SUPPLEMENTARY INFORMATION: On September 27 and October 25, 1996, the Committee for Purchase From People Who Are Blind or Severely Disabled published notices (61 F.R. 50804 and 55268) of proposed additions to the Procurement List.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the commodities and service and impact of the additions on the current or most recent contractors, the Committee has determined that the commodities and service listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the

commodities and service to the Government.

2. The action will not have a severe economic impact on current contractors for the commodities and service.

3. The action will result in authorizing small entities to furnish the commodities and service to the Government.

Dynamic Random Access Memory Semiconductors of One Megabit or Above From the Republic of Korea; Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of final results of antidumping duty administrative review.

SUMMARY: On July 9, 1996, the Department of Commerce (the Department) published the preliminary results of administrative review of the antidumping duty order on dynamic random access memory semiconductors (DRAMs) of one megabit or above from the Republic of Korea (61 FR 36029). The review covers two manufacturers/exporters of the subject merchandise to the United States for the period May 1, 1994 through April 30, 1995. These manufacturers/exporters are LG Semicon Co., Ltd. (LGS, formerly Goldstar Electron Co., Ltd.) and Hyundai Electronics Industries, Inc. (HEI/Hyundai).

As a result of our analysis of the comments received, the antidumping margins have changed from those presented in our preliminary results.

EFFECTIVE DATE: January 7, 1997.

FOR FURTHER INFORMATION CONTACT: Thomas F. Futtner, AD/CVD Enforcement Office 4, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230, telephone: (202) 482-3814.

SUPPLEMENTARY INFORMATION:

Background

On May 10, 1995, the Department published a notice of "Opportunity to Request an Administrative Review" of this antidumping duty order for the period of May 1, 1994, through April 30, 1995 (60 FR 24831). We received timely requests for review from three manufacturers/exporters of subject merchandise to the United States:

Hyundai Electronics Industries, Co. (Hyundai), LG Semicon Co., Ltd. (LGS, formerly Goldstar Electron Co., Ltd.), and Samsung Electronics Co. (Samsung). The petitioner, Micron Technologies Inc., requested an administrative review of these same three Korean manufacturers of DRAMs. On June 15, 1995, the Department initiated a review of the above Korean manufacturers (60 FR 31447). The period of review (POR) for all respondents was May 1, 1994, through April 30, 1995.

On June 26, 1995, in accordance with section 773(b)(2)(A)(ii) of the Tariff Act of 1930, we also initiated an investigation to determine if Hyundai and LGS made sales of the subject merchandise below the cost of production (COP) during the POR based upon the fact that we disregarded sales found to have been made below the COP in the original less-than-fair-value (LTFV) investigation.

Samsung, formerly a respondent in this administrative review, was excluded from the antidumping duty order on DRAMs from Korea on February 8, 1996. See Final Court Decision and Partial Amended Final Determination: Dynamic Random Access Memory Semiconductors of One Megabit and Above From the Republic of Korea, 61 FR 4765 (February 8, 1996). Accordingly, we terminated this review with respect to Samsung.

On July 9, 1996, the Department published the preliminary results (61 FR 36029) of administrative review of the antidumping duty order on DRAMs of one megabit or above from the Republic of Korea. We received timely comments from the petitioner and both respondents.

Scope of the Review

Imports covered by the review are shipments of DRAMs of one megabit and above from the Republic of Korea (Korea). For purposes of this review, DRAMs are all one megabit and above, whether assembled or unassembled. Assembled DRAMs include all package types. Unassembled DRAMs include processed wafers, uncut die and cut die. Processed wafers produced in Korea, but packaged, or assembled into memory modules in a third country, are included in the scope; wafers produced in a third country and assembled or packaged in Korea are not included in the scope of this review.

The scope of this review includes memory modules. A memory module is a collection of DRAMs, the sole function of which is memory. Modules include single in-line processing modules (SIPs), single in-line memory modules

(SIMMs), or other collections of DRAMs, whether unmounted or mounted on a circuit board. Modules that contain other parts that are needed to support the function of memory are covered. Only those modules which contain additional items which alter the function of the module to something other than memory, such as video graphics adapter (VGA) boards and cards, are not included in the scope.

The scope of this review also includes video random access memory semiconductors (VRAMs), as well as any future packaging and assembling of DRAMs.

The scope of this review also includes removable memory modules placed on motherboards, with or without a central processing unit (CPU), unless the importer of motherboards certifies with the Customs Service that neither it, nor a party related to it or under contract to it, will remove the modules from the motherboards after importation. The scope of this review does not include DRAMs or memory modules that are reimported for repair or replacement.

The DRAMs subject to this review are classifiable under subheadings 8542.11.0001, 8542.11.0024, 8542.11.0026, and 8542.11.0034 of the Harmonized Tariff Schedule of the United States (HTSUS). Also included in the scope are those removable Korean DRAMs contained on or within products classifiable under subheadings 8471.91.0000 and 8473.30.4000 of the HTSUS. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this review remains dispositive.

Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act) by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the Department's regulations are to the current regulations, as amended by the interim regulations published in the Federal Register on May 11, 1995 (60 FR 25130).
