

crossclaims against each other and the Defendants' counterclaims against the United States Postal Service, for contribution under CERCLA Section 113(f), 42 U.S.C. 9613(f).

In 1992, the United States Environmental Protection Agency ("EPA") conducted a removal action to address the threat from the presence of vinyl chloride, a carcinogen, in drinking-water wells near the Site. The removal action included the delivery of bottled water and air strippers, and the installation of a water line to connect residences and businesses to municipal water, at a cost of approximately \$500,000. The United States' current unrecovered costs, including prejudgment interest, enforcement costs and other costs associated with EPA's removal, total approximately \$700,000.

At a Court-ordered mediation proceeding in August 1997, the five Defendants agreed to pay \$545,000 into an interest-bearing Court repository account by October 15, 1997, with \$5,000 to be paid by the United States Postal Service after entry of a consent decree to EPA, for a total payment of \$550,000 for the costs of the removal. The proposed Consent Decree memorializes this agreement, and also provides for Mr. Prochnow's land that is adjacent to the landfill to be sold at the direction of the Defendants, which will be Mr. Prochnow's share of the costs to be paid by the Defendants. The Defendants plan to use any proceeds from the sale of that realty to defray costs associated with the proper closure of the Site.

The Department of Justice will receive comments concerning the proposed Consent Decree for a period of thirty (30) days from the date of this publication. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, U.S. Department of Justice, P.O. Box 7611, Ben Franklin Station, Washington, D.C. 20044, and should refer to *United States v. Marvin E. Prochnow, et al.*, DOJ Number 90-11-2-1118.

This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. SUPPLEMENTARY INFORMATION:

I. Background

The Migrant and Seasonal Farmworker regulations at 20 CFR 653.500 established procedures for agricultural clearance to all local offices to use the interstate clearance forms as prescribed by ETA. Local and State Employment offices use the Agricultural and Food Processing Clearance Order to extend job orders beyond their jurisdictions. Applicant holding local offices use the Agricultural Clearance Memorandum to give notice of action on a clearance order, request additional information, report results, and to accept or reject the extended job order. State agencies use the Migrant Worker Itinerary to transmit employment and supportive service information to labor-demand areas, and to assist migrant workers in obtaining employment. The Job Service Manifest Record shows names, addresses, and characteristics of all people named on the Migrant Work Itinerary.
