

Certification of Eligibility to Apply for NAFTA Transitional Adjustment Assistance on August 7, 1997, applicable to workers of Levi Strauss and Company, located in El Paso, Texas. The notice was published in the **Federal Register** on September 17, 1997 (62 FR 48889). The certification was subsequently amended to include the subject firm workers at the El Paso Field Headquarters in El Paso, Texas. The amendment was issued on September 14, 1997 and published in the **Federal Register** on September 30, 1997 (62 FR 51161).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. New information received by the State shows that worker separations have occurred at the San Benito, Texas plant of Levi Strauss and Company. The workers in San Benito are engaged in employment related to the production of men's, women's and youth's denim jeans and jackets. Based on this new information, the Department is amending the certification to cover the subject firms' workers at the San Benito, Texas plant.

The intent of the Department's certification is to include all workers of Levi Strauss and Company who were adversely affected by increased imports from Mexico of men's, women's and youth's denim jeans and jackets.

The amended notice applicable to NAFTA-01807 is hereby issued as follows:

All workers of Levi Strauss and Company, Goodyear Cutting Facility and El Paso Field Headquarters, El Paso, Texas (NAFTA-01807) and San Benito, Texas (NAFTA-01807X) who were engaged in employment related to the production of men's, women's and youth's denim jeans and jackets who became totally or partially separated from employment on or after July 9, 1996 are eligible to apply for NAFTA-TAA under Section 250 of the Trade Act of 1974.

Signed in Washington, D.C. this 10th day of November 1997.

**Grant D. Beale,**

*Acting Director, Office of Trade Adjustment Assistance.*

## INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO

### Availability of Final Environmental Assessment and Finding of No Significant Impact

**AGENCIES:** United States Environmental Protection Agency (USEPA) and the United States Section, International

Boundary and Water Commission, United States and Mexico (USIBWC)

**ACTION:** Notice of availability of final environmental assessment and finding of no significant impact.

**SUMMARY:** Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Final Regulations (40 CFR parts 1500 through 1508); and the United States Section's Operational Procedures for Implementing Section 102 of NEPA, published in the **Federal Register** September 2, 1981 (46 FR 44083); the United States Environmental Protection Agency and the United States Section hereby gives notice that the Final Environmental Assessment (EA) and Final Finding of No Significant Impact (FONSI) for the Mexicali Wastewater Collection and Treatment Project are available. Copies of the draft EA and draft FONSI were made available at the main Public Libraries in the cities of Calexico, El Centro, Holtville and Brawley located in Imperial County, California on September 29, 1997 for a 30-day review period before making the finding final. The information was also made available on the Internet (USIBWC homepage).

**ADDRESSES:** Carlos Peña Jr., Facilities Planning Border Coordinator; United States Section, International Boundary and Water Commission, United States and Mexico, 4171 North Mesa Street, C-310, El Paso, Texas 79902. Telephone: 915/534-6605.

**SUPPLEMENTARY INFORMATION:** In accordance with National Environmental Policy Act (NEPA) requirements, the United States Environmental Protection Agency (EPA) and the United States Section of the International Boundary and Water Commission (USIBWC) completed an environmental review of the impacts of the Mexicali Wastewater Collection and Treatment Project proposed by the Comisión Estatal de Servicios Públicos de Mexicali (CESPM). The FONSI was based on the analyses presented in the Environmental Assessment for Mexicali Wastewater Collection and Treatment Project. The proposed action consists of several projects designed to improve the water quality discharge from the Mexicali treatment system and water quality in the New River. The NEPA review was required because of the issuance funds for the project.

In accordance with the guidelines for determining the significance of proposed federal actions (40 CFR 1508.27) and Border Environment Cooperation Commission (BECC)

Criteria for initiating an environmental assessment, the EPA and USIBWC concluded that the proposed action will not result in a significant effect on the environment. The proposal will not significantly affect land use patterns or population, wetlands or floodplains, threatened or endangered species, farmlands, ecologically critical areas, cultural or historic resources, traffic, visual, geological resources, public health and safety, socioeconomic conditions, energy demand, air quality, water quality, noise levels, fish and wildlife resources, nor will it conflict with local or state land use plans or policies. The proposal conforms with all applicable federal statutes and executive orders.

The CESPM submitted to the BECC an Environmental Assessment (Manifestacion de Impacto Ambiental Modalidad General del Proyecto Saneamiento del Rio Nuevo en la C.D. de Mexicali, Baja California) that disclosed the impacts in Mexico from this project. It was determined that there were no significant impacts.

The USEPA and USIBWC determined that the proposed action would not significantly impact the environment of the United States and that the preparation of an Environmental Impact Statement (EIS) is not required.

### Availability

Copies of the Final Act and Final FONSI have been distributed to Federal, State, and local agencies, organizations and individuals that have commented on or have consulted and coordinated in the preparation of the EA. A limited number of copies are available to fill single copy requests at the above address.

Dated: December 3, 1997.

