Sec. 20, SE $\frac{1}{4}$ NE $\frac{1}{4}$

Containing 1.00 acre, more or less.

USA Inc., and Farmland Industries, Inc., Case No. 98-361-CIV-T-24C. The Complainant in this case alleges that Norsk Hydro USA, Inc., entered into a secret agreement with Seminole Fertilizer Corp., which had the effect of eliminating Seminole as a viable bidder on an ammonia storage facility in Tampa, Florida, in violation of Section 1 of the Sherman Act, 15 U.S.C. 1. The Complaint also alleges that Farmland Industries, Inc., participated in the efforts to reach the agreement and would have benefitted from Hydro's purchase of the facility. The proposed Final Judgment enjoins Hydro and Farmland from submitting any jointly determined bid for the acquisition of any ammonia asset located in the United States that is being sold by or under the auspices of a court or agency of the United States, unless they (1) disclose to the seller of the asset and the person administering the sale of the asset that a joint bid is being submitted, and (2) do not, without disclosing to the seller in advance of the sale, violate any of the terms or conditions for bidding imposed by the seller of the asset or violate any of the terms or conditions for bidding imposed by the person administering the sale of the asset. Each defendant is required to establish and maintain an antitrust compliance program which includes annually briefing its officers and directors engaged in the ammonia business on the meaning and requirements of the Final Judgment and the antitrust laws.

Public comment on the proposed Final Judgment is invited during the next 60 days. Such comments and responses thereto will be published in the **Federal Register** and filed with the Court.
