#### 810 and 840 Series

These final test guidelines in the 810 Series replace the corresponding test guidelines published in the OPP Pesticide Assessment Guidelines, Subdivision G: Product Performance (EPA Report 540/9-82-026, October 1982). The Group A test guideline, OPPTS 810.1000, provides an overview, definitions, and general considerations for product performance testing. In addition, test standards for pesticides other than antimicrobials are included in this test guideline. This test guideline replaces OPP guidelines 90-1 through 90-30, 92-1 through 92-20, and 93-1 through 93-30. For Group C, the Agency is republishing only those efficacy or product performance test guidelines for

public health uses of invertebrate control agents. The test guidelines in Group C have been minimally edited with no substantive changes and replace OPP guidelines 95-1 through 95-30. Group B (Public Health Uses of Antimicrobial Agents) and Group D (Vertebrate Control Agent Product Performance Guidelines) are under development and will be published in the future. The OPPTS Series 840—Spray Drift guidelines replace the OPP Pesticide Assessment Guidelines, Subdivision R: Pesticide Spray Drift Evaluation (EPA Report 540/9-84-002, April 1984), OPP guidelines 200-1 through 200-4, 201-1, and 202-1. The guidelines in the 840 series have been minimally edited for re-publication, but have not been changed in any substantive way except for the

description of the ongoing effort in developing the Spray Drift Data Base included in OPPTS 840.1000. Although the Agency plans to revise its approach for testing for spray drift in the future, the current guidelines are in effect and are being republished as part of the unified library of OPPTS test guidelines. When the Agency has completed the process of revising the Spray Drift guidelines, the revised guidelines will replace the current guidelines.
