an extension to July 5, 1998 and Illinois and Texas are granted extensions to July 31, 1998. The memorandum, Reasons for Extending Municipal Solid Waste Landfill Section 111(d) Plan Submittal, mentioned previously, documents their efforts and explains why EPA is granting an extension for the section 111(d) Plan submittals to these State air pollution agencies.
