*Ex parte contact.* For the purposes of ex parte contact, each petition submitted pursuant to section 214(e)(6) will be treated as initiating a permit-but-disclose proceeding under the Commission's rules. See 47 CFR 1.1206.

*Paperwork Reduction Act Requirement.* In the Report and Order on Universal Service (released May 8, 1997), the Commission adopted rules that are designed to implement the universal service provision of section 254 of the Act. In accord with the Paperwork Reduction Act, we previously received OMB approval for the information collections that carriers must comply with in order to apply to their state commissions for designation as carriers eligible to receive universal support pursuant to section 254. Section 214(e) directs the Commission to designate telecommunications carriers that meet specified requirements as eligible in situations where the telecommunications carrier is not subject to the jurisdiction of a state commission. To implement this new statute, we will require telecommunications carriers that seek to be classified as eligible by the Commission and are not subject to the jurisdiction of a state commission to send to the Commission information demonstrating that they meet the eligibility criteria set forth in the Telecommunications Act of 1996 and described in the Commission's rules. This information must be submitted according to the procedural requirements described above. These reporting requirements are necessary to verify that particular carriers are eligible to receive universal service support.

We have estimated that each response to this collection of information will

take, on average, 58 hours for respondents filing petitions and 20 hours for respondents filing written comments. Our estimate includes the time to comply with the statutory requirements, read this Public Notice, review existing records, gather and maintain required data, and complete and review the response. If you have any comments on this estimate, or on how we can improve the collection and reduce the burden it causes you, please write the Federal Communications Commission, AMD-PERM, Washington, D.C. 20554, Paperwork Reduction Project (3060-0793). We will also accept your comments on the burden estimate via the Internet if you send them to [jboley@fcc.gov](mailto:jboley@fcc.gov). Please Do Not Send petitions requesting Commission designation as an eligible telecommunications carrier to this e-mail address.

You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0810, which expires on May 31, 1998.

This notice is required by the Privacy Act of 1974, Public Law 93-579, December 31, 1974, 5 U.S.C. section 552a(e)(3) and the Paperwork Reduction Act of 1995, Public Law 104-13, October 1, 1995, 44 U.S.C. 3507.

#### Radio Broadcasting Services; Waelder and Yorktown, TX

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule.

**SUMMARY:** The Commission denies the petition for rule making filed by Waelder Broadcasting Company proposing the allotment of Channel 242A to Waelder, Texas, as the community's first local FM service. See 62 FR 04228, January 29, 1997. In response to a counterproposal filed by Gonzales Communications, the Commission allots Channel 242A to Yorktown, Texas (RM-9075). Channel 242A can be allotted to Yorktown in compliance with the Commission's minimum distance separation requirements with a site restriction of

The coordinates for Channel 242A at Yorktown are 29-02-30 NL and 97-26-30 WL.