**John Bernal,**

*Commissioner, IBWC U.S. Section.*

## NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

### Public Meetings With Interested Vendors for Ordering Reproductions of Still Photographs, Aerial Film, Maps, and Drawings

**AGENCY:** National Archives and Records Administration, NARA

**ACTION:** Notice of meetings.

**SUMMARY:** NARA will hold meetings with interested vendors to discuss the terms of the fourth year of privatization of reproduction services for still pictures, aerial film, maps, and

drawings in NARA holdings in College Park, MD, and to distribute copies of the Memorandum of Agreement which must be completed for participation in the program. Under this privatization program, NARA has permitted vendors to set up work stations in its building located in College Park, MD, where the still photographs and cartographic and architectural records of three NARA archival units are housed and made available. The three NARA units refer customer requests for reproduction of these media to the vendors, who determine fees, collect payments, perform the copying work, and mail the reproductions to the customers. Based on a satisfactory review of the program's overall performance, NARA has decided to extend the program for another year, though with some modifications.

Effective March 6, 1998, the next anniversary date, NARA will open the program to interested vendors for a fourth year. All vendors interested in this program, including vendors already participating, are invited to attend a meeting on January 7, 1998, where copies of a Memorandum of Agreement specifying the terms of the program will be distributed. A follow-up meeting has been scheduled for February 4, 1998, to answer any remaining questions from vendors. Attendance at the meetings does not require reservations. Attendance is encouraged, but not required, to participate in the program.

**DATES:** The initial meeting will be held on Wednesday, January 7, 1998, at 10 a.m. Copies of the Memorandum of Agreement also will be available beginning January 7, 1998, by contacting William T. Murphy (see **FOR FURTHER INFORMATION CONTACT**).

The follow-up meeting will be held on Wednesday, February 4, 1998, at 10 a.m.

Signed copies of the Memorandum of Agreement must be received by NARA by February 28, 1998.

**ADDRESSES:** The meetings will be held at the National Archives at College Park, in lecture room A, located at 8601 Adelphi Road, College Park, MD.

**FOR FURTHER INFORMATION CONTACT:** William T. Murphy, Nontextual Archives Division, 301-713-7083; fax 301-713-6904.

Dated: December 3, 1997.

## NUCLEAR REGULATORY COMMISSION

### Agency Information Collection Activities: Proposed Collection; Comment Request

**AGENCY:** U.S. Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

**SUMMARY:** The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

#### Information pertaining to the requirement to be submitted:

1. The title of the information collection: State Agreements Program, as authorized by Section 274(b) of the Atomic Energy Act.
  2. Current OMB approval number: 3150-0029.
  3. How often the collection is required: One time or as needed.
  4. Who is required or asked to report? Thirty Agreement States who have signed Section 274(b) agreements with NRC.
  5. The number of annual respondents: 30.
  6. The number of hours needed annually to complete the requirement or request: 570 (approximately six hours per response).
  7. Abstract: Agreement States are surveyed on a one-time or as-needed basis, e.g., to respond to a specific incident, to gather information on licensing and inspection practices and other technical and statistical information. The results of such information requests, which are authorized under Section 274(b) of the Atomic Energy Act, are utilized in part by NRC in preparing responses to Congressional inquiries. Agreement State comments are also solicited in the areas of proposed procedure and policy development.
- Submit, by February 9, 1998, comments that address the following questions:
1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
  2. Is the burden estimate accurate?
  3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
  4. How can the burden of the information collection be minimized,

including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, 2120 L Street, NW (lower level), Washington, DC. OMB clearance requests are available at the NRC worldwide web site (<http://www.nrc.gov>) under the FedWorld collection link on the home page tool bar. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions about the information collection requirements may be directed to the NRC Clearance Officer, Brenda Jo. Shelton, U.S. Nuclear Regulatory Commission, T-6 F33, Washington, DC 20555-0001, or by telephone at 301-415-7233, or by Internet electronic mail at [BJS1@NRC.GOV](mailto:BJS1@NRC.GOV).

Dated at Rockville, Maryland, this 4th day of December, 1997.

For the Nuclear Regulatory Commission.

**Brenda Jo. Shelton,**

*NRC Clearance Officer, Office of the Chief Information Officer.*

## NUCLEAR REGULATORY COMMISSION

[Docket Number 40-8452]

### Bear Creek Uranium Company; Notice of Opportunity for Hearing

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of Receipt of Application from Bear Creek Uranium Company to change two site-reclamation milestones in Condition 49 of Source Material License No. SUA-1310 for the Bear Creek, Wyoming Uranium Mill site.

**SUMMARY:** Notice is hereby given that the U.S. Nuclear Regulatory Commission (NRC) has received, by letter dated October 24, 1997, an application from Bear Creek Uranium Company (BCUC) to amend License Condition (LC) 49 of Source Material License No. SUA-1310 for the Bear Creek, Wyoming uranium mill site. By this amendment application, the licensee proposes to modify LC 49 to change the completion date for two site-reclamation milestones. The new dates proposed by BCUC would extend the completion of placement of the final radon barrier by one year and the completion of placement of the erosion protection cover by five months. BCUC is requesting these extensions because
