

SUPPLEMENTARY INFORMATION: The Corporation for National Service is a federal government corporation that engages Americans of all ages and backgrounds in community-based service. This service addresses the nation's educational, public safety, environmental, and other human needs to achieve direct and demonstrable results. In supporting national service programs, the Corporation fosters civic responsibility, strengthens the ties that bind us together as a people, and provides educational opportunity for those who make a substantial commitment to service. The Corporation supports several types of national service, including: AmeriCorps*State/National, AmeriCorps*VISTA, AmeriCorps*National Civilian Community Corps; Learn and Serve America (K-12 and Higher Education); and the National Senior Service Corps (Retired Senior Volunteer Program, Foster Grandparent Program, Senior Companion Program).

The Corporation provides training and technical assistance to national service programs in a variety of areas and uses the Presidio Leadership Center (PLC) for leadership training. The PLC currently provides an executive-level training program (the National Service Executive program) open to leaders of Corporation-funded programs by application only. The purpose of this notice is to make available the leadership training resources of the PLC to more national service programs by offering the opportunity for a limited number of programs to receive customized training at the PLC. The PLC is also prepared to accommodate requests to provide customized training at locations other than the PLC.

Portions of the National Service Executive program curriculum—such as facilitative leadership, meeting skills management, situational leadership, building collaborative teams, customer service, managing change, and the use of different assessment instruments as a means of individual leadership development—are most appropriate for customized assistance. Training sessions could range from one to five days in length depending on the number of topics included. Topics and length of time necessary may need to be adjusted based upon the objectives for the training identified by the requestor.

The PLC will incur its fixed costs associated with curriculum design and trainers. However, the requester will be responsible for trainer travel and lodging costs (for training sessions conducted at locations other than the PLC) and the cost of any necessary materials (*i.e.*, handbooks, assessment

instruments, etc.). The Corporation encourages requesters to involve individuals who have already been trained by the PLC (*i.e.*, National Service Executive Program alumni and AmeriCorps Leaders) as a means of reducing costs.

The PLC is committed to achieving the greatest impact possible through its limited resources, and therefore must exercise substantial discretion in acting on requests for this assistance. The PLC is particularly interested in providing training sessions for participants across all program streams within a State or a region, or for multiple similar programs within a State or region.

Interested national service programs should make their request in writing to the PLC, describing: (1) The type of training requested; (2) the type of national service program or programs operated by the requesting or co-sponsoring organizations; (3) the preferred time frame; (4) the ability to cover necessary costs; and (5) the expected number and background of participants.

The Corporation will consider requests for customized leadership training as they are received, taking into consideration the following factors:

1. Achieving balance across program type and geographical area.
2. Number of participants.
3. Breadth of participating programs and organizations.
4. Constraints on the PLC's resources.
5. Non-duplication of training and technical assistance otherwise available.

Dated: February 21, 1997.

Barry W. Stevens,

Acting General Counsel.
