

similar organization, corporation, or association.

(b) *Real estate brokerage CUSO*. An FCU may not invest in, or loan to, a CUSO engaged in real estate brokerage services after April 1, 1998, except as provided in § 712.9.

§ 712.7 What must an FCU do to add activities or services that are not preapproved?

In order for an FCU to invest in and/or loan to a CUSO that offers an unpreapproved activity or service, the FCU must first receive NCUA Board approval. The request for NCUA Board approval of an unpreapproved activity or service must include a full explanation and complete documentation of the activity or service and how that activity or service is associated with routine credit union operations. The request must be submitted jointly to your Regional Office and to the Secretary of the Board. The request will be treated as a petition to amend § 712.5 and NCUA will request public comment or otherwise act on the petition within 60 days after receipt.

§ 712.8 What transaction and compensation limits might apply to individuals related to both an FCU and a CUSO?

(a) *Officials and Senior Management Employees*. The officials, senior management employees, and their immediate family members of an FCU that has outstanding loans or investments in a CUSO must not receive any salary, commission, investment income, or other income or compensation from the CUSO either directly or indirectly, or from any person being served through the CUSO. This provision does not prohibit such FCU officials or senior management employees from assisting in the operation of a CUSO, provided the officials or senior management employees are not compensated by the CUSO. Further, the CUSO may reimburse the FCU for the services provided by such FCU officials and senior management employees only if the account receivable of the FCU due from the CUSO is paid in full at least every 120 days. For purposes of this paragraph (a), "official" means affiliated credit union directors or committee members. For purposes of this paragraph (a), "senior management employee" means affiliated credit union chief executive officer (typically this individual holds the title of President or Treasurer/Manager), any assistant chief executive officers (e.g. Assistant President, Vice President, or Assistant Treasurer/Manager) and the chief

financial officer (Comptroller). For purposes of this paragraph (a), "immediate family member" means a spouse or other family members living in the same household.

(b) *Employees*. The prohibition contained in paragraph (a) of this section also applies to FCU employees not otherwise covered if the employees are directly involved in dealing with the CUSO unless the FCU's board of directors determines that the FCU employees' positions do not present a conflict of interest.

(c) *Others*. All transactions with business associates or family members of FCU officials, senior management employees, and their immediate family members, not specifically prohibited by paragraphs (a) and (b) of this section must be conducted at arm's length and in the interest of the FCU.

§ 712.9 When must an FCU comply with this part?

(a) *Investments*. An FCU's investments in CUSOs in existence prior to April 1, 1998, must conform with this part not later than April 1, 2001, unless the Board grants prior approval to continue such investment for a stated period.

(b) *Loans*. An FCU's loans to CUSOs in existence prior to April 1, 1998, must conform with this part not later than April 1, 2001, unless:

(1) The Board grants prior approval to continue the FCU's loan for a stated period; or

(2) Under the terms of its loan agreement, the FCU cannot require accelerated repayment without breaching the agreement.

BILLING CODE 7535-01-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 98-ACE-5]

Revocation and Establishment of Class D; and Revocation, Establishment and Modification of Class E Airspace Areas; Olathe, Johnson County Industrial Airport, KS

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Direct final rule; request for comments.

SUMMARY: This action revokes the Class D and Class E airspace areas designated "Olathe, Johnson County Industrial Airport, KS," and establishes a Class D

and a larger Class E airspace area in their place designated "Olathe, New Century Aircenter, KS." The name of the Olathe, Johnson County Industrial Airport has been changed to Olathe, New Century Aircenter. In order to rename the Class D and Class E areas it is necessary to evoke the existing airspace designation, and to reestablish the airspace under the new designation. This action also increases the size of the Class E airspace area extending upward from 700 feet Above Ground Level (AGL). A revision to the Airport Reference Point (ARP) coordinates is included in this document. This additional controlled airspace is necessary to accommodate the criteria for diverse departures as specified in FAA Order 7400.2D.

