*Title:* Provision of Services in Interstate Child Support Enforcement: Standards Forms.

*OMB No.:* Reinstatement.  
*Description:* Regulation at 45 CFR 303.7 require a State child support enforcement agency to transmit child support case information on standard

interstate forms when referring a case to another State for processing. The forms promote uniformity and standardization. The existing standard interstate forms are based upon interstate child support enforcement actions filed under the Uniform Reciprocal Enforcement of Support Act (URESAs). The forms associated with this information collection have been revised to be consistent with the Uniform Interstate Family Support Act (UIFSA). UIFSA is the new interstate child support enforcement model law, intended to replace URESAs. UIFSA is the new interstate child support enforcement model law, intended to replace URESAs. UIFSA has already replace URESAs in 34 States, and under the Personal Responsibility and Work

Opportunity Reconciliation Act of 1996, Federal law mandate that all States enact UIFSA by January 1, 1998. The standard interstate forms in this

information collection will assist the States in making the transition from URESA to UIFSA.

*Respondents:* State governments, Guam, Virgin Islands, Puerto Rico and the District of Columbia.

**Survey of Food Safety Practices of Food Processing Firms—New Collection**

FDA is evaluating the marginal costs of requiring food processors to use Hazard Analysis and Critical Control Point (HACCP) systems. HACCP is already required for seafood processors, and FDA is considering whether to issue regulations requiring HACCP for processors of other foods under the agency's jurisdiction. The analysis of marginal costs requires information about the prevalence of specific HACCP systems and practices among food manufacturers and repackers. FDA will collect this information through an anonymous voluntary survey of a random sample of food processors. Additionally, through a series of on-site visits to selected processors, a contractor will collect information on the marginal cost of various procedures required to operate a HACCP system. The information will help the Center for Food Safety and Applied Nutrition determine the baseline level of HACCP
