SUMMARY: In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA),

as amended, EPA is issuing a notice of receipt of request for amendment by FMC Corporation, the sole US registrant, to delete the use of the pesticide flowable carbofuran on grapes and strawberries.

DATES: Unless the request is withdrawn, the Agency will approve these use deletions and the deletions will become effective on May 14, 1997. FMC has waived the 180 days allowed under the Food Quality Protection Act of 1996.

SUPPLEMENTARY INFORMATION:

I. Introduction

Section 6(f)(1) of FIFRA, provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be amended to delete one or more uses. The Act further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the Federal Register. Thereafter, the Administrator may approve such a request.

II. Background

In August of 1995, EPA advised FMC Corporation of its concern for the acute avian risk posed by the use of flowable carbofuran. The Agency's concern was based on field reports and laboratory evidence of bird kills due to carbofuran use and misuse. In response to the Agency's concern, FMC Corporation has agreed to implement a number of measures intended to reduce the risk of flowable carbofuran to birds. Among these measures is the voluntary cancellation of flowable carbofuran use on grapes and strawberries.

III. Intent to Delete Uses

This notice announces receipt by the Agency of an application from FMC Corporation, to delete uses under section 3 or 24(c) of FIFRA. FMC submitted applications to amend its granular carbofuran registrations on June 15, 1996. These registrations are listed by registration number (or company number and 24(c) number) in the following Table 1.

TABLE 1. — REGISTRATIONS WITH REQUESTS FOR AMENDMENTS TO DELETE USES IN CERTAIN PESTICIDE REGISTRATIONS

Registration No.	Product Name	Active Ingredient	Delete From Label
279-2876 CA-820076 CT-940002 ME-880004 MI-920003 MN-830013 MO-890002 NH-820004 OH-900001 PA-890003 TN-870008 VA-840007 VT-800009 AZ-890018 OR-850024 WA-820041 CA-850059	Furadan 4F Insecticide/Nematicide	Carbofuran	Grapes and strawberries

Users of this product who desire continued use on the crops being deleted should contact both the EPA contact person listed above, and the registrant at the following address: Dr. Don Carlson, FMC Corporation, Agricultural Chemicals Group, 1735 Market Street, Philadelphia, PA 19103; telephone: (215) 299-6436, to discuss withdrawal of the application for amendment before May 14, 1997. It should be noted however, that because these deletions are being proposed to reduce avian risk, it is incumbent on any proponent of further use to demonstrate that further use will not pose unreasonable risk to bird species. This 90-day comment period will also permit other interested members of the public to comment prior to the Agency's approval of the deletions.

IV. Existing Stocks Provisions

The Agency authorizes FMC Corporation to sell and distribute product labeled for use on grapes and strawberries for a period of 12 months after approval of the revision. Remaining stocks of flowable carbofuran labeled for use on grapes and strawberries in the hands of growers and distributors may be used until such stocks are depleted.