DATES: *Effective date:* 0901 UTC, June 18, 1998.

COMMENT DATE: Comments for inclusion in the Rules Docket must be received on or before May 1, 1998.

ADDRESSES: Send comments regarding the rule in triplicate to: Manager, Airspace Branch, Air Traffic Division, ACE-520, Federal Aviation Administration, Docket Number 98-ACE-5, 601 East 12th Street, Kansas City, MO 64106.

The official docket may be examined in the Office of the Regional Counsel for the Central Region at the same address between 9:00 a.m. and 3:00 p.m., Monday through Friday, except Federal holidays.

An informal docket may also be examined during normal business hours in the Air Traffic Division at the same address listed above.

FOR FURTHER INFORMATION CONTACT: Kathy Randolph, Air Traffic Division, Airspace Branch, ACE-520C, Federal Aviation Administration, 601 East 12th Street, Kansas City, MO 64106; telephone: (816) 426-3408.

SUPPLEMENTARY INFORMATION: This amendment to 14 CFR 71 revokes the Class D and Class E airspace at Olathe, Johnson County Industrial Airport, KS, and reestablishes Class D and Class E airspace at Olathe, New Century Aircenter, KS. The enlarged Class E airspace at Olathe, New Century Aircenter will comply with the criteria in FAA Order 7400.2D for diverse departures. The criteria in FAA Order 7400.2D for an aircraft to reach 1,200 feet AGL, is based on a standard climb gradient of 200 feet per mile, plus the distance from the ARP to the end of the outermost runway. Any fractional part of a mile is converted to the next higher tenth of a mile. The Class D and Class E areas also indicate the new ARP and name. The enlarged Class E airspace at

New Century Aircenter, KS, will meet the criteria of FAA Order 7400.2D, provide additional controlled airspace at and above 700 feet AGL, and thereby facilitate separation of aircraft operating under Instrument Flight Rules (IFR). The areas will be depicted on appropriate aeronautical charts. Class D airspace areas are published in paragraph 5000, and Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9E, dated September 10, 1997, and effective September 16, 1997, which is incorporated by reference in 14 CFR 71.1. The Class D and Class E airspace areas designation listed in this document will be published subsequently in the Order.

The Direct Final Rule Procedure

The FAA anticipates that this regulation will not result in adverse or negative comment and, therefore, is issuing it as a direct final rule. Previous actions of this nature have not been controversial and have not resulted in adverse comments or objections. The amendment will enhance safety for all flight operations by designating an area where VFR pilots may anticipate the presence of IFR aircraft at lower altitudes, especially during inclement weather conditions. A greater degree of safety is achieved by depicting the area on aeronautical charts. Unless a written adverse or negative comment, or a written notice of intent to submit an adverse or negative comment is received within the comment period, the regulation will become effective on the date specified above. After the close of the comment period, the FAA will publish a document in the **Federal Register** indicating that no adverse or negative comments were received and confirming the date on which the final rule will become effective. If the FAA does receive, within the comment period, an adverse or negative comment, or written notice of intent to submit such a comment, a document withdrawing the direct final rule will be published in the **Federal Register**, and a notice of proposed rulemaking may be published with a new comment period.

Comments Invited

Although this action is in the form of a final rule was not preceded by a notice of proposed rulemaking, comments are invited on this rule. Interested persons are invited to comment on this rule by submitting such written data, views, or arguments as they may desire. Communications should identify the Rules Docket number and be submitted in triplicate to the address specified

under the caption **ADDRESSES**. All communications received on or before the closing date for comments will be considered, and this rule may be amended or withdrawn in light of the comments received. Factual information that supports the commenter's ideas and suggestions is extremely helpful in evaluating the effectiveness of this action and determining whether additional rulemaking action would be needed.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy-related aspects of the rule that might suggest a need to modify the rule. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report that summarizes each FAA-public contact concerned with the substance of this action will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their comments submitted in response to this rule must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. 98-ACE-5". The postcard will be date stamped and returned to the commenter.

