Agency Information Collection Activities: Emergency Processing of Proposed Collection: Safe Drinking Water Act State Revolving Fund Program Guidance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that EPA is planning to submit a Request for Emergency Processing of its proposed Information Collection Request (ICR #1803.01) to the Office of Management and Budget (OMB) regarding the Drinking Water State Revolving Fund (DWSRF) Program Guidance that is being developed as the result of the Safe Drinking Water Act (SDWA). The SDWA Amendments of 1996 (Pub. L. 104-182) authorize a DWSRF program to assist public water systems to finance the costs of infrastructure needed to achieve or maintain compliance with SDWA requirements and to protect public health.

The EPA began the ICR process with the first notice published in the Federal Register on December 31, 1996. This notice is in addition to and does not alter the comment process outlined in the December 31, 1996 notice. We are seeking emergency processing of the ICR to allow the awarding of capitalization grants beginning on February 28, 1997. Approval of the ICR through the emergency request process will allow a 90-day, temporary collection of the information needed to process those grants.

FOR FURTHER INFORMATION CONTACT: Clifford Yee (202) 260-5822; FAX: (202) 260-0116; E-mail: yee.clifford@epamail.epa.gov.

SUPPLEMENTARY INFORMATION:

Affected Entities: Entities potentially affected by this action are the 50 states, Puerto Rico, the District of Columbia, the Territories, and the recipients of assistance in each of these jurisdictions.

The EPA published notice regarding the Information Collection Request on

¹ 18 CFR 37.4.² 18 CFR 37.4(c).

December 31, 1996, and we will continue the process outlined in that announcement according to the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). We will continue to accept comments during the initial 60-day comment period which ends March 2, 1997. The second comment period on the draft final ICR will begin shortly after the close of the initial comment period. We expect approval of the final ICR, which will allow for information collection for a three-year period, on approximately May 1, 1997.

The EPA is currently requesting emergency processing of its proposed ICR to meet a commitment to the states that capitalization grants will begin to be processed and awarded on February 28, 1997. This emergency processing request does not alter the original process outlined in the December 31, 1996 notice but provides for a 90-day, temporary collection of the information required to process grants. During that 90-day period, we anticipate receiving approval for the ICR for the three-year period.

Dated: February 6, 1997.

Agency Information Collection Activities: Submission for OMB Review; Comment Request; Hazardous Waste Management System: Land Disposal Restrictions "No-Migration" Variances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Hazardous Waste Management System: Land Disposal Restrictions "No-Migration" Variances, OMB Control Number 2050-0062, expiring on April 30, 1997. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before March 17, 1997.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 1353.05.

SUPPLEMENTARY INFORMATION:

Title: Hazardous Waste Management System: Land Disposal Restrictions "No-Migration" Variances (OMB Control Number 2050-0062, EPA ICR No. 1353), expiring 4/30/97. This is a request for extension of a currently approved collection.

Abstract: The 1984 Hazardous and Solid Waste Amendments to the Resource Conservation and Recovery Act (RCRA) of 1976 created substantial new requirements for those who manage hazardous waste. (See 42 U.S.C. 6905, 6912(a), 6921, 6924, 6925, and 6935.) The amendments prohibit land disposal of hazardous wastes beyond specified dates unless, as provided in RCRA Sections 3004 (d), (e), and (g), the owner/operator of a hazardous waste storage or disposal facility demonstrates to the Administrator of the Environmental Protection Agency (EPA) that there will be no migration of hazardous constituents from the land disposal unit for as long as the waste remains hazardous.

To receive a variance from the hazardous waste land disposal prohibitions under 40 CFR part 268.6, owner/operators of hazardous waste storage or disposal facilities may petition the Environmental Protection Agency to allow land disposal of a specific restricted waste at a specific site. The Agency will review the petitions and determine if they successfully demonstrate "no migration." The applicant must demonstrate that hazardous wastes can be managed safely in a particular land disposal unit, so that "no migration" of any hazardous constituent occurs from the unit for as long as the waste remains hazardous. If EPA grants the variance, the waste is no longer prohibited from land disposal in that particular unit. If the owner/operator fails to make this demonstration, or chooses not to petition for the variance, best demonstrated available technology (BDAT) requirements of 40 CFR 268.40 *et seq* must be met before the hazardous waste is placed in a land disposal unit. Responses to the collection of information are voluntary.

The information collected is not of a personal nature nor is it subject to the Privacy Act of 1974 or Office of Management and Budget Circular A-108. EPA expects that owners and operators may wish to maintain the confidentiality of certain information. Provisions for confidentiality are found in Section 3007 (b) of RCRA and in 40 CFR Part 2, which establishes EPA's general policy regarding public disclosure of information. Provisions for

confidentiality have also been included in 40 CFR Part 260, the general rule of the RCRA hazardous waste management system. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 11/1/96 (61FR56539); 1 comment was received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 9,506 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: 1.

Estimated Number of Respondents: 1.

Frequency of Response: 1.

Estimated Total Annual Hour Burden: 9,506 hours.

Estimated Total Annualized Cost Burden: \$471,609.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1353.05 and OMB Control Number 2050-0062 in any correspondence.
