SUPPLEMENTARY INFORMATION:

I. Introduction

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be amended to delete one or more uses. The Act further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, the Administrator may approve such a request.

II. Intent to Delete Uses

This notice announces receipt by the Agency of applications from registrants to delete uses in six technical grade chlorpyrifos pesticide registrations listed in the following Table 1. These registrations are listed by registration number, product names, active ingredients and the specific uses deleted. Although the food use sites

being deleted have been registered sites for chlorpyrifos products, tolerances have not been established for these commodities under the Federal Food, Drug, and Cosmetic Act (FFDCA).

Therefore, under FIFRA section 2(bb), these uses represent an unreasonable adverse effect on the environment, as they would result in human dietary risk from residues resulting from use of a pesticide in or on food inconsistent with the standard under section 408 of FFDCA. As such, the Agency is hereby waiving the 180-day comment period normally given for the deletion of a minor use, in accordance with FIFRA section 6(f)(1)(c). The Agency has determined that, while these actions require publication for the purpose of announcement, a comment period is not warranted.

The remaining use deletions (non-food sites) announced in this Notice will retain a 30-day comment period. Users of these products who desire continued use on sites being deleted should contact the applicable registrant before April 17, 1998 to discuss withdrawal of the applications for amendment. This 30-day period will also permit interested members of the public to intercede with registrants prior to the Agency approval of the deletion.

III. Existing Stocks Provisions

This determination was based in part on the voluntary agreement of these registrants to cease selling product bearing previously approved labeling within that time period.