Agency Findings

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

The FAA has determined that this regulation is noncontroversial and unlikely to result in adverse or negative comments. For the reasons discussed in the preamble, I certify that this regulation (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) if promulgated, will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

Accordingly, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9E, Airspace Designations and Reporting Points, dated September 10, 1997, and effective September 16, 1997, is amended as follows:

* * * * *

Paragraph 5000 Class D airspace.

* * * * *

ACE KS D Olathe, Johnson County Industrial Airport, KS [Remove]

ACE KS D Olathe, New Century Aircenter, KS [New]

Olathe, New Century Aircenter, KS

(Lat. 38°49'51"N., long. 94°53'25"W.)

Olathe, Johnson County Executive Airport, KS

(Lat. 38°50'51"N., long. 94°44'15"W.)

That airspace extending upward from the surface to and including 3,600 feet MSL within a 4.3-mile radius of New Century Aircenter, excluding that airspace within the Johnson County Executive Airport, KS, Class D airspace and excluding that airspace bounded on the north by lat. 38°49'30"N. and on the east by long. 94°56'30"W. This Class D airspace area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory.

* * * * *

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

ACE KS E5 Olathe, Johnson County Industrial Airport, KS [Remove]

ACE KS E5 Olathe, New Century Aircenter, KS [New]

Olathe, New Century Aircenter, KS

(Lat. 38°49'51"N., long. 94°53'25"W.)

That airspace extending upward from 700 feet above the surface of a 6.7-mile radius of New Century Aircenter.

* * * * *

Issued in Kansas City, MO, on February 3, 1998.

Christopher R. Blum,

Acting Manager, Air Traffic Division, Central Region.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 97

[Docket No. 29152; Amdt. No. 1852]

RIN 2120-AA65

Standard Instrument Approach Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: An effective date for each SIAP is specified in the amendatory provisions.

Incorporation by reference—approved by the Director of the Federal Register on December 31, 1980, and reapproved as of January 1, 1982.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

For Examination—

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591;

2. The FAA Regional Office of the region in which the affected airport is located; or

3. The Flight Inspection Area Office which originated the SIAP.

For Purchase—

Individual SIAP copies may be obtained from:

1. FAA Public Inquiry Center (APA-200), FAA Headquarters Building, 800

Independence Avenue, SW., Washington, DC 20591; or

2. The FAA Regional Office of the region in which the affected airport is located.

By Subscription—

Copies of all SIAPs, mailed once every 2 weeks, are for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

FOR FURTHER INFORMATION CONTACT: Paul J. Best, Flight Procedures Standards Branch (AFS-420), Technical Programs Division, Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 267-8277.

SUPPLEMENTARY INFORMATION: This amendment to part 97 of the Federal Aviation Regulations (14 CFR part 97) establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs). The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR part 51, and § 97.20 of the Federal Aviation Regulations (FAR). The applicable FAA Forms are identified as FAA Forms 8260-3, 8260-4, and 8260-5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the **Federal Register** expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form documents is unnecessary. The provisions of this amendment state the affected CAR (and FAR) sections, with the types and effective date of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

The Rule

This amendment to part 97 is effective upon publication of each separate SIAP as contained in the transmittal. Some SIAP amendments may have been previously issued by the FAA in a National Flight Data Center (FDC) Notice to Airmen (NOTAM) as an

emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require making them effective in less than 30 days. For the remaining SIAPs, an effective date at least 30 days after publication is provided.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPS). In developing these SIAPs, the TERPS criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close of immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs are impracticable and contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 97

Air Traffic Control, Airports, Navigation (Air).

Issued in Washington, DC, on February 20, 1998.

Tom E. Stuckey,

Acting Director, Flight Standards Service.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 97 of the Federal Aviation Regulations (14 CFR part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures, effective at 0901 UTC on the dates specified, as follows:

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

1. The authority citation for part 97 is revised to read as follows:
