### Federal Open Market Committee; Domestic Policy Directive of February 3-4, 1998.

In accordance with § 271.5 of its rules  
regarding availability of information (12  
CFR part 271), there is set forth below  
the domestic policy directive issued by  
the Federal Open Market Committee at  
its meeting held on February 3-4, 1998.<sup>1</sup>  
The directive was issued to the Federal  
Reserve Bank of New York as follows:

The information reviewed at this  
meeting suggests that economic activity  
continued to grow rapidly during the  
closing months of 1997. Nonfarm  
payroll employment increased sharply  
further in December after posting very  
large gains in other recent months; the  
civilian unemployment rate, at 4.7  
percent, remained near its low for the  
current economic expansion. Industrial  
production continued to advance at a  
brisk pace in the fourth quarter.  
Consumer spending rose appreciably in  
the quarter, and housing starts remained  
close to the highs of the current  
expansion. Business fixed investment  
weakened following exceptionally  
strong increases in the second and third  
quarters; nonfarm inventory  
accumulation appears to have picked up  
somewhat. The nominal deficit on U.S.  
trade in goods and services narrowed  
significantly on average in October and  
November from its level in the third  
quarter. Price inflation has remained  
subdued despite appreciably faster  
increases in worker compensation in  
recent months.

Most interest rates have declined on  
balance since the day before the  
Committee meeting on December 16,  
1997. Share prices in U.S. equity  
markets have moved up somewhat over  
the period; equity markets in some other  
countries, notably in Asia, have  
remained volatile. In foreign exchange  
markets, the value of the dollar has risen

<sup>1</sup> Copies of the Minutes of the Federal Open  
Market Committee meeting of February 3-4, 1998,  
which include the domestic policy directive issued  
at that meeting, are available upon request to the  
Board of Governors of the Federal Reserve System,  
Washington, D.C. 20551. The minutes are published  
in the Federal Reserve Bulletin and in the Board's  
annual report.

over the intermeeting period relative to the currencies of several Asian developing countries, but it has registered only a small increase on average in relation to the currencies of major industrial nations.

M2 and M3 continued to grow at relatively rapid rates in December and apparently also in January. From the fourth quarter of 1996 to the fourth quarter of 1997, M2 expanded at a rate somewhat above the upper bound of its range for the year and M3 at a rate substantially above the upper bound of its range. Total domestic nonfinancial debt expanded in 1997 at a pace somewhat below the middle of its range.

The Federal Open Market Committee seeks monetary and financial conditions that will foster price stability and promote sustainable growth in output. In furtherance of these objectives, the Committee at this meeting established ranges for growth of M2 and M3 of 1 to 5 percent and 2 to 6 percent respectively, measured from the fourth quarter of 1997 to the fourth quarter of 1998. The range for growth of total domestic nonfinancial debt was set at 3 to 7 percent for the year. The behavior of the monetary aggregates will continue to be evaluated in the light of progress toward price level stability, movements in their velocities, and developments in the economy and financial markets.

In the implementation of policy for the immediate future, the Committee seeks conditions in reserve markets consistent with maintaining the federal funds rate at an average of around 5-1/2 percent. In the context of the Committee's long-run objectives for price stability and sustainable economic growth, and giving careful consideration to economic, financial, and monetary developments, a slightly higher federal funds rate or a slightly lower federal funds rate might be acceptable in the intermeeting period. The contemplated reserve conditions are expected to be consistent with some moderation in the growth in M2 and M3 over coming months.

By order of the Federal Open Market Committee, April 6, 1998.

[Announcement 98023]

#### Human Immunodeficiency Virus (HIV), Sexually Transmitted Diseases (STDs), and Tuberculosis (TB) Related Applied Research Projects

##### A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of funds beginning in fiscal year (FY) 1998 for cooperative agreements to conduct human immunodeficiency virus (HIV), sexually transmitted diseases (STDs), and tuberculosis (TB) related applied research into the control and prevention of HIV, STDs and TB. The purpose of this program is to encourage new and innovative methods to further the prevention of HIV, STDs and TB infection. Projects that will be considered for funding are applied research into the control and prevention of HIV, STDs, or TB. This program addresses the "Healthy People 2000" priority area(s) HIV Infection, Sexually Transmitted Diseases, and Immunization and Infectious Diseases.

##### National Program Goals

CDC's national strategic goals for the programs supported by the National Center for HIV, STDs and TB Prevention are:

1. Increase public understanding of, involvement in, and support for HIV, STDs, and TB prevention.
2. Ensure completion of therapy for persons identified with active TB or TB infection.
3. Prevent or reduce behaviors or practices that place persons at risk for HIV and STDs infection or, if already infected, place others at risk.
4. Increase individual knowledge of HIV serostatus and improve referral systems to appropriate prevention and treatment services.
5. Assist in building and maintaining the necessary State, local, and community infrastructure and technical capacity to carry out necessary prevention programs.
6. Strengthen the current systems and develop new systems to accurately monitor HIV, STDs, and TB, as a basis for assessing and directing prevention programs.

##### B. Eligible Applicants

Eligible applicants will include universities, colleges, research institutions, hospitals, public and
